Protection Against Blood Borne Pathogens

Dear Reader:

The following document was created from the CTAS website (ctas.tennessee.edu). This website is maintained by CTAS staff and seeks to represent the most current information regarding issues relative to Tennessee county government.

We hope this information will be useful to you; reference to it will assist you with many of the questions that will arise in your tenure with county government. However, the *Tennessee Code Annotated* and other relevant laws or regulations should always be consulted before any action is taken based upon the contents of this document.

Please feel free to contact us if you have questions or comments regarding this information or any other CTAS website material.

Sincerely,

The University of Tennessee
County Technical Assistance Service

Protection Against Blood Borne Pathogens 3

Protection Against Blood Borne Pathogens

Reference Number: CTAS-2137

The superintendent, director or warden of any correctional institution or county or municipal jail or workhouse shall provide training in universal precaution from blood borne pathogens for all employees at risk for potential occupational exposure to blood borne pathogens, including, but not limited to, hepatitis B or HIV (AIDS). Voluntary vaccinations shall be provided and strongly encouraged for all employees at risk. In order to increase the awareness of the need for practicing universal precaution, the superintendent, director or warden may periodically warn all employees at risk of potential exposure that a portion of the inmate population is likely to be infected with a blood borne pathogen. TCA 41-51-101
