# State Division of Property Assessments

---

Dear Reader:

The following document was created from the CTAS website ([ctas.tennessee.edu](http://ctas.tennessee.edu)). This website is maintained by CTAS staff and seeks to represent the most current information regarding issues relative to Tennessee county government.

We hope this information will be useful to you; reference to it will assist you with many of the questions that will arise in your tenure with county government. However, the *Tennessee Code Annotated* and other relevant laws or regulations should always be consulted before any action is taken based upon the contents of this document.

Please feel free to contact us if you have questions or comments regarding this information or any other CTAS website material.

Sincerely,

The University of Tennessee  
County Technical Assistance Service

# State Division of Property Assessments

Reference Number: CTAS-1493

The State Division of Property Assessments has the duty to develop methods and procedures to assist local assessors and boards of equalization in administering the annual assessment process and in maintaining assessments through a process of updating valuations, property ownership records, and other information and records.<sup>1</sup>The Division of Property Assessments has developed manuals, rules, and regulations which relate to the duties of assessors of property and to reappraisal programs.<sup>2</sup>These manuals provide for consideration of the following factors in determining property values:

1. Location;
2. Current use;
3. Whether income bearing or non-income bearing;
4. Zoning restrictions on use;
5. Legal restrictions on use;
6. Availability of water, electricity, gas, sewers, street lighting, and other municipal services;
7. Inundated wetlands;
8. Natural productivity of the soil, except that the value of growing crops shall not be added to the value of the land ("crops" include trees); and
9. All other factors and evidences of values generally recognized by appraisers as bearing on the sound, intrinsic and immediate economic value at the time of assessment.

For determining the value of industrial, commercial, farm machinery and other personal property, these manuals provide for consideration of the following factors:

1. Current use;
2. Depreciated value;
3. Actual value after allowance for obsolescence; and
4. All other factors and evidences of values generally recognized by appraisers as bearing on the sound, intrinsic and immediate economic value at the time of assessment.

For determining the value of forestland, the State Division of Property Assessments consults with the U.S. Forest Service and the state forester to establish guidelines to be used in the manual.<sup>3</sup>
