## Excavation

### Private Acts of 1997 Chapter 29

**SECTION 1.** As used in this act, unless the context otherwise requires:

(1) "Excavate or excavation" means the removal from, or addition of soil to, a site for the removal, extraction, or mining of soils, limestone, gravel, rock, clays, or of any other mineral by whatever process. Excavation shall also be defined as including any earthmoving activity, other than mineral extraction, which involves over fifty (50) acres.

(2) "Process or processing" means all functions, work, facilities, and activities conducted or constructed on a site of any size, the purpose of which is the development, extraction, or benefaction of mineral deposits. This definition shall also be deemed to include pre-mining site preparation activities, all uses reasonably incidental to, with the exception of chemical processing plants, and all post-mining reclamation activities; and

(3) "Grade or grading" means any earthmoving which affects an area between two (2) and fifty (50) acres, and which is being conducted for purposes other than the extraction of any type of rock or mineral which has commercial value.

**SECTION 2.** The purpose of this act is to provide minimum development standards for earth products excavation and processing in the unincorporated areas of Johnson County so that they will be developed in a manner such as to preserve and protect the health, safety, convenience, order, prosperity and general welfare of the citizens of Johnson County through a lessening of traffic hazards and congestion, the abatement of noise, air and water pollution, the prevention of soil erosion and preserving and protecting soil stability, the preservation of aesthetic qualities, and the protection of persons and property who may otherwise be adversely affected by blasting effects and other dangers, if any, presented by such operations. It shall be unlawful to excavate or process earth products unless such operation meets the requirements of this act.

**SECTION 3.** The minimum standards which may be required for the excavation or processing of earth products shall be as follows:

(1) That the proposed excavation and its finished slopes and banks will not impair the potential future utility and development of the property after excavation operations have been completed.

(2) That no permanent machinery or structures shall be erected or maintained on the property which would tend to impair the potential future utility and development of the property after excavation operations have been completed.

(3) That appropriate measures shall be taken to protect and preserve creeks or other bodies, sources or supplies of water, both surface and round, and adjacent or nearby flora, fauna, or other vegetation.

(4) That appropriate measures shall be taken so as not to depress land values around the proposed excavation and processing operations, or otherwise adversely affect surrounding persons or property in the neighborhood; including, but not limited to, establishing hours of excavation operations, noise and vibration standards.

(5) That appropriate measures shall be taken for management of storm water on the property both during and after excavation operations have been completed.

(6) That appropriate measures shall be taken to provide for management of any nuisance from dust, or wind erosion, at storage areas, yards, access roads, service roads, or other untreated open area within the property.

(7) That appropriate measures shall be taken to provide for soil erosion and sediment control management on the property both during and after excavation operations have been completed.

(8) That appropriate measures shall be taken to provide for management of truck access to and from excavation and processing operations so as to minimize danger to traffic and nuisance to surrounding properties.

(9) That appropriate measures shall be taken to control outside access to any part of the property in which excavation and processing operations or terrain factors may cause danger; including, but

not limited to, suitable fencing, embankments or other barriers necessary for the protection and safety of vehicular and pedestrian traffic.

(10) That appropriate measures shall be taken to provide for the reclamation of the property after excavation and processing operations, or any phase thereof, have been completed.

(11) That appropriate measures shall be taken to guarantee faithful performance and completion of the reclamation work in accordance with plans as approved and any conditions of approval; including, but not limited to, permit expiration and renewal requirements, topsoil stockpile requirements, landscaping requirements and the filing of a corporate surety bond with the County Clerk in a form satisfactory to the County Attorney and in an amount approved by the County Commission to guarantee faithful performance and completion of the reclamation work in accordance with plans as approved and any conditions of approval, which bond shall cover a period of time not less than three (3) months beyond the period during which any permit obtained from Johnson County pursuant to this act is effective.

(12) That appropriate measures shall be taken to provide for the minimum setback of excavation and processing operations from any property line, public road (highway, street or similar right-of-way), publicly owned facility (park, school, or any building or similar structure), place of public assembly (church, store, office, restaurant or similar facility) or residence, necessary for the protection and safety of persons or property, or to insure the appropriate and reasonably neat appearance of excavation and processing operations from the surrounding neighborhood until final reclamation of the property after operations, or any phase thereof, have been completed.

(13) That appropriate measures shall be taken to provide for a fence or suitable barrier for the purpose of minimizing objectionable noise and screening operations from the view of vehicular or pedestrian traffic and neighboring property owners.

(14) That in considering any matter relevant to the authority granted by this act, in addition to the foregoing matters, the Planning Commission shall also be guided by the purpose of this act.

**SECTION 4.** In exercising the powers granted to it by this act, the Johnson County Planning Commission shall adopt regulations governing earth products excavation or processing operations, which regulations may provide as follows:

(a) The owner and any lessee of the land parcel proposed for earth products excavation or processing operations may be required to submit an application and plan for development to the Johnson County Planning Commission. The application and plan may be required to contain, but not be limited to, the following:

(1) A narrative describing:

- (i) The development, including location of development and adjacent properties;
- (ii) The schedule for grading and construction activities including: start and completion dates; sequence of grading and construction activities; sequence for installation and/or application of soil erosion and sediment control measures; sequence for final stabilization of the project site;
- (iii) The design criteria for proposed soil erosion and sediment control measures;
- (iv) The construction details for proposed soil erosion and sediment control measures;
- (v) The installation and/or application procedures for proposed soil erosion and sediment control measures;
- (vi) The operations and maintenance program for proposed soil erosion and sediment control measures;
- (vii) Proposed record-keeping program; and
- (viii) The identification of the person responsible for recordkeeping and monitoring required control measures, and who will be the Planning Commission's contact.

(2) A site plan map prepared by a licensed engineer, landscape architect, architect, and/or surveyor, as may be appropriate, and in accordance with state law regarding the practice of these professions. Drawings shall be at an appropriate scale to fit on 2' x 3' sheets, showing:

- (i) The boundaries of the property where the excavation is proposed and the area to be excavated, including principal wooded areas, any rock outcrops, any surrounding streets and property lines;
- (ii) The existing and proposed topography (including bottom limits of the proposed

excavation) using two (2) foot contours including soil types, wetlands, watercourses and water bodies, which contours shall be prepared from an actual field survey and based on a benchmark noted and described on the map, the proposed area alterations including cleared, excavated, filled or graded areas and, if applicable, new property lines;

(iii) Location of all land subject to flooding;

(iv) Dimensions and calls of all property lines;

(v) North point, scale, acreage of site, an location map;

(vi) Location and dimensions of all existing and proposed structures (including signs and utilities), street or road rights-of-way, sidewalks, and easements;

(vii) Plans for vehicular and pedestrian access to the property and internal circulation to and from the excavation area, utilities, solid waste disposal, landscaping and open space, signage, and off-street parking;

(viii) Plans for storm water drainage showing existing and proposed drainage on the property;

(ix) Proposed location of and design details for all proposed soil erosion and sediment control measures and the sequence for installation and/or application of those soil erosion and sediment control measures; and

(x) Any other information deemed necessary and appropriate by the applicant or requested by the Planning Commission.

(3) A key map at an appropriate scale (not less than 1" = 1,000') to fit on 2' x 3' sheets, showing any and all public roads, publicly owned facilities, places of public assembly and residences within two thousand (2,000) feet of the outer boundary of the property.

(4) A certified plan for storm water drainage shall be included with the site plan that identifies all easements, drainage structures including sizes/capacities, and other pertinent information concerning the assumptions upon which the plan is based. The estimated storm water runoff based on an appropriate storm frequency design, to be approved by the Johnson County Planning Commission, shall be calculated for predevelopment and post-development condition. Any increase in storm water runoff resulting from the development shall be detained on-site by appropriate means, such as detention basin, or other acceptable methods, and shall be released from the site so that downstream property, watercourses, channels, or conduits shall not receive storm water runoff from the site at a higher peak flow rate than that which existed prior to the development of the site. The Planning Commission may require the use of a larger storm frequency design in areas of critical concern.

Any discharge plans and/or permits required by any local, state or federal governmental agency having jurisdiction shall be submitted with the site plan.

(5) The Planning Commission may require the submission of such additional information, including, but not limited to, data on soil conditions, location and depth of rock ledge, ground water conditions and any other appropriate matters that it deems necessary to protect the public health, safety, convenience, order, prosperity and general welfare, or to make a reasonable review of the application.

The Planning Commission may waive in whole or in part any requirement for submission of an application in cases where such are not deemed necessary for reasonable review of the application.

(b) Each proposed earth products excavation or processing operation may be required to meet the minimum standards established pursuant to this act.

**SECTION 5.** It shall be unlawful for any person to excavate for earth products in the unincorporated part of Johnson County unless a permit is obtained from Johnson County or its designated agent.

**SECTION 6.** This act shall be enforced by the Johnson County Planning Commission.

(1) Any person who shall willfully neglect or refuse to comply with any of the provisions of this act shall be guilty of violating this act and, upon conviction, shall be fined not less than two dollars (\$2.00) nor more than fifty dollars (\$50.00) for each offense. Each day of violation shall constitute a separate offense.

(2) Any excavation for earth products in violation of these regulations shall be deemed an unlawful

excavation and the County Attorney or other official designated by the Johnson County Board of Commissioners, or any adjacent or neighboring property owner who would be damaged by such violation, in addition to other remedies, may institute injunction, mandamus or other appropriate action to cause the excavation to be abated.

**SECTION 7.** This act shall be administered by the Johnson County Planning Commission.

(1) All plans and plats for excavation for earth products may be required to be submitted a specified number of working days before the regular meeting date of the Planning Commission. These plans will be given preliminary and final approval by the Planning Commission.

(2) Lawful pre-existing non-conforming excavations for earth products may be required to provide the Johnson County Planning Commission with all facts and data which demonstrate that a lawful pre-existing non-conforming excavation for earth products does exist. If the Johnson County Planning Commission shall find that a lawful pre-existing non-conforming excavation for earth products does exist, the Johnson County Planning Commission may waive any standard that is inapplicable to existing operations. If the Johnson County Planning Commission shall not find that a lawful pre-existing non-conforming excavation for earth products does exist, the Johnson County Planning Commission may require the owner and any lessee to conform to all of the standards in this act.

(3) Expansion of lawful pre-existing non-conforming excavations for earth products may be required to be approved by the Johnson County Planning Commission, and conform to the standards in this act.

**SECTION 8.** Variances may be granted to any part of this act by the Planning Commission for good and sufficient reasons.

**SECTION 9.** The provisions of this act shall supersede any less stringent provisions of any ordinance of Johnson County.

**SECTION 10.** If any provisions of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to that end, the provisions of this act are declared to be severable.

**SECTION 11.** Specific standards authorized to be set by this private act, and amendments to these standards, may be initiated by the Johnson County Planning Commission, the Johnson County Board of Commissioners, a resident of Johnson County, or other persons or agents interested in these regulations. Proposed standards or amendments to them must first be submitted to the Johnson County Planning Commission for approval, disapproval, or suggestions.

The Johnson County Board of Commissioners will approve or disapprove such standards or amendments to them at their next regularly scheduled and/or called meeting. Standards and amendments to them shall become effective upon approval by the Johnson County Board of Commissioners, the public welfare requiring it.

**SECTION 12.** This act shall have no effect unless it is approved by a two-thirds ( $\frac{2}{3}$ ) vote of the county legislative body of Johnson County. Its approval or non-approval shall be proclaimed by the presiding officer of such body and certified by him to the Secretary of State.

**SECTION 13.** For the purpose of approving or rejecting the provisions of this act, it shall be effective upon becoming a law, the public welfare requiring it. For all other purposes, it shall become effective upon being approved as provided in Section 12.

Passed: April 21, 1997.

**SECTION 2.** *Regional Zoning to be Preceded by and Based on Plans Submitted by Regional Planning Commission.* That from and after the time when the Regional Planning Commission of the planning region defined and created by the State Planning Commission makes and certifies to the Quarterly County Court of any county located in whole or part in such region a zoning plan, including both the text of a zoning resolution and [sic] the zoning maps, representing the recommendation by districts or zones of the location, height and size of buildings and other structures, the percentage of lots that may be occupied,

the sizes of yards, courts and other open spaces, the density and distribution of population, the location and uses of buildings and structures for trade, industry, residence, recreation or other purposes and the uses of land for trade, industry, residence, recreation, agriculture, forestry, soil conservation, water supply conservation or other purposes, then such County Court may, by resolution, exercise the powers granted in Section 1 of this Act and, for the purpose of such exercise, may divide the territory of the county which lies within said region but outside of municipal corporations into districts of such number, shape or area as it may determine and within such districts may regulate the erection, construction, alteration and uses of buildings and structures and the uses of land.

All such regulations shall be uniform for each class or kind of buildings throughout any such district, but the regulations in one district may differ from these in other districts. ### Private Acts of 1983 Chapter 68

**SECTION 1.** That for the privilege of using the public roads and highways, and for the privilege of operating a motor vehicle within Johnson County, Tennessee, there is levied upon motor-driven vehicles and upon the privilege of the operation thereof, except farm tractors, self-propelled farm machines not usually used for operation upon public highways or roads, antique automobiles, and except all motor-driven vehicles owned by any governmental agency or governmental instrumentality, a special privilege tax for the benefit of the county, which tax shall be in addition to all other taxes, and shall be in the amount of twenty dollars (\$20.00) per each such motor-driven vehicle. In addition to the foregoing, this tax applies to, is a levy upon, and shall be paid on each motor-driven vehicle, the owner of which lives within, or usually stays within, or operates such motor-driven on, over, or upon the streets, roads, or highways of the county. Provided further, that nothing in this act shall be construed as permitting and authorizing the levy of, and the collection of, a tax against non-residents of the county to which this act applies, and to owners of such vehicles using the streets, roads, and highways of the county, who live or reside without the bounds of the county, and who do not come within the provisions of this act.

**SECTION 2.** The tax herein levied shall be collected by the county clerk of Johnson County, who shall collect this tax at the same time he or she collects the state privilege tax levied upon the operation of a motor-driven vehicle over the public highways of this state. The clerk shall not issue to a county resident a state license for the operation of a vehicle taxable hereunder unless, at the same time, the owner pays the privilege tax levied hereunder.

**SECTION 3.** Payment of the tax shall be evidenced by a receipt, issued in duplicate by the clerk, the original of which shall be kept by the vehicle owner and by a decal or emblem also issued by the clerk, which shall be affixed on the lower right hand side of the vehicle windshield. Provided, however, that the privilege tax decal for motorcycles, motor-driven bicycles and scooters shall be placed on the top portion of the gasoline tank, but if such tank is not visible or exposed, then on any prominent and visible portion of that vehicle.

**SECTION 4.** The design of the decal or emblem shall be determined by the county clerk. The expense incident to the purchase of such decals and emblems herein required, as well as the expense of obtaining proper receipts and other records necessary for the performance of the duties herein incumbent upon the county clerk shall be paid from the general fund of the county. For his or her services in collecting the tax, and in issuing the receipt therefor and delivering the decal or emblem to the owner, the clerk shall be entitled to a fee of one dollar (\$1.00) for each vehicle, motorcycle, motor-driven scooter and bicycle, it being the legislative intent that the clerk fee equal not more than five percent (5%) of the amount of tax paid; and further provided that this fee shall be deducted from the amount of tax paid. The clerk will faithfully account for, make proper reports of, and pay over to the county trustee at monthly intervals, all funds received by him or her for the payment of the tax.

**SECTION 5.** The privilege tax hereby levied, when paid together with full, complete, and explicit performance of and compliance with all provisions of this act, by the owner, shall entitle the owner of the

motor-driven vehicle for which said tax was paid, to operate this vehicle over the streets, roads and highways of the county from the purchase date of his state motor vehicle license plate or decal to the next succeeding date of renewal of such license plate or decal. If the privilege tax levied hereunder is paid at the time other than the purchase of state motor vehicle license plates or decals, such tax shall be prorated accordingly by the county clerk.

**SECTION 6.** In the event any vehicle for which the motor vehicle privilege tax has been paid and the emblem or decal issued and placed thereon by the owner, becomes unusable to the extent that it can no longer be operated over public roads; or in the event that the owner transfers the title to such vehicle, and completely removes therefrom and destroys the decal or emblem, and the owner makes proper application to the county clerk for the issuance of a duplicate decal or emblem to be used by him or another vehicle for the unexpired term for which the original decal or emblem was issued, and the clerk is satisfied that the applicant is entitled to the issuance of such duplicate decal or emblem, and the owner pays the hands of the county clerk the sum of two dollars (\$2.00), the clerk will then issue to such owner a duplicate receipt, canceling the original receipt delivered to him by the owner, and will deliver to the owner a duplicate decal or emblem, which shall be affixed to the vehicle for which it is issued by the owner, as herein provided, and such duplicate decal or emblem shall entitle the owner to operate or allow to be operated the vehicle upon the roads for the remainder of the period for which the original decal or emblem was issued.

Likewise, in the event a decal or emblem becomes obliterated, erased or defaced, or is destroyed under the provisions of this act, and is therefore illegible and unusable by the owner, upon proper application made by the owner and filed with the clerk showing such circumstances and facts to be true, then the county clerk, upon receipt from the owner of two dollars (\$2.00), may issue and deliver to the owner a duplicate decal or emblem.

**SECTION 7.** The proceeds from this tax shall be placed in the county general fund, and used exclusively for county purposes.

**SECTION 8.** It is the intent of the General Assembly of the State of Tennessee, that this act shall be construed as a measure providing for additional revenue for Johnson County.

**SECTION 9.** Any person violating the provisions of this act, or of any part thereof, shall upon conviction be guilty of a misdemeanor and shall be punished by imprisonment in the county jail or workhouse not more than one (1) year, or by fine of not less than twenty dollars (\$20.00) nor more than fifty dollars (\$50.00), or by both, in the discretion of the court.

**SECTION 10.** If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to that end the provisions of this act are declared to be severable.

**SECTION 11.** This act expressly repeals Chapter 343 of the Private Acts of 1974.

**SECTION 12.** This act shall have no effect unless the same shall have been approved by a two-thirds ( $\frac{2}{3}$ ) vote of the commissioners present and constituting a quorum of the board of county commissioners of Johnson County. Its approval or nonapproval shall be proclaimed by the presiding officer of the Board of County Commissioners of Johnson County, and the action of the Board of County Commissioners of Johnson County shall be certified by him to the Secretary of State.

**SECTION 13.** For the purpose of approving or rejecting the provisions of this act, it shall be effective upon becoming a law, the public welfare requiring it. For all other purposes, it shall become effective upon being approved as provided in Section 12.

## Taxation - Historical Notes

### **Assessor of Property**

The following acts were superseded, repealed or failed to win local ratification, but they are listed here as a reference to laws which once affected the Johnson County Assessor.

1. Private Acts of 1937, Chapter 610, fixed the salary of the Johnson County Tax Assessor at \$1,080 per annum, which was paid in equal monthly installments by warrants drawn by the county judge. The population figures for Johnson County, according to the 1930 Federal Census, did not meet the population requirements of this act. However, it is our judgement that Private Acts of 1937, Chapter 610, was intended for Johnson County because the author of the act represented Johnson County and it was also indexed under Johnson County in the 1937 Private Act Volume.

2. Private Acts of 1949, Chapter 186, authorized the Johnson Quarterly County Court to set the salary of the Johnson County Tax Assessor at \$1,800 per annum.
3. Private Acts of 1949, Chapter 694, provided that the salary of the Johnson County Tax Assessor should be \$1,800 per annum. This act was amended by Private Acts of 1951, Chapter 656, which provided a travel allowance for the Johnson County Tax Assessor. Chapter 694 was further amended by Private Acts of 1953, Chapter 173, which revoked the travel allowance granted to the Johnson County Tax Assessor by Private Acts of 1951, Chapter 656 and provided that the tax assessor be additionally compensated at the rate of \$600 per annum for traveling expenses.

### **Taxation**

The following is a listing of acts pertaining to taxation in Johnson County which are no longer effective.

1. Private Acts of 1915, Chapter 159, provided for a tax levy of "one and a half mills on the dollar" for the purpose of maintaining county high schools. This was amended by Private Acts of 1921, Chapter 737, to increase the tax levy to two mills on the dollar.
2. Private Acts of 1974, Chapter 343, attempted to levy a wheel tax upon motor driven vehicles in Johnson County. While it was approved by the quarterly county court, this act was rejected by the voters of Johnson County, so that this tax levy never became effective.
3. Private Acts of 1974, Chapter 376, was an attempt to levy a solid waste disposal tax in Johnson County. No local action was ever taken on this act and it never became law.
4. Private Acts of 1980, Chapter 263, authorized the legislative body of Johnson County to levy a privilege tax not to exceed 5% on the occupancy of any hotel room by transients and provided for the collection of the tax and the distribution of the proceeds. This act was never ratified by local officials and never became operative.
