First Aid Training

Dear Reader:

The following document was created from the CTAS website (ctas.tennessee.edu). This website is maintained by CTAS staff and seeks to represent the most current information regarding issues relative to Tennessee county government.

We hope this information will be useful to you; reference to it will assist you with many of the questions that will arise in your tenure with county government. However, the *Tennessee Code Annotated* and other relevant laws or regulations should always be consulted before any action is taken based upon the contents of this document.

Please feel free to contact us if you have questions or comments regarding this information or any other CTAS website material.

Sincerely,

The University of Tennessee
County Technical Assistance Service

First Aid Training	3
---------------------------------	----------

First Aid Training

Reference Number: CTAS-1377

At least one person per shift, assigned to work at the facility, shall be trained in First Aid/CPR, as defined by the American Red Cross, and CPR, as defined by the American Heart Association. Training shall also cover:

- (a) Awareness of potential emergency situations;
- (b) Transfer to appropriate health care provider;
- (c) Recognition of symptoms of illness most common to the facility; and,
- (d) Giving medications to inmates.

In addition, the health authority shall approve policies and procedures that insure that emergency supplies and equipment are readily available and in working order. Rules of the Tennessee Corrections Institute, Rule 1400-1-.13(15).

First aid kits shall be available and a physician shall approve the number, contents, and location of such kits on an annual basis. Documentation of such approval must be in the facility's permanent records or attached to the kit itself. Rules of the Tennessee Corrections Institute, Rule 1400-1-.13(7).

"Jail personnel should be trained in basic health care delivery and must be trained in emergency health techniques." *Nicholson v. Choctaw County*, 498 F.Supp. 295, 309 (S.D. Ala. 1980). *See also Bunyon v. Burke County*, 306 F.Supp.2d 1240, 1258 (S.D. Ga. 2004) (It is undisputed that jail staff are charged with ensuring that an inmate's medical needs are met while he or she is detained at the county Jail. Thus, the need to train personnel in the constitutional requirements of providing adequate medical care can be said to be so obvious that failure to do so could properly be characterized as deliberate indifference to constitutional rights.); *Brock v. Warren County*, 713 F.Supp. 238, 243 (E.D. Tenn. 1989) (finding that the sheriff and the county commissioners were deliberately indifferent to plaintiffs' decedent's constitutional rights in failing to provide minimal medical training to the jail guards).
