Private Acts of 1991 Chapter 118

WHEREAS, after an intense national competition, the state of Tennessee successfully negotiated with the General Motors Corporation to locate its SATURN plant in Tennessee; and

WHEREAS, General Motors Corporation has constructed the SATURN automotive assembly plant in an unincorporated area of Maury County; and

WHEREAS, the investment in said plant is anticipated to be approximately \$3.5 billion when the plant is complete; and

WHEREAS, pursuant to a Payment In Lieu Of Tax (PILOT) Agreement entered into between General Motors and Maury County, the SATURN plant will make payments in lieu of property tax in an amount less than the property tax payments that would be required under the present County property tax rate of \$2.68 per \$100 of assessed valuation; and

WHEREAS, the SATURN plant is anticipated to stimulate other commercial, office, industrial and warehouse development in Maury County in the vicinity of the SATURN plant as well as in neighboring counties; and

WHEREAS, the projected non-residential development and the availability of jobs is anticipated to stimulate a significant demand for new dwelling units; and WHEREAS, in anticipation of and for the purpose of more accurately identifying the impacts of the SATURN plant and associated development on Maury County, the County retained a Consultant Team (1) to project population and employment growth in Maury County to the Year 2000 and to convert the projected population and employment forecasts into land use demand; (2) to identify the County responsibility for the provision of the additional capital facilities and improvements that would be needed as a result of such growth and to estimate the cost thereof; (3) to undertake a fiscal impact analysis to project County revenues and necessary County expenditures, given the projected growth, to the Year 2000 and to determine, at current tax and fee rates, whether revenues will be adequate to meet the projected needs; and (4) if revenues are inadequate, to explore alternative revenue sources that may now or in the future be available to increase County revenues to fund the necessary public facilities at current service levels; and

WHEREAS, the results of the Consultant Team Report, undertaken with the assistance and cooperation of the County staff and officials, show that:

(1) County population will be 75,400 persons in the Year 2000, an increase of 50% from 1980 to 2000; employment will reach 39,100 in the Year 2000, an increase of 63% from 1980; there will be a demand for approximately 12,000 additional dwelling units between 1985 and 2000; and new residential and non-residential development will consume an additional 5,000 acres of land in Maury County;

(2) Projected growth and land use development will cause a demand for County-provided capital facilities (schools, jail, parks, County government facilities, etc.) in the amount of approximately \$26 to \$28 million over the next 15 years;

(3) The cost of and additional demand for public facilities as well as increased operating expenses, staff and maintenance costs will create a budget deficit which is projected to range from \$1 million to more than \$4 million per year through the Year 2000.

(4) The County's present revenue-raising authority is limited and relies heavily on intergovernmental transfers which are not subject to County control and on property taxes, which would impose the costs of new growth on existing residents rather than on new residents and businesses who create the demand for the additional expenditures; and

WHEREAS, Maury County is committed to both present and future County residents to maintaining a level of public facilities and services commensurate with that presently provided; and

WHEREAS, Maury County is prepared to impose a fair, equitable and reasonable share of the costs of providing the necessary public facilities and services on existing residents of the County; and

WHEREAS, the County's present population, employment base, tax base and budget cannot alone support the additional revenues needed to supply facilities to service new growth without a 50% increase in the property tax rate on existing development; and

WHEREAS, the introduction of the SATURN plant in Maury County represents both an extraordinary economic opportunity for the State of Tennessee as well as a potential economic burden on the existing residents of Maury County; and

WHEREAS, due to these unique circumstances, it is necessary and appropriate that Maury County be given

authorization to extend its taxing power to enable the County to impose a fair and reasonable share of the costs of public facilities necessitated by new development on that development so as not to create an unfair and inequitable burden on existing County residents; and

WHEREAS, there is precedent in the State of Tennessee for such additional tax measures to impose costs on those who benefit from improvements and where the result would otherwise be to impose an unfair burden on existing residents; and

WHEREAS, the most logical and effective mechanism to accomplish the intended result would be the imposition of a new privilege tax on new development in Maury County; now, therefore,

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF TENNESSEE:
