Capital Improvement Plan/Budget

Reference Number: CTAS-1797

The Capital Improvement Plan should identify the current assets in use, their anticipated replacement date and any anticipated needed or planned future assets. As this plan is classified by asset and year, then an estimated replacement and purchase cost can be assigned to each asset. Related revenue can then be identified to acquire the replacement or new asset. If the revenue assigned is notes or bond proceeds, then this cost is considered a part of the Debt Management Plan.

See Reasons for a Capital Improvement Plan/Budget under Capital Budgets.
