Designation of Zones

Dear Reader:

The following document was created from the CTAS website (ctas.tennessee.edu). This website is maintained by CTAS staff and seeks to represent the most current information regarding issues relative to Tennessee county government.

We hope this information will be useful to you; reference to it will assist you with many of the questions that will arise in your tenure with county government. However, the *Tennessee Code Annotated* and other relevant laws or regulations should always be consulted before any action is taken based upon the contents of this document.

Please feel free to contact us if you have questions or comments regarding this information or any other CTAS website material.

Sincerely,

The University of Tennessee
County Technical Assistance Service

Designation of Zones	3
-----------------------------------	----------

Designation of Zones

Reference Number: CTAS-591

T.C.A. § 6-58-104(a)(2) specifies that the comprehensive growth plan must identify the following three (3) types of areas if they exist within the county:

1. Urban Growth Boundary (UGB) - a reasonably compact area that contains the corporate limits of a municipality and the adjoining territory where high density commercial, industrial, or residential growth is expected.
2. Planned Growth Area (PGA) - compact sections outside incorporated municipalities and outside growth boundaries where high or moderate density growth is expected, if there are such areas in the county; new incorporations may occur only within these regions. A county has authority to provide services within a PGA and to set a separate tax rate for these services.
3. Rural Area (RA) - territory that is not within another zone and that is to be preserved for uses other than high density development.

Several factors must be taken into account in determining the boundaries of these three (3) areas:

1. Population growth projections, to be developed in conjunction with the University of Tennessee;
2. Current and projected costs of infrastructure, urban services, and public facilities needed for development and methods to finance these needs;
3. The need for additional land area for high density development, after considering the feasibility of redeveloping all sites within the current boundaries;
4. The effect of development upon agricultural land, forests, recreational areas and wildlife management areas; and
5. The likelihood of eventual incorporation into a municipality.

T.C.A. § 6-58-106(a).
