## Chattanooga-Hamilton County Bridge Commission

### Private Acts of 1929 Chapter 508

**SECTION 1.** That there is hereby created a corporation by the name of the Chattanooga-Hamilton County Bridge Commission, with the powers, duties and limitations as hereinafter set out. Said corporation shall be regarded as a public corporation and a State agency, and limited in its powers and duties strictly to those herein granted. The general powers of said corporation shall be:

1. To sue and be sued by the corporate name.
2. To have and use a common seal, which it may alter at pleasure.
3. To establish by-laws and make all rules and regulations, not inconsistent with the laws and the constitution, deemed expedient for the management of corporate affairs.
4. To appoint such subordinate officers and agents in addition to the President and Secretary or Treasurer, as the business may require, and to fix the compensation of officers and employees.
5. A failure to elect officers at the proper time will not dissolve the corporation, but those in office hold until the election or appointment and qualification of their successors.
6. The term of all officers may be fixed by the by-laws of the corporation, not to exceed two years.
7. By no implication or construction shall the corporation be deemed to possess any powers, except those hereby expressly given or necessarily implied from the provisions of this charter.
8. The right is reserved to repeal, annul, or modify this charter.

**SECTION 2.** That said corporation shall be organized and shall function in the manner following, to wit:

The governing board shall consist of five directors, citizens of Hamilton County, Tennessee, three of whom shall be appointed by the Mayor of the City of Chattanooga, and two of whom shall be appointed by the County Judge of Hamilton County. It shall be the duty of the Mayor of the City of Chattanooga to appoint one director for a period of one year, one director for a period of two years, and one director for a period of three years. At the expiration of each of such terms the Mayor of the City of Chattanooga shall appoint a director for a term of two years, and thereafter at each expiration shall appoint a director for such term. It shall be the duty of the County Judge of Hamilton County to appoint one director for a period of one year, and one director for a period of two years, and thereafter at the expiration of each term he shall appoint a director for a term of two years. All vacancies in the Directorate shall be filled respectively by

the Mayor of the City of Chattanooga and the County Judge of Hamilton County, in accord with the vacancy being in a County or City Directorate. It shall be the duty of the Mayor of the City of Chattanooga and the County Judge of Hamilton County to make the appointment of such directors within thirty days after the passage of this Act. After the appointment of the directors, it shall be the duty of the Mayor of the City of Chattanooga to issue a call in writing for the organization meeting of directors. The said directors shall meet at the time and place stated in such notice, and shall organize the corporation by accepting the charter and adopting by-laws and regulations for the government of the corporation. Officers, consisting of the President, Vice-President, Secretary and Treasurer, shall be elected from the Directorate, but the office of Secretary and Treasurer may be held by one person. The officers shall serve for two years, and until their successors are appointed and qualified.

**SECTION 3.** That said corporation is vested with the power and duty to contract for the construction of a highway bridge across the Tennessee River at Chattanooga, in Hamilton County. Said bridge may be so constructed as to provide for railroad and street car tracks, as well as for vehicular traffic. The corporation shall have the right to receive from the United States Government a franchise or permission to construct said bridge, and shall also be authorized to accept and perform any such franchise granted to the City of Chattanooga and Hamilton County, and by such authorities assigned or transferred to the corporation. Said corporation shall have and possess all the powers necessary and incident to the construction of said bridge, including the power to employ engineers, make surveys and preliminary tests, locate the bridge, purchase or condemn necessary property for the bridge and approaches, accept plans and specifications, and provide the type and character of bridge to be built, make contracts for the construction, fixing terms and conditions thereof, fix the amount of bond required from contractors and approve the same, and accept the completed work, and release the contractors and sureties. All contracts, to be binding upon said corporation, shall be in writing, approved by the Board of Directors and executed by the President or Vice-President under the seal of the corporation. The corporation, by action of its Board of Directors, shall be authorized to make contracts for the construction of said bridge, and covering matters within its granted powers without advertising and without public bidding, but it shall be the duty of the Board of Directors to receive and consider all propositions for the financing and building of said bridge. For the purposes of acquiring necessary lands, locations and rights of way for such bridge and approaches, the said corporation is hereby invested with the power of eminent domain, and may condemn all lands, rights, easements, or franchises necessary for the completed construction and operation of said bridge. Such condemnation proceedings shall be held in accord with the general laws on the subject of condemning private property for public uses.

**SECTION 4.** That for the purposes of financing the building of said bridge, the corporation is authorized to issue its corporate bonds in a sum sufficient to cover the entire cost of the construction of the bridge, not to exceed Three Million Dollars (\$3,000,000.00). The cost of the bridge shall be ascertained by careful estimate before the bonds are issued or offered for sale, and the amount of the issue shall be fixed by the Board of Directors. The amount of bonds issued shall cover every item and character of cost or expense incident to the completion of the bridge, including all preliminary expenses of financing, surveys, engineers, plans, tests, rights of ways, location damages, direct and incidental, interest charges while work is in progress, overhead expenses of the corporation, and salaries of engineers, supervisors and inspectors employed by the corporation.

**SECTION 5.** That the corporation, through its Board of Directors, shall determine the form and denomination in which said bonds are to be issued, and shall determine the rate of interest, not to exceed six (6%) per cent, and the time within which such bonds shall mature, not to exceed thirty years. Said bonds shall be signed by the President, and Secretary, but interest coupons may be attached with the facsimile signature of such officers printed thereon. Said bonds shall not be sold at less than par, but the Board of Directors is authorized to incur a reasonable selling expense, within its discretion, and may sell said bonds at either a public or private sale, as it may deem advisable. Said bonds shall be free of any taxes levied by the State of Tennessee, any municipality in said State, or any county in said State, and for this purpose said bonds are hereby declared to be public bonds issued by a State agency. However, nothing herein shall be construed as making either the State of Tennessee, the City of Chattanooga, or Hamilton County responsible or liable for the payment of principal or interest on any of said bonds.

**SECTION 6.** That the payment of all outstanding bonds shall be guaranteed by the physical property owned by said corporation, including the bridge and every part thereof, and all property appurtenant thereto, and shall be further secured by a first claim upon all the income of said corporation derived from tolls, rentals, and service contracts from the operation of said bridge as hereinafter shown, and in accordance with the authority of any Act of Congress authorizing the construction and operation of such bridge.

**SECTION 7.** That the corporation is authorized to fix and charge tolls for the use of said bridge by pedestrians, automobiles, and other vehicular traffic, by street car companies and by railroad companies,

and by other common carriers, in accordance, however, with any limitation or regulation contained in the Act of Congress authorizing the construction and operation of such bridge. Such tolls and rentals charged shall be so fixed and adjusted as to provide a fund sufficient to pay the interest and principal of bonds issued under the authority of this Act, and to provide an additional fund to pay the cost of maintaining, repairing and operating such bridge. Such tolls and charges, except such part thereof as may be necessary to pay the cost of maintenance and operation, shall be placed in a special fund at interest which is hereby pledged to and charged with the payment of such bonds and interest thereon.

**SECTION 8.** That whenever said corporation has accumulated a fund from the collection of tolls and charges sufficient to pay all outstanding bonds and interest charges, the tolls and charges shall cease in so far as they apply to pedestrians, automobiles and vehicular traffic, and the bridge shall thereafter be a free public bridge with reference to such traffic, but said corporation shall continue to operate said bridge and shall continue to charge and collect tolls and service charges from any street car company, railroad company, passenger or freight bus, truck, or automobile, or other common carrier, and out of such receipts shall, first, pay the operating and maintenance expense of such bridge, and the balance shall be retained and disposed of as hereinafter directed. The corporation, through its Board of Directors, shall base such charges and tolls on the value of the service rendered and shall keep such service open for the use of public carriers desiring such service, without discrimination between individuals or corporations of the same class.

**SECTION 9.** That after the retirement of all bonds, the revenues and profits realized from the operation of said bridge shall be paid semiannually, one-half to the City of Chattanooga and one-half to Hamilton County, and such funds shall become the property of said governments and subject to full control and disposition. In making such payments, the corporation is authorized to retain a sufficient amount for contingent expenses and a sufficient fund for anticipated renewals or repairs.

**SECTION 10.** That, the Board of Directors of said corporation shall report to the Mayor and Board of Commissioners of the City of Chattanooga, and the County Judge and Quarterly Court of Hamilton County, on the 1st of July each year, showing the condition of the corporation, with itemized statement of the monies received and expended by it since its last annual report, together with such statistics, information and facts as it deems proper to so report, or as may be required by said City or County authorities, which report shall be verified by affidavit of the proper officer of said Board.

**SECTION 11.** That said Board of Directors shall require the officials of said corporation to execute bond in such amount as it may deem proper and sufficient, in some surety company doing business in Tennessee, payable to the corporation and condition upon the faithful performance of the duties devolved upon it, and a true and accurate accounting for all monies coming into its hands. The Board of Directors shall designate one or more of the banks of the City of Chattanooga as depository for said funds, in an account to be designated "Sinking Fund of Chattanooga-Hamilton County Bridge Commission's Bonds," and funds deposited therein shall not be paid out except to liquidate the interest and principal of said bonds.

The corporation, by action of the Board of Directors, may redeem any part of its outstanding bonds at market value whenever sufficient funds are in hand and the holders of such bonds are willing to surrender them for redemption.

**SECTION 12.** That this corporation shall continue to exist and function in accordance with the terms of this charter until such time as the Legislature of the State of Tennessee shall repeal this charter and make other provisions for the operation of any bridge built under the terms hereof, but the State of Tennessee, by this charter, pledges itself that it will not substantially interfere with the provisions of the charter nor the control of the operation of such bridge contrary to the terms hereof until the full payment and satisfaction and retirement of all outstanding bonds issued by the corporation for the construction of said bridge.

**SECTION 13.** That the Legislature of Tennessee hereby expresses its intention to grant unto said corporation power and authority to issue its bonds and to contract for the erection of such bridge, and to grant to such corporation rights and powers which can lawfully be granted, and that any grant of power herein contained, which might be held unconstitutional, shall not void the entire Act, and shall not interfere with the enforcement of the other provisions hereof.

**SECTION 14.** That this Act take effect from and after its passage, the public welfare requiring it.

Passed: April 2, 1929.

That should any emergency affecting public welfare, such as epidemics, floods, fires or other catastrophes, arise, the Council shall have the power, after publicly declaring by resolution, passed by unanimous vote, the existence of such emergency, to appropriate necessary funds to meet such emergency. Such funds shall be drawn from otherwise unappropriated revenues, if any, or raised by temporary loans. Such temporary loans, when made, shall be approved by the Council by unanimous vote, shall be repaid at an annual rate equivalent to not less than two mills upon the assessed valuation of real property in said County.

Any official violating the provisions of this section, including the members of the Council, shall be deemed guilty of a misdemeanor in office, and shall be removed from office in accordance with the provisions of the general law, and in addition shall be personally liable to the County for such illegal expenditures, which liability shall extend to the sureties on their official bonds.

**SECTION 15.** That the Commissioners [sic] Chattanooga Protection District, shall assess or cause to be assessed the benefits to accrue to each tract of land within said district from the flood protection works proposed by them to be built, giving as brief a description of each tract or parcel of land owned by each owner as will enable the same to be identified, the owner's name (as it appears on the tax collector's records) and giving the total amount of the benefits thereto. Reference to a recorded deed describing the land (by Book and Page) shall be a valid description. Unless convinced that it is in error and convinced who is the true owner, the Commissioners shall accept the last tax receipt issued for State and County Taxes on any property as prima facie evidence that the person to whom issued is the owner of said property; and no error in the name of the owner or owners of any property, railroad or the name of any corporation shall invalidate this assessment nor any part thereof. The words "land" and "tract of land" as used in this Act, and the words "property" and "real property" shall include the land together with all buildings, railroads and all structures and improvements thereon recognized as real property by the laws and customs of this State. No benefits shall be assessed against any property in the said District which is left outside "on the unprotected side" of the flood protection works, and is therefore not afforded protection thereby. The exclusion of any part or parts of the said District from direct protection may be ordered by the Commissioners [sic] Chattanooga Protection District after they shall have decided upon a general plan for flood protection which will not protect such part, and as often as they shall decide upon a modification of said plan they may order the exclusion of any other part or parts of the District from direct protection, and may again include for protection parts of the said District theretofore excluded. They shall adopt a definite plan for the protection works as early as practicable in their judgment, after collecting such data and making such investigations as they deem essential, but shall not by this be required to complete any plan in detail before adopting same. All plans for said District shall be made by the chief engineer appointed by Commissioners, subject to the approval of said Commissioners; and all construction work, operation and maintenance shall be done under the supervision of the chief engineer. The said Commissioners may change or modify the plan or any part thereof as often as they shall deem it desirable and proper to do so. Whenever after the original assessment is made, changes and modifications are adopted, said Commissioners shall make or cause to be made a new assessment of benefits, including thereon only the property on which they find that the assessment should be raised or lowered by such changes; but at no time when there are outstanding bonds, shall a change be made which will result in the total assessment of benefits in the District being less than eighty-five per cent (85%) of the total benefits shown at the time of sale of said bonds, or the highest total shown at the time of the sale of any of them, if there have been several bond sales. No part of the said Chattanooga Protection District shall

be entitled to recover damages because of having been left out of the protection portion of the District either by the original plan or any modification thereof made either before or after flood protection works are built or during their construction; but should a levy or levies be collected on the benefits of any property and the benefits on said property be reduced by a subsequent assessment, then the difference shall be refunded by aforesaid Commissioners to the owners of said property, Commissioners retaining only the amount of the money theretofore collected, which would result from the rate theretofore imposed, applied to the last benefits assessed. In case the benefits are increased on any property, the levy on the new assessment shall be collected for the year during which said benefits are reassessed, and for each year thereafter. In making such assessments of apportioned benefits, the lands receiving the greatest benefit shall be marked on a scale of 100%, and those benefited in a less degree shall be marked with such percentage of 100% as the benefit received bears in proportion to that classified to receiving 100% benefit. This classification when finally established shall remain as a basis for all future assessments connected with the objects of said district.

In making such classification said Commissioners are authorized to divide the land of one owner lying in a body into more than one tract, and classify each subdivision thereof, if, in their opinion, portions of such entire tract will be more benefited than other portions, and especially when such entire tract is a large one, and it will be more equitable and just to classify it in sub-divisions.

**SECTION 16.** That the Commissioners [sic] Chattanooga Protection District may proceed with the floating of bonds, the procuring of rights-of-way, and with construction work, or any of these acts, and the doing of all other things authorized by this Act, immediately after the close of the first hearing on the original assessment, irrespective of any appeals taken from same; and that no appeal from either the assessment of benefits or from any award of damages shall delay the improvements.

Private Acts of 1945, Chapter 136

**SECTION 17.** That for each revision of assessment of benefits, the filing, publication, hearing by the Commissions and all things shall be done as provided for the original assessment and all of the provisions of Section 15 of this Act shall apply to each revised assessment.

As amended by: Private Acts of 1935, Chapter 446  
Private Acts of 1945, Chapter 136

**SECTION 18.** That upon the election resulting "For the issuance of bonds" and after the close of the first hearing, on original assessments, the Commissioners of the Chattanooga Protection District may proceed with the floating of bonds, the procuring of rights-of-way and with construction work of any of these acts, and the doing of all other things authorized by this Act, irrespective of any appeals taken from such assessments, and that no appeal from either the assessments of benefits or from any award of damages shall delay the improvements.

**SECTION 19.** That after the close of the first hearing on the original assessment and the hearing on each modification of or amendment thereto, Commissioners shall enter, for each tract of land or owner, in a book to be provided by them (in duplicate, one copy for the Commissioners and one for the County Trustee) the description, Owner's name, Total betterment (as approved by the Commissioners at the hearing), Rate of Levy (for the first year), and amount of levy (for the first year). Five columns shall be provided for the entries last mentioned, and following said five columns, there shall be provided columns for four succeeding years, to wit: for each year, a column for Total benefits, Rate of levy and Amount of levy. When so prepared one of said books to be delivered to the County Trustee on or before the first day of October of the same year; and the entries therein shall be the authority of the County Trustee to collect the amounts shown therein for the first year's levy, which he is hereby required to collect and pay over to the Treasurer of said Commissioners as hereinafter provided for the payment of all collections of levies made by him.

**SECTION 20.** That the aforesaid first levy and any annual levy shall be made and collected on the assessed benefits in the following manner; to the estimated cost of the proposed improvements, which said Commissioners shall cause to be made together with the administration and supervision of same, there shall be added not less than fifteen (15) per cent for contingencies. The amount thus arrived at shall be prorated for a certain number of annual installments to be determined by the Commissioners. Said installments need not be the same each year, but no such installments shall be more than ten per cent of the pro rata to each owner, when said cost is prorated to the several owners in the proportion of their assessment of benefits to the total benefits for the District. After the said cost with the percentage

added for contingencies shall have been so prorated, any owner may pay his pro rata in cash to the Treasurer of the Commissioners, if paid before any bonds are issued; but such payment in cash shall not exempt said owner from paying the annual levy for operation and maintenance as described hereinafter. The Commissioners shall, each year, on or before the 10th day of July make and publish such levy as it shall determine upon and it shall thereupon be the duty of the Secretary to extend the amount of the said levy on the original or a copy of the assessment roll of said District on file in his office, and to certify a copy of the levy, on or before October first, of the said year, to the County Trustee, and said Trustee shall thereupon extend the amount of the levy on the copy of said assessment in his office. Whenever a modification or amendment of said assessment shall be made as provided herein, the same course shall be followed by each official as provided herein for the original assessment. The levy ordered by the Commissioners each year shall include:

- (1) Pro rata of cost plus not less than 15 percent contingencies:
- (2) Pro rata of interest on indebtedness: Total, of (1) and (2).
- (3) Pro rata of estimated annual operation and maintenance cost; Total of (1), (2), and (3) but on property for which the payment of benefits was made in cash, each annual levy shall be only for the pro rata of estimated annual operation and maintenance cost.

The Commissioners shall require the said Trustee to make a special bond for the proper collecting and paying over of the said levy. For the collection of said levy the said Trustee shall be allowed a commission as now allowed by law for collection of State and County taxes, which shall be deducted by him from the moneys so collected before paying the same over. For any failure to pay over (at the time provided in this Act) any money collected for said District, he shall be liable for damages at the rate of ten per cent (10%) and interest at the rate of six per cent (6%) per annum on the principal.

**SECTION 1.** That all that part of Hamilton County within the boundaries hereinafter described be, and the same is, hereby organized into a Flood Protection District, to be known and designated as the "South Chattanooga Protection District," in which name it may sue and be sued. It is the purpose of this Act to protect all the property in this District from loss or damage by overflow, and to protect the lives and residents of this District from sickness and suffering consequent to the overflow of the waters of the Tennessee River and Chattanooga Creek, by erecting and maintaining sufficient and efficient flood protection works as hereinafter provided by and through the agency of the Commissioners herein incorporated; and to carry out and render effective this intent in full, the Court shall construe this Act as an exercise by the General Assembly of the State of Tennessee of all the powers appertaining to it necessary for the protection, not only of the property of said District, but also the lives and the health of the citizens of the State resident in such District. The boundaries of the said "South Chattanooga Protection District" are hereby described and established as follows, to-wit:

The east boundary line shall be the foot of Missionary Ridge on the west side thereof, taking the foot of said Ridge, being defined to be the location of a contour line at an elevation of forty-six (46) feet above the Zero of the United States Weather Bureau gauge in the Tennessee River at Chattanooga. (Wherever elevations are named in this Act they shall all be understood to refer to the Zero of said gauge.) The north and west boundary line of said District shall be a line beginning at the foot of Missionary Ridge, at a point on the south line of Main Street, where said forty-six foot contour strikes same; thence westwardly with said contour line to a point on the east line of the right-of-way of the Nashville, Chattanooga & St. Louis Railway; thence southwardly along the east line of the right-of-way of said railway to Chattanooga

Creek, and at or near where said creek emptied into the Tennessee River, at the foot of Lookout Mountain, the said foot of said Lookout Mountain being defined as the location of a contour line at an elevation of forty-six (46) feet above said Zero point; thence with the said forty-six (46) foot contour line in a southeasterly direction and southerly direction to the State line; thence east with the State line to the foot of Missionary Ridge at or near Rossville; thence northwardly following said 46-foot contour line to the place of beginning. Only such property within the area so bounded shall be assessed for benefits as the Commissioners for said "South Chattanooga Protection District" hereinafter created shall decide shall be benefited by the work which said District proposes to do.

**SECTION 2.** That a governing board for said District, to be known and designated as a "Board of Commissioners" of the said "South Chattanooga Protection District" is hereby created. Said Board of Commissioners shall consist of three members, the first Commission shall be O.B. Andrews, Mercer Reynolds and Paul J. Kreusi, who shall serve until December 31, 1928, but at the August election, 1928, and each four years thereafter, a Commission shall be elected by the qualified voters of said District who shall serve for a term of four years, and until their successors are elected and qualified; and in case of a vacancy in said Commission for any cause, the Commissioners shall fill such vacancy for the unexpired term; at such elections all persons who are residents or owners of property in said District shall be entitled to vote at said elections.

**SECTION 3.** That said Commissioners shall organize by electing a President of said Commission, whose duty it shall be to preside at all meetings thereof and sign the minutes of the proceedings. He shall exercise a general supervision over all work undertaken by the Commissioners, as hereinafter provided for, and shall do all acts and things that said Commissioners shall empower or authorize him to do or perform, and in his absence from any of the meetings, said Commissioners may select one of their number to preside. The President of said Commissioners shall annually, and as soon after January 1st of each year as practicable, make to said Commissioners a full detailed [sic] report of all the business transacted by said Commissioners, showing in detail the receipts and disbursements of said Commissioners, which said report shall be spread upon the minutes of the Board of Commissioners.

The President may be allowed a salary to be fixed by the Commissioners and entered on the minutes of said Board, which salary shall be in lieu of all per diem for attendance of the President upon the regular and called meetings of said Commissioners, but if no salary shall be fixed, or allowed, the President then shall receive only the same per diem as the other members of said Commission are entitled to, and he shall receive no other or further compensation whatever; provided, however, that nothing herein shall operate to prevent said Commissioners from paying the actual expenses incurred by them, or either of them, in traveling out of Hamilton County, in the discharge of their official duties.

**SECTION 4.** That said Commissioners shall elect a Secretary, who shall hold his office for such time as the Commissioners may fix, but the Commissioners may at any time remove said Secretary and elect a successor, or fill any vacancy in said office. Said Secretary, before he undertakes to discharge the duties of his office, shall execute a surety bond in some bonding company, and in such amount as said Commissioners may require, payable to said Commissioners and conditioned for the faithful and honest performance of the duties of his office. Said Secretary shall do all things required of him by the said Commissioners or by the provisions of this Act.

Said Commissioners shall also elect a Treasurer, which may be a trust company, whose tenure of office shall be such as said Commissioners may determine. He shall be required to give bond in such amount as may from time to time be required by said Commissioners, payable to said Commissioners and conditioned for the prompt and efficient discharge of the duties required by him under the provisions of this Act, and for the safe keeping, accounting for and paying over of all moneys, property or effects that may come into his custody and possession under this Act or by direction of said Commissioners, in such manner as said Commissioners may require or direct. He shall pay out said moneys only on a warrant, or other order, authorizing such payment, signed by the President and countersigned by the Secretary. Warrants shall be numbered and issued consecutively and no warrant shall be issued unless there will remain after its payment, sufficient funds in the Treasurer's hands, or to the credit of said Commissioners for that purpose, to pay all outstanding warrants previously issued. A faithful record of all such warrants shall be kept by the Treasurer. The Commissioners may also require bonds with surety to be given by any other person or official appointed, elected or empowered to act for or assist the Secretary or Treasurer, and said bonds, or any of them, may, upon default, be put in suit and prosecuted from time to time in the name of and for use of said Commissioners.

In the discretion of the Commissioners, one person may be both Secretary and Treasurer.

Whenever a new Treasurer shall have been elected and qualified, it shall become the duty of the Treasurer forthwith to surrender and deliver to his said successor all money, property, records, books and papers of any and every description belonging to said Commissioners, then in his possession by virtue of his office

or apportioning thereto in any manner whatsoever, and in like manner he shall fully surrender and deliver to his successor the entire effects, affairs, business, management and conduct of his office as Treasurer and make a full settlement of same, and he shall take the receipt of his successor therefor, and for any default herein he shall be liable on his official bond.

The bonds of all officials and of said Commissioners when so executed, delivered and approved, shall be filed with the Commissioners. The Commissioners may cause the bonds of their officers and employes to be increased or diminished when they deem it necessary to protect the interest of said "South Chattanooga Protection District."

The Commissioners may contract with bonding companies for the bonds of their officers and employes, and may pay the premiums on said bonds.

**SECTION 5.** That the salaries of all officers, agents and employes of said Commission shall be fixed by said Commissioners, and such salaries and all other expenses incurred by said Commissioners in carrying into effect the provisions of this Act, shall be paid out of any funds raised under this Act.

**SECTION 6.** That the Commissioners of said "South Chattanooga Protection District" shall hold their regular meetings at such time and place within Hamilton County as the Commissioners may designate and determine upon, and special meetings may be held as often as the said Commissioners may see [sic] called together by the President, or any three members thereof upon written notice, mailed to each member of the Commission by the Secretary or any three members thereof. Each Commissioner shall be entitled to Five (\$5.00) Dollars per day for each day or part thereof he is in attendance at meetings, or otherwise engaged in the service of the Commissioners by their order, the same to be paid out of the funds of said District on the order of the President, countersigned by the Secretary. At each of the said meetings, a majority of the Commissioners shall constitute a quorum for the transaction of business, but a vote of three Commissioners in accord shall be necessary to carry any measure or make any appropriation.

**SECTION 7.** That said Commissioners of said "South Chattanooga Protection District" shall have power and it is hereby made their duty to build, rebuild, strengthen, enlarge, operate and maintain all such structures and works, including levees, reservoirs, ditches, canals, bulkheads, floodgates, power stations, pumps, sewers and all other structures and works which they shall deem essential to carry out the purposes of this Act in the manner and according to the plan or plans which they shall decide upon. They may make all contracts for the work and all needful regulations and do all acts necessary to protect their said district from overflow by the waters of the Tennessee River and Chattanooga Creek, up to an elevation of forty-six (46) feet, and to dispose of storm water and other drainage and sewage. They are hereby empowered to prescribe the terms and conditions of all contracts for construction and other work, and for materials and equipment.

**SECTION 8.** That for the purpose of building, rebuilding, repairing, constructing, maintaining and operating said flood protection works, and to enable them to carry out the purposes and provisions of this Act, the said Commissioners of said South Chattanooga Protection District shall have power to issue the bonds of said District for an amount not exceeding Three Hundred Thousand (\$300,000.00) Dollars, such bonds to be in such sums and denominations, not less than One Hundred Dollars each, nor more than Five Thousand Dollars each, as the Commissioners may prescribe, which bonds shall each be signed by the President and countersigned by the Secretary of said Commissioners, and be made payable to bearer, none of said bonds to mature in less than five years, nor more than twenty-five (25) years from date of issuance and to be serial bonds, the amount maturing each year to be determined by said Commissioners. All of said bonds then outstanding shall be callable after ten years from date of issuance. They shall be made payable at any place within or without the limits of this State, and shall bear a rate of interest not exceeding six per cent per annum, for which interest coupons may be attached, payable at such times as the Commissioners may determine. Said Commissioners shall fix a place or places for the payment of the principal and interest on said bonds. No such bond so issued as aforesaid shall be valid or binding on said Commissioners or District until the same be endorsed by the Treasurer, in writing. Upon such endorsement by the Treasurer, said bonds shall then, and not until ten [sic], be held fully executed and shall thereupon pass by delivery. The Treasurer of said Commissioners shall keep a faithful and correct register, showing the date, letter, number, amount and place of payment of all the bonds issued, sold or used, and shall keep the same kind of an account of all the bonds paid, received or taken up by said Commissioners, showing when payment was made, when each such bond was received or taken up, and on what account, and no bond or coupon so paid, received or taken up by said Commissioners shall again be used or reissued, but every such bond or coupon shall promptly be canceled by said Treasurer.

The Treasurer shall at the same time note on the original register hereinbefore required to be kept by him, the fact of the payment, surrender or cancellation of each bond or coupon he may take up, and the bonds and coupons taken up by said Treasurer after cancellation shall carefully be preserved by him as vouchers

in his settlement with said Commissioner; and after due allowance of the same in settlement of said Commissioners, the President thereof is required to receive the same from said Treasurer, and thereupon he shall burn the coupons so received to ashes in the present [sic] of said Commissioners, and shall deposit and file the canceled bonds in the vaults of said Commissioners, to be preserved as a part of their records. The minutes of said Commissioners are furthermore required fully to show the date, letter, number, amount and place of payment of each bond so deposited and filed, and coupon so destroyed, as a check on the register required to be kept by the Treasurer. The Treasurer when he shall take up or receive any bond or coupon, shall on the same day notify the Secretary, giving description of same. The Commissioners of the South Chattanooga Protection District may issue any of the bonds hereby authorized, at any time or times, and as they may determine, until they shall have issued the aggregate amount hereby authorized. All moneys borrowed or arising from the negotiation or sale of any of said bonds shall promptly be paid into the Treasury of said Commissioners and shall constitute a fund to be used and applied to carry into effect the object and purposes of this Act. The said bonds shall be exempt from all taxes, including, State, county and municipal.

**SECTION 9.** That the Secretary of said Commissioners shall, upon order of said Commissioners, cause said bonds to be lithographed, with such devices for identification and to prevent imitation as said Secretary shall think proper; and he shall register said bonds in a book to be kept for that purpose, as the same are issued, stating therein the date, letter, number, amount and place of payment and on what account used, of each bond issued, and he shall take the receipt in said book of the party to whom each of said bonds is delivered.

**SECTION 10.** That it shall not be lawful for the said Commissioners of said South Chattanooga Protection District, or any officer, member or agent thereof, to pledge or deposit any bond or coupon issued under this Act, as security for payment of any borrowed money, or of any debt or obligation of said Commissioners or of any one else; and any member, officer or agent of said Commissioners who shall violate this section, shall be deemed guilty of a felony, and upon conviction thereof shall be punished by imprisonment in the penitentiary for not less than one year, nor more than five years. And it shall also be unlawful for the Commissioners, or any officer, member or agent thereof, to receive, take or hold, for any bond or coupon issued under this Act, any sum or amount of money less than the face value of said bond or coupon, and any violation of this clause shall be deemed a felony, and the party or parties so violating, upon conviction, shall be punished by imprisonment in the penitentiary for a term of not less than one year, nor more than five years. The cost of printing said bonds and a reasonable expense for selling the same may be paid by Commissioners from the proceeds of the bond sale or from any funds in their Treasury.

**SECTION 11.** That the bonds of said South Chattanooga Protection District shall be a lien on all lands in said District, and said Commissioners may irrevocably pledge the full faith, credit and resources of said District and all assessments of benefits of said District to secure the payment of the said bonds and the interest thereon.

**SECTION 12.** That the Commissioners of said South Chattanooga Protection District, for the purpose of paying interest on bonds, or of applying to any other obligation or of prosecuting any of the activities of said Commissioners, may in any year borrow money in anticipation of the current year's revenues. Said Commissioners may issue debentures therefor, bearing interest at a rate not exceeding six per cent per annum, which shall not be sold for less than par and accrued interest; and the provisions in this Act with reference to the receiving and canceling of bonds and to misapplication of funds, shall apply likewise to said debentures. No revenues derived from the sale of debentures or from the collection of any levy, shall be used for any purpose except the payment of such bonds and debentures and such interest on bonds and debentures which fall due during the current year (or before the next date for annual settlement of the tax collector) unless provision shall first have been made to set aside a sufficient part of the current year's revenues to pay such bonds, debentures and interest; and after setting aside the necessary sum (from funds either in the Treasury or to be collected for the current year, or both), then any balance on hand or from the sale of debentures may be expended for any of the obligations or activities of said Commissioners.

**SECTION 13.** That no bonds herein authorized shall be issued by said Commissioners until after an election shall be held and a majority of the votes cast at said election be cast in favor thereof, and it shall be the duty of the Election Commissioners of Hamilton County, through the regular machinery of said county for holding said elections, upon and at the request of the Commissioners of the said South Chattanooga Protection District, and within sixty (60) days after said request, to call an election to be held at the voting precincts within said District, which said call [sic] elections shall be in the manner prescribed by law. At said election only those persons shall vote who reside within or own property within said South Chattanooga Protection District, and a regular realty tax receipt for taxes on property within the District for the year next preceding said election, issued in the name of the person presenting same, or the

original deed, if made after the time for paying taxes for said preceding year has expired, shall be prima facie evidence of ownership of property within said District. The Election Commissioners of Hamilton County shall, within ten days after said election, certify to the said Commissioners of said South Chattanooga Protection District the result of said election, giving the date of the election and the number of votes cast thereat, and how many votes cast "For the Issuance of Bonds" and how many "Against the Issuance of Bonds." Said report shall be spread upon the minutes of said Commissioners of said District. No action at law or in equity, or injunction shall lie unless filed within forty days after said election which restrains or attempts to restrain the Commissioners of the South Chattanooga Protection District from issuing any bonds or levying or collecting any assessments or taxes, or doing anything authorized by this Act, not which vitiates the bonds of said South Chattanooga Protection District, if said action or injunction is based in whole, or in part, on a contention that the report of the said election is incorrect.

The ballots to be used at said election shall be printed with the words:

"For the Issuance of Bonds," and

"Against the Issuance of Bonds,"

and each voter shall mark an "X" opposite the words for which he votes.

If at said election a majority of votes cast vote "For the Issuance of Bonds," the Commissioners of the South Chattanooga Protection District shall proceed with the issuance and sale of bonds, and the exercise of all the power and authority, and in the performance of all things authorized by this Act.

If a majority of those voting at said election vote "Against the Issuance of Bonds," said Commissioners of the South Chattanooga Protection District shall not have the power to issue bonds, but shall continue to hold their Commissions, and said South Chattanooga Protection District shall continue to exist and maintain its organization and may do all things authorized in this Act which do not depend upon the issuance of bonds.

**SECTION 14.** That if said election shall result "Against the Issuance of Bonds" the Commissioners of the said South Chattanooga Protection District, or any one hundred qualified electors, who are owners of real property within said District may, by petition, request the Election Commissioners of Hamilton County to hold another election "For" or "Against the issuance of bonds;" and as often as so requested, said Commissioners of Election of Hamilton County shall hold such an election until an election shall result "For the issuance of bonds" as provided in this Act, but no such election shall be held oftener [sic] than once in each twelve months.

**SECTION 15.** That the Commissioners of said South Chattanooga Protection District shall assess or cause to be assessed the benefits to accrue to each tract of land within said District from the flood protection works proposed by them to be built, giving as a [sic] brief a description of each tract or parcel of land owned by each owner as will enable the same to be identified, the owner's name (as it appears on the tax collector's records) and giving the total amount of the benefits thereto. Reference to a recorded deed describing the land (by book and page) shall be a valid description. Unless convinced that it is in error and convinced who is the true owner, the Commissioners shall accept the last tax receipt issued for State and county taxes on any property as prima facie evidence that the person to whom issued is the owner of said property; and no error in the name of the owner or owners of any property, railroad or the name of any corporation shall invalidate this assessment nor any part thereof. The words "land" and "tract of land" as used in this Act, and the words "property" and "real property" shall include the land together with all buildings, railroads and all structures and improvements thereon as recognized as real property by the laws and customs of this State. No benefits shall be assessed against any property in the said District which is left outside (on the unprotected side) of the flood protection works, and is therefore not afforded protection thereby. The exclusion of any part or parts of the said District from direct protection may be ordered by the Commissioners of said South Chattanooga Protection District after they shall have decided upon a general plan for flood protection which will not protect such part, and as often as they shall decide upon a modification of said plan they may order the exclusion of any of the part or parts of the District from direct protection, and may again include for protection parts of the said District theretofore excluded. They shall adopt a definite plan for the protection works as early as practicable in their judgement, after collecting such data and making such investigations as they deem essential, but shall not by this be required to complete any plan in detail before adopting same. All plans for said District shall be made by the Chief Engineer appointed by the Commissioners, subject to the approval of said Commissioners; and all construction work, operation and maintenance shall be done under the supervision of the Chief Engineer. The said Commissioners may change or modify the plan or any part thereof as often as they shall deem it desirable and proper to do so. Whenever after the original assessment is made, changes and modifications are adopted, said Commissioners shall make or cause to be made a new assessment of benefits, including thereon only the property on which they find that the assessment should be raised or lowered by such changes; but at no time when there are outstanding

bonds shall a change be made which will result in the total assessment of benefits in the District less than eighty-five (85%) per cent of the total benefits shown at the time of sale of said bonds, or the highest total shown at the time of the sale of any of them, if there have been several bond sales. No part of the said South Chattanooga Protection District shall be entitled to recover damages because of having been left out of the protected portion of the District either by the original plan or any modification thereof made either before or after flood protection works are built or during their construction; but should a levy or levies be collected on the benefits of any property and the benefits on said property be reduced by a subsequent assessment, then the difference shall be refunded by the aforesaid Commissioners, retaining only the amount of the money theretofore collected, which would result from the rate theretofore imposed, applied to the last benefits assessed. In case the benefits are increased on any property, the levy on the new assessment shall be collected for the year during which said benefits are reassessed, and for each year thereafter.

**SECTION 16.** That the Commissioners of the South Chattanooga Protection District may proceed with the floating of bonds, the procuring of rights-of-way, and with construction work, or any of these acts, and the doing of all other things authorized by this Act, immediately after the close of the first hearing on the original assessment, irrespective of any appeals taken from same; and that no appeal from either the assessment of benefits or from any award of damages shall delay the improvements.

**SECTION 17.** That for each revision of assessment of benefits, the filing, publication, hearing by the Commissioners and all things shall be done as provided for the original assessment and all of the provisions of Section 15 of this Act shall apply to each revised assessment.

**SECTION 18.** That upon the election resulting "For the issuance of bonds" and after the close of the first hearing on original assessments, the Commissioners of the South Chattanooga Protection District may proceed with the floating of bonds, the procuring of rights-of-way and with construction work or any of these acts, and the doing of all other things authorized by this Act, irrespective of any appeals taken from such assessments, and that no appeal from either the assessments of benefits or from any award of damages shall delay the improvements.

**SECTION 19.** That after the close of the first hearing on the original assessment and the hearing on each modification of or amendment thereto, Commissioners shall enter, for each tract of land or owner, in a book to be provided by them (in duplicate, one copy for the Commissioners and one for the County Trustee) the description, owner's, total betterment (as approved by the Commissioners at the hearing), rate of levy (for the first year), and amount of levy (for the first year). Five columns shall be provided for the entries last mentioned, and following said five columns there shall be provided columns for four succeeding years, to-wit: For each year, a column each for total benefits, rate of levy and amount of levy. When so prepared one of said books to be delivered to the County Trustee on or before \_\_\_\_\_ of the same year; and the entries therein shall be the authority of the county Trustee to collect the amounts shown therein for the first year's levy, which he is hereby required to collect and to pay over to the Treasurer of said Commissioners as hereinafter provided for the payment of all collections of levies made by him.

**SECTION 20.** That the aforesaid first levy and an annual levy shall be made and collected on the assessed benefits in the following manner: To the estimated cost of the proposed improvements, which said Commissioners shall cause to be made together with the administration and supervision of same, there shall be added not less than fifteen (15) per cent for contingencies. The amount thus arrived at shall be pro rated for a certain number of annual installments to be determined by the Commissioners. Said installments need not be the same each year, but no such installments shall be more than ten per cent of the pro rata to each owner, when said cost is pro rated to the several owners in the proportion of their assessment of benefits to the total benefits for the District. After the said cost with the percentage added for contingencies shall have been so pro rated, any owner may pay his pro rata in cash to the Treasurer of the Commissioners, if paid before any bonds are issued; but such payment in cash shall not exempt said owner from paying the annual levy for operation and maintenance as described hereinafter. The Commissioners shall, each year, on or before July 1st, make an order of such levy, and it shall thereupon be the duty of the Secretary to extend the amount of the said levy on the original or a copy of the assessment roll of said District on file in his office, and to certify a copy of the levy, on or before October 1st, of the said year, to the County Trustee, and said Trustee shall thereupon extend the amount of the levy on the copy of said assessment in his office. Whenever a modification or amendment of said assessment shall be made as provided herein, the same course shall be followed by each official as provided herein for the original assessment. The levy ordered by the Commissioners each year shall include:

- (1) Pro rata of cost plus not less than 15 per cent contingencies;
- (2) Pro rata of interest on indebtedness;

(Total of (1) and (2)

(3) Pro rata of estimated annual operation and maintenance cost;

(Total of (1), (2) and (3).

but on property for which the payment of benefits was made in cash, each annual levy shall be only for the pro rata of estimated annual operation and maintenance cost.

**SECTION 21.** That the County Trustee of Hamilton County shall collect, each year, at the same time that State and county taxes are collected, the levy for such year in said South Chattanooga Protection District which has been certified to him by the Commissioners. Said Trustee shall make monthly reports to the Commissioners of said South Chattanooga Protection District of the amount of said levy collected during the current month and shall pay over the same monthly to the Treasurer of said Commissioners, and shall make his final settlement for each year not later than May 1st of the said year. The Commissioners shall require the said Trustee to make a special bond for the proper collecting and paying over of the said levy. For collection of said levy the said Trustee shall be allowed a Commission as now allowed by law for State and county taxes, which shall be deducted by him from the moneys so collected before paying the same over. For any failure to pay over (at the time provided in this Act) any money collected for said District, he shall be liable for damages at the rate of ten (10) per cent and interest at the rate of six (6) per cent per annum on the principal and damages.

**SECTION 22.** That if any person shall enjoin the collection of any levy provided for in this Act or any subsequent Act supplementary or amendatory hereto, and shall fail to perpetuate by decree of court, said injunction, the Court, in dissolving the injunction shall, in addition to the cost to them adjudge as damages that the party so enjoining shall pay double the amount of taxes enjoined; and the Court shall award an execution for the same in favor of the President of said Commissioners of the South Chattanooga Protection District for the use of said District.

**SECTION 23.** That the law now governing the amount of damages, when taxes become delinquent, the advertising, sale and redemption of property which is delinquent for taxes, shall apply to the collection of damages, the advertising, sale and redemption of property which may be delinquent for the payment of the levy of the South Chattanooga Protection District the same as if repeated in this Act in full.

All such regulations shall be uniform for each class or kind of buildings throughout any such district, but the regulations in one district may differ from those in other districts. The Regional Planning Commission may make and certify a single plan for all the territory of the county which lies within said region but outside of municipal corporations, or may make and certify separate and successive plans for parts of such territory which it deems to be suitable for urban or nonurban development or which for other reasons it deems to be an appropriate territorial unit for a zone plan; and correspondingly any ordinance enacted by the County Court may cover and include the said whole territory of the county which lies within said region but outside of municipal corporation covered and included in any such single plan or in any such separate and successive plans. **SECTION 4. METHOD OF PROCEDURE.** That after the certification of a zone plan from the Regional Planning Commission and before the enactment of any such zoning resolution the County Court shall hold a public hearing thereon of the time and place of which at least thirty (30) days notice shall be given by one publication in a newspaper of general circulation in the county. Such notice shall state the place at which the text and maps as certified by the Planning Commission may be examined. No change in or departure from the text or maps as certified by the Regional Planning Commission shall be made, unless such change or departure be first submitted to the certifying Planning Commission for its approval, disapproval or suggestions, and, if disapproved, shall receive the favorable vote of a majority of the entire membership of the County Court; and the Planning Commission shall have thirty days from and after such submission within which to send its report to the County Court. Before finally adopting any such amendment, the County Court shall hold a public hearing thereon, at least thirty (30) days notice of the time and place of which shall be given by at least one publication in a newspaper of general circulation in the county; and any such amendment shall be published at least once in the official newspaper of the county or in a newspaper of general circulation in the county.

The County Court shall be the appointing power of the members of such Board of Appeals and may fix their compensation and their terms, which terms shall be of such length and so arranged that the term of one member will expire each year. The County Court may remove any member for cause upon written charges and after a public hearing. Vacancies shall be filled for unexpired terms in the same manner as in the case of original appointments. The County Court may appoint associate members of said Board, and, in the event that any regular member be temporarily unable to act owing to absence from the county, illness, interest in a case before the Board, or other cause, his place may be taken during such temporary disability by an associate member designated for the purpose by the County Court. The County Court of two or more counties may, by resolution enacted by both or all of them, arrange and provide for a joint or common Board of Zoning Appeals.

The County Court may provide and specify in its zoning or other resolution, general rules to govern the organization, procedure and jurisdiction of said Board of Appeals, which rules shall not be inconsistent with the provisions of this Act; and the said Board may adopt supplemental rules of procedure, not inconsistent with this Act or such general rules.

3. Where, by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of the enactment of the regulation or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of such piece of property, the strict application of any regulation enacted under this Act would result in peculiar and exceptional practical difficulties to or exceptional and undue hardship upon the owner of such property to authorize upon an appeal relating to said property, a variance from such district application so as to relieve such difficulties or hardship, provided such relief may be granted without substantial detriment to the public good and without substantially impairing the intent and purpose of the zone plan and zoning resolution.

**SECTION 7. BUILDING COMMISSIONER.** That the County Court may provide for the enforcement of its zoning regulations by means of the withholding of building permits and, for such purpose, may establish and fill a position of County Building Commissioner and may fix the compensation attached to said position. From and after the establishment of such position and the filling of same, it shall be unlawful to erect, construct, reconstruct, alter or use any building or other structure without obtaining a building permit from such County Building Commissioner, and such building Commissioner shall not issue any

permit unless the plans of and for the proposed erection, construction, reconstruction, alteration or use fully conform to all zoning regulations then in effect.

Each and every day during which such illegal erection, construction, reconstruction, alteration, maintenance or use continues shall be deemed a separate offense. **SECTION 9. CONFLICT WITH OTHER LAWS.** That wherever the regulations made under authority of this Act require a greater width or size of yards, courts or other open spaces, or require a lower height of buildings or less number of stories or require a greater percentage of lot to be left unoccupied or impose other higher standards than are required in any other statute, the provisions of the regulations made under authority of this Act shall govern. less than twenty (20) years, and for any reason becomes separated from the County employment shall be reimbursed from such fund the full amount contributed by him or her thereto; provided, that should such person again be employed by the County, they will not be given service credit for the time previously employed unless, within ninety (90) days from the date of re-employment, the person repays to the retirement fund the amount withdrawn plus six (6%) per cent interest on such amount from the date of withdrawal.

Be it remembered that this Section applies only to employees coming under this plan on and after the effective date hereof and does not apply to employees covered prior hereto since the retirement requirements for employees so covered are otherwise provided for under said Act, as amended.

**SECTION 16.** By filing an application with the Pension Commission, an Employee may elect to receive a Pension payable in accordance with one of the following options:

(1) Employees eligible for retirement may elect full benefits as provided in the Plan which shall exclude continued payment to spouse following death.

An Employee may elect or revoke an option prior to Retirement by filing such election or revocation in writing with the Commission prior to Retirement. Under no circumstances may an option be changed or revoked after the Employee's Retirement.

An election made pursuant at this Section shall become inoperative in the event the Employee's death occurs prior to actual Retirement; or, the death of the spouse occurs before the Employee's actual

## Retirement.

The above options shall also apply to those retiring under disability benefits as otherwise provided in the Plan.

As amended by: Private Acts of 1974, Chapter 356

**SECTION 17.** In determining the amount of pension due an employee, the Pension Commission shall base their computations upon the four highest Employee contribution years and the pension amount shall be limited accordingly; subject only to the minimum amount as otherwise provided in the Plan.

As amended by: Private Acts of 1974, Chapter 356

**SECTION 18.** That the County Council of Hamilton County may allow the then current employees of Hamilton County who are presently members of the Hamilton County Employee Pension System the option of becoming members in the Tennessee Consolidated Retirement System, as hereinafter provided at such time as the county council shall determine such action is desirable. In the event such an option is made available to the said employees of Hamilton County, the election of said option by such an employee shall become binding on said employee at the time such election is filed with the secretary of the Board of Pension Commissioners of the Hamilton County, after membership is initially allowed by the County Council in the Tennessee Consolidated Retirement System, shall become a member of the Tennessee Consolidated Retirement System as a condition of employment, and membership in the Hamilton County Employee's Pension System shall thereafter be closed except Hamilton County Nursing Home may elect to remain under the Hamilton County Employees' Pension System.

As amended by: Private Acts of 1977, Chapter 122

**SECTION 19.** In the event membership in the Tennessee Consolidated Retirement System is allowed by the county council, an actuarial study of the Hamilton County Employees Pension System shall be conducted and all funds in excess of those needed to keep the system actuarially sound may, at the option of the county council, be paid into the Tennessee Consolidated Retirement System to reduce any prior service liability caused by the membership of Hamilton County Employees in the Tennessee Consolidated Retirement System.

**SECTION 20.** In the event provisions are made for employees of Hamilton County to become members of the Tennessee Consolidated Retirement System and receive prior service credit under one of the following options, the Hamilton County employee electing to terminate his or her membership in the Hamilton County Employees Pension System shall receive such refunds of their actual contributions to the Hamilton County Employees' Pension Fund according to such options.

(a) In the event the county council elects, by majority vote of said governing body, to provide all funding for all prior service of all eligible employees of Hamilton County, all contributions made by every such employee to the Hamilton County Employees' Pension System shall become the property of the Hamilton County Employees' Pension Fund. If this employee transfers into the Tennessee Consolidated Retirement System and subsequently ceases to be an employee of Hamilton County and withdraws from membership in the Tennessee Consolidated Retirement System prior to his retirement, such employee shall be refunded his actual contributions to the Hamilton County Employees' Pension Fund; or

(b) In the event the county council elects, by majority vote of said governing body, to provide funding by Hamilton County for ten (10) years of employment for all eligible employees of Hamilton County, all actual contributions made by every such employee to the Hamilton County Employees' Pension System during the last ten (10) years of such county employment shall become the property of the Hamilton County Employees Pension Fund. Provided further that any employee may purchase all years of county employment greater than ten (10) years by making employee contributions, plus interest, on such service. Any such service greater than ten (10) years which is not purchased by the employee shall be refunded upon Hamilton County making its initial payment to the Tennessee Consolidated Retirement System. If this employee transfers into the Tennessee Consolidated Retirement System and subsequently ceases to be an employee of Hamilton County and withdraws from membership in the Tennessee Consolidated Retirement System prior to his retirement such employee shall be refunded his actual contributions to the Hamilton County Employees' Pension Fund; or

(c) In the event the county council elects, by majority vote of said governing body, not to provide funding for any years of prior service for any employee of Hamilton County, all actual contributions made by every such employee to the Hamilton County Employees' Pension Fund shall be refunded to such employee after Hamilton County makes its initial payment to the Tennessee Consolidated Retirement System. Provided however, that this employee has the option to purchase all years of prior service with Hamilton County, upon payment of the employee's contributions, plus interest.

(d) That in the event an election is made by the county council to participate in the Tennessee Consolidated Retirement System, the county council may also determine: (a) whether all county employees who have no vested rights under the Hamilton County Employees' Pension System shall be required to transfer membership to the Tennessee Consolidated Retirement System; or (b) whether all county employees may elect either to remain a member of the present Hamilton County Employees' Pension System or to become a member in the Tennessee Consolidated Retirement System; or (c) whether all county employees may elect to (1) remain a member of the present Hamilton County Employees' Pension System, or (2) to become a member of the Tennessee Consolidated Retirement System, or (3) to be a member of neither; but in no event may an employee receive credit for the same years of service in both systems.

(e) In the event an election is made by the county council to participate in the Tennessee Consolidated Retirement System, credit for prior service as a Hamilton County employee for those employees of Hamilton County who are presently employed by Hamilton County and who are members of the Hamilton County Employees' Pension System shall be certified to the Tennessee Consolidated Retirement System for only that period (or periods) of employment by Hamilton County for which contributions have been made by the employee to the Hamilton County Employees' Pension System, or for which the employee agrees to pay all unpaid contributions thereto in cash (including interest as may be required) based upon a promissory note therefor, within not more than twelve (12) months of said certification of prior service. **SECTION 21.** Any member in service shall be eligible to receive credit for up to four (4) years of military service during a period of armed conflict, as determined by the pension commission, upon payment of five percent (5%) of the base salary as if they had been in the system, with the base salary assumed to be three thousand six hundred dollars (\$3,600) annually. Provided, however, no person may receive credit for military service which is credited in any other retirement system.

As amended by: Private Acts of 1981, Chapter 156

**SECTION 22.** (a) Any person who is a county commissioner or who becomes a county commissioner may participate in this retirement system upon the terms and conditions established in this section. This section shall apply only to county commissioners, unless otherwise stated herein.

(b) The terms and conditions for participation of county commissioners who have purchased their prior service shall be as follows:

(1) All prior Hamilton County commissioners shall be entitled to a refund of contributions made, subject to taxation in accordance with the Internal Revenue Code. Furthermore, all prior county commissioners shall have the option to prospectively receive the benefits provided by this act as of the date of passage.

(2) All service to Hamilton County as a county commissioner shall be allowed as credited service. Any member may also receive credit for up to four (4) years of military service during a period of armed conflict, as determined by the pension commission. However, service which is credited in any other retirement system may not be credited in this system.

(3) The funds derived from this section shall be held in trust and invested as otherwise provided for in this act.

(4) The normal retirement date of a county commissioner is the first day of the month following the later of the participant's fifty-fifth (55th) birthday and the fifth (5th) anniversary of the date the participant first served as a county commissioner. Provided, however, a member in service may not receive a retirement benefit.

(5) Upon retirement, a participant shall receive an annual, normal retirement benefit of two and one-half percent (2.5%) of the average compensation (excluding any additional compensation received by a commissioner for serving as either chairman or chairman pro tempore) for the participant's five (5) years of service which produce the highest average, (years of service being based on twelve (12) month periods commencing September 1 and ending the following August 31) times total years of service.

(6) If a participant postpones his retirement beyond his normal retirement date, he will be entitled to monthly benefits commencing on the first day of any month following his actual retirement. The deferred retirement benefit is calculated in the same way as the normal retirement benefit, based on the participant's credited service as of his date of retirement.

(7) If a participant ceases to be a county commissioner after he has completed five (5) or more years of service, but prior to his normal retirement date, he is entitled to a deferred vested benefit, which would commence at his normal retirement date and be figured as in subdivision (b)(5) above based on the participant's credited service at his date of separation. If a participant otherwise ceases to be a commissioner before retirement, no benefits shall be provided under the plan.

(8) A participant may select an optional method of benefit payment described in Section 16 in lieu of the prescribed life income, which is actuarially equivalent thereto. The purpose of the optional method is to permit the guarantee of retirement income payments for some minimum period of time or to provide a continued life income to a surviving beneficiary after the death of a participant.

**SECTION 23.** It is the intention of the county that the Hamilton County Employee's Retirement Plan complies with all of the requirements of Internal Revenue Code (hereinafter "Code") Section 401(a) that apply to plans that are sponsored by state or local governments or political subdivisions. The county intends that this plan be considered a tax-qualified plan under Code Section 401(a) and that the retirees and beneficiaries that receive benefits from this plan enjoy the tax-deferred benefits of the plan's qualified status.

In order to assure the tax-qualified status of this plan, this private act is now being amended by the General Assembly to incorporate the following terms as part of the plan document.

This private act, along with other provisions of the law that have been established by acts of the General Assembly of the State of Tennessee and of the Hamilton County Commission that relate to providing retirement benefits for employees of the county, comprises the written documentation requirement of Code Section 401(a)(1).

**SECTION 24.** Assets Held in Trust – Assets maintained to fund the plan shall be held in trust for the purpose of providing benefits to the employees, former employees of the county, or their beneficiaries. The assets held in trust may not revert back to the county unless all benefits payable under the terms of the plan have been satisfied.

**SECTION 25.** Limitation on Benefits – Unless otherwise noted, this section shall be effective for plan years beginning after January 1, 1987.

(a) This subsection, except for subsection (a)(2), applies regardless of whether any member is or has ever been a member in another qualified plan maintained by the employer. If any member is or has ever been a member in another qualified plan or a welfare benefit fund (as defined in Section 419(e) of the Code) maintained by the employer, or an individual medical account (as defined in Section 415(1)(2) of the Code) that provides an annual addition, subsection (b) is also applicable to that member's benefits.

(1) The annual benefit otherwise payable to a member at any time shall not exceed the maximum permissible amount. If the benefit the member would otherwise accrue in a limitation year would produce an annual benefit in excess of the maximum permissible amount, then the rate of accrual will be reduced so that the annual benefit shall equal the maximum permissible amount.

(2) The limitation in subdivision (a)(1) is deemed satisfied if the annual benefit payable to a member is not more than one thousand dollars (\$1,000) multiplied by the member's number of years of service or parts thereof (not to exceed ten (10)) with the employer, and the employer has not at any time maintained a qualified defined contribution plan, a welfare benefit plan as defined in Section 419(e) of the Code, or an individual medical account as defined in Section 415(1)(2) of the Code, in which such member participated.

(b) This subsection applies if any member is covered, or has ever been covered, by another plan maintained by the employer, including a qualified plan, a welfare benefit fund as defined in Section 419(e) of the Code, or an individual medical account as defined in Section 415(1)(2) of the Code, or a simplified employee pension which provides an annual addition maintained by the employer.

(1) If a member is, or has ever been, covered under more than one (1) qualified defined benefit plan maintained by the employer, the sum of the member's annual benefits from all such plans may not exceed the maximum permissible amount.

(2) The provisions of this subdivision (b)(2) shall not apply to limitation years beginning after December 31, 1999. If the employer maintains, or at any time maintained, one (1) or more qualified defined contribution plans covering any member in this plan, a welfare benefit fund as defined in Section 419(e) of the Code, an individual medical account as defined in Section 415(1)(2) of the Code, or a simplified employee pension, the following rules apply. The sum of the member's defined contribution fraction and defined benefit fraction shall not exceed one (1) in any

limitation year, and the annual benefit otherwise payable to the member under this plan or the annual additions otherwise credited to the member under the defined contribution plan shall be limited to the level necessary to prevent the limitations of this section from being exceeded with respect to such member (but not to a figure less than the accrued benefit of such member at the beginning of such limitation year). If the projected annual benefit is reduced to the level of the accrued benefit at the beginning of the limitation year, and the sum of both fractions remains in excess of one (1), the remaining reduction to a sum of one (1) shall be accomplished by reducing the numerator of the defined contribution fraction.

(3) The annual addition to any member's accounts for any plan year shall not exceed the lesser of thirty thousand dollars (\$30,000) (or such amount for any plan year as results from the annual adjustment factor determined by the Commissioner of the Internal Revenue Service and effective on January 1 of the plan year), or twenty-five percent (25%) of such member's compensation for the plan year.

If as a result of (i) the allocation of forfeitures, (ii) a reasonable error in estimating the compensation of a member, (iii) a reasonable error in determining the amount of elective deferral contributions (within the meaning of Code Section 402(g)(3)) that may be made with respect to any individual under the limits of Code Section 415, or (iv) other facts and circumstances allowed by regulation, the annual additions limitation is exceeded in any plan year, the excess annual addition shall be charged against the member's accounts in the following order of priority by the amount required to ensure compliance with this section:

(A) The annual additions to any other qualified defined contribution plan;

(B) Employee contributions to this plan – The portion of such excess that consists of employee contributions shall be returned to the member. The employee contributions returned or distributed shall include income on such amounts determined in the same manner that income is determined in this plan. (However, if such method of determining income is not permitted by regulations, then income shall be determined in a manner consistent with any applicable regulations.)

(c) In the case of an individual who was a member in one (1) or more qualified defined benefit plans of the employer as of the first day of the first limitation year beginning after December 31, 1986, the application of the limitations of this section shall not cause the maximum permissible amount for such individual under all such qualified defined benefit plans to be less than the individual's Tax Reform Act of 1986 (TRA '86) accrued benefit. The preceding sentence applies only if all such qualified defined benefit plans met the requirements of Section 415 of the Code for all limitation years beginning before January 1, 1987.

(d) Definitions. For purposes of this section, the following terms shall be defined as follows:

(1) "Annual Additions" means the sum of the following amounts credited to a member's accounts under a qualified defined contribution plan for the limitation year:

(A) Employer contributions;

(B) Employee contributions; and

(C) Forfeitures

Amounts allocated after March 31, 1984, to an individual medical account, as defined in Section 415(1)(2) of the Code, which is part of a pension or annuity plan maintained by the employer, shall be treated as an annual addition to a qualified defined contribution plan.

(2) "Annual Benefit" means a retirement benefit under the plan which is payable annually in the form of a straight life annuity. Except as provided below, benefit payable in a form other than a straight life annuity shall be adjusted to an actuarially equivalent straight life annuity before applying the limitations of this section. The annual benefit shall not include any benefits attributable to employee contributions (other than contributions picked up by the employer in accordance with Code Section 414(h)) or rollover contributions, or the assets transferred from a qualified plan that was not maintained by the employer. No actuarial adjustment to the benefit is required for (i) the value of a qualified joint and survivor annuity (as defined in Code Section 417(b)), (ii) the value of benefits that are not directly related to retirement benefits (such as the qualified disability benefit, preretirement death benefits, and post-retirement medical benefits), and (iii) the value of post-retirement cost-of-living increases, if any, made in accordance with Section 415(d) of the Code and Section 1.4153(c)(2)(iii) of the Treasury Regulations.

(3) "Compensation" means, solely for purposes of this section, wages, salaries, and fees or professional services and other amounts received (without regard to whether or not an amount is

paid in cash) for personal services actually rendered in the course of employment with the employer maintaining the plan to the extent that the amounts are includible in gross income (including, but not limited to, commissions paid salesmen, compensation for services on the basis of a percentage of profits, commissions on insurance premiums, tips, bonuses, fringe benefits, reimbursements, and expense allowances) and excluding the following:

(A) Employer contributions to a plan of deferred compensation (including a Code Section 457 plan) which are not includible in the employee's gross income for the taxable year in which contributed, or any distributions from a plan of deferred compensation; and

(B) Other amounts which received special tax benefits, including pickup contributions, and contributions made by the employer (whether or not under a salary reduction agreement) towards the purchase of an annuity described in Code Section 403(b) (whether or not the amounts are actually excludable from the gross income of the eligible employee).

Notwithstanding the above, effective January 1, 1998, compensation shall include salary deferrals under Sections 401(k), 403(b), 457, and 125 of the Code; however, contributions picked up by the employer shall continue to be excluded.

For limitation years beginning on and after January 1, 2001, for purposes of applying the limitations of this section, compensation paid or made available during such limitation years shall include elective amounts that are not includible in the gross income of the eligible employee by reason of Code Section 132(f)(4).

(4) "Defined Benefit Dollar Limitation" means ninety thousand dollars (\$90,000). Effective on January 1, 1988, and each January thereafter, the ninety thousand dollar (\$90,000) limitation above will be automatically adjusted by multiplying such limit by the cost of living adjustment factor prescribed by the Secretary of the Treasury under Section 415(d) of the Code in such manner as the secretary shall prescribe. The new limitation will apply to limitation years ending within the calendar year of the date of the adjustment.

(5) "Defined Benefit Fraction" means a fraction, the numerator of which is the sum of the member's projected annual benefits under all qualified defined benefit plans (whether or not terminated) maintained by the employer, and the denominator of which is the lesser of (i) one hundred twenty-five percent (125%) of the dollar limitation determined for the limitation year under Sections 415(b)(1)(A) and (d) of the Code and (ii) one hundred forty percent (140%) of the highest average compensation, including any adjustments under Section 415(b)(5) of the Code, both in accordance with Section 25(d)(10) below.

Notwithstanding the above, if the member was a member as of the first day of the first limitation year beginning after December 31, 1986, in one (1) or more qualified defined benefit plans maintained by the employer which were in existence on May 6, 1986, the denominator of this fraction shall not be less than one hundred twenty-five percent (125%) of the sum of the annual benefits under such plans which the member had accrued as of the close of the last limitation year beginning before January 1, 1987, disregarding any changes in the terms and conditions of the plans after May 5, 1986. The preceding sentence applies only if the qualified defined benefit plans individually and in the aggregate satisfied the requirements of Code Section 415 for all limitation years beginning before January 1, 1987.

(6) "Defined Contribution Fraction" means a fraction, the numerator of which is the sum of the annual additions to the member's account under all qualified defined contribution plans (whether or not terminated) maintained by the employer for the current and all prior limitation years, (including the annual additions attributable to the member's nondeductible employee contributions to this and all other qualified defined benefit plans (whether or not terminated) maintained by the employer and the annual additions attributable to all welfare benefit funds, as defined in Section 419(e) of the Code or individual medical account as defined in Section 415(1)(2) of the Code, maintained by the employer), and the denominator of which is the sum of the maximum aggregate amounts for the current and all prior limitation years of service with the employer (regardless of whether a qualified defined contribution plan was maintained by the employer). For purposes hereof, the maximum aggregate amount in any limitation year is the lesser of (i) one hundred twenty-five percent (125%) of the dollar limitation determined under Section 415(c)(1)(A) of the Code after adjustment under Section 415(d) of the Code and (ii) thirty-five percent (35%) of a member's compensation for such year.

If the eligible employee was a member as of the first day of the first limitation year beginning after December 31, 1986, in one (1) or more defined contribution plans maintained by the employer which were in existence on May 6, 1986, then the numerator of this fraction shall be adjusted if the

sum of this fraction and the defined benefit fraction would otherwise exceed one (1) under the terms of this plan. Under the adjustment, an amount equal to the product of (i) the excess of the sum of the fractions over one (1) times (ii) the denominator of this fraction, shall be permanently subtracted from the numerator of this fraction. The adjustment shall be calculated using the fractions as they would be computed as of the end of the last limitation year beginning before January 1, 1987, and disregarding any changes in the terms and conditions of the plans made after May 5, 1986, but using the Code Section 415 limitation applicable to the first limitation year beginning on or after January 1, 1987. The annual addition for any limitation year beginning before January 1, 1987. The annual addition for any limitation year beginning before January 1, 1987, shall not be recomputed to treat all employee contributions as annual additions.

(7) "Employer" means, for purposes of this section, the government of Hamilton County, Tennessee, and any agency that adopts this plan.

(8) "Highest Average Compensation" means the average compensation for the three (3) consecutive years of service with the employer that produces the highest average.

(9) "Limitation Year" means the plan year.

(10) "Maximum Permissible Amount" means the defined benefit dollar limitation as modified below.

(A) If the member has less than ten (10) years of participation with the employer, the maximum permissible amount is reduced by one-tenth (1/10) for each year of participation (or part thereof) less than ten (10). To the extent provided in regulations or in other guidance issued by the Internal Revenue Service, the preceding sentence shall be applied separately with respect to each change in the benefit structure of the plan. The adjustments of this paragraph shall be applied in the denominator of the defined benefit fraction based upon years of service. In no event shall the reduction in the maximum permissible amount reduce the limitation to an amount less than one-tenth (1/10) of that limitation (determined without regard to this subdivision (10)(A)).

(B) Adjustment or early payment. If the annual benefit of the member commences before age sixty-two (62), the defined benefit dollar limitation shall be determined as follows:

(i) If the annual benefit of a member commences prior to age sixty-two (62), the defined benefit dollar limitation shall be the actuarial equivalent of an annual benefit beginning at age sixty-two (62), as determined above, reduced for each month by which benefits commence before the month in which the member attains age sixty-two (62). However, in no event shall the adjustment in this subdivision (10) (B) (i) result in the defined benefit dollar limitation being reduced to an amount less than the minimum specified below. If the annual benefit of a member commences on or after age fifty-five (55), the minimum amount shall be seventy-five thousand dollars (\$75,000) (with no adjustments for increases in the cost of living). If the annual benefit to a member commences before age fifty-five (55), the minimum amounts shall be the actuarial equivalent of an annual benefit of seventy-five thousand dollars (\$75,000) commencing at age fifty-five (55) (with no adjustments for increases in the cost of living).

(ii) The adjustment in subdivisions (10) (B) (i) above shall not apply in the case of a qualified member. A member is considered qualified for purposes of this paragraph if the service used in computing his benefit includes at least fifteen (15) years of full-time employment: in any police department or fire department of the employer, to provide police protection, firefighting services or emergency medical services within the jurisdiction of the employer; or as a participant of the Armed Forces of the United States; or in any combination thereof adding up to at least fifteen (15) years of full-time employment.

(iii) The adjustment in subdivision (10) (B) (i) above shall not apply to any benefit payable as a result of the member becoming disabled or to a benefit payable to the beneficiaries, survivors, or estate of member as a result of the death of the member.

(C) Adjustment for delayed payment. If the annual benefit of a member commences after age sixty-five (65), the defined benefit dollar limitation shall be adjusted so that it is the actuarial equivalent of an annual benefit of such dollar limitation beginning at age sixty-five (65).

(11) "Projected Annual Benefit" means the annual benefit to which the member would be entitled under the terms of the plan assuming:

(A) The member continues employment until normal retirement age under the plan (or current age, if later), and

(B) The member's compensation for the current limitation year and all other relevant factors used to determine benefits under the plan shall remain constant for all future limitation years.

(12) "Year of Participation" means each accrual computation period (computed to fractional parts of a year) for which the following conditions are met: (i) the member is credited with at least the period of service for benefit accrual purposes, required under the terms of the plan in order to accrue credited employee service or credited police and fire service, and (ii) the member is included as a member under the eligibility provisions of the plan for at least one (1) day of the period of credited employee service or credited police and fire service. If these two (2) conditions are met, the portion of a year of participation credited to the member shall equal the amount of credited employee service or credited police and fire service credited to the member for such accrual computation period. A member who is permanently and totally disable within the meaning of Section 415(c)(3)(C)(i) of the Code for an accrual computation period shall receive a year of participation with respect to that period. In addition, for a member to receive a year of participation (or part thereof) for an accrual computation period, the plan must be established no later than the last day of such accrual computation period. In no event will more than one (1) year of participation be credited for any twelve-month period.

(e) Actuarial equivalence. All actuarial equivalence determinations in this section shall be made in accordance with this subsection. Actuarial equivalence determinations include: adjustment for early payment; adjustment for delayed payment; adjustment for payment in a form other than a life annuity; computation of the benefit attributable to employee contributions; and all other determinations of a similar nature, as required by context. The actuarial equivalent straight life annuity is equal to the greater of the annuity benefit computed using the interest rate and mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form, and the annuity benefit computed using a five percent (5%) interest rate assumption and the GATT mortality table. In determining the actuarially equivalent straight life annuity for a benefit form other than a non-decreasing annuity payable for a period of not less than the life of the participant (or, in the case of a qualified pre-retirement survivor annuity, the life of the surviving spouse), or decreases during the life of the participant merely because of (a) the death of the survivor annuitant (but only if the reduction is not below fifty percent (50%) of the annual benefit payable fore the death of the survivor annuitant), or (b) the cessation or reduction of social security supplements of qualified disability payments (as defined in Code Section 401(a)(11)), the applicable interest rate, as described in Code Section 417(e)(3), will be substituted for "a five percent (5%) interest rate assumption: in the preceding sentence. To determine actuarial equivalence for a delayed payment, the interest rate assumption used is the lesser of the rate specified in Section 33 of the plan and five percent (5%). The GATT mortality table is the table specified in Revenue Ruling 95-6, implementing Section 417(e)(3) of the Code as amended by the Uruguay Round Agreements Acts of 1994. However, the GATT mortality table shall automatically be the table specified in any future Revenue Rulings or Federal Regulations that amend or supersede Revenue Ruling 95-6 by specifying a new mortality table for purposes of Section 41(e)(3) of the Code, as amended. Solely for purposes of determining the benefit attributable to employee contributions, to compute the limitations in this section, interest shall be credited to such contributions at the following rates. For period before July 1, 1988, interest shall be credited to employee contributions at the rate of five percent (5%) per year. For plan years commencing on or after July 1, 1988, interest shall be credited on accumulated employee contributions at the rate specified in Section 411(c)(2)(C)(iii) of the Code, up to the determination date. The interest rate used for periods of time commencing on the determination date shall be the rate specified in Section 417(e)(3) of the Code as of the last day of the prior plan year (as if such Code Section applied to this plan).

(f) Provided, the application of this section shall be subject to such rules as may be prescribed by the Secretary of the Treasury, in order to maintain the qualified status of the plan.

**SECTION 26.** Limitation on Earnings.

(a) For purposes of computing any benefit under the plan or any contribution made to a plan, there shall be a limit on the amount of compensation that may be considered in any plan year for any member. The limit shall be the amount specified in this section as described below.

(b) For plan years beginning after December 31, 1995, the annual compensation limit of Code Section 401(a)(17) is incorporated by reference in this plan with respect to non-eligible members; provided, however, in the case of an eligible member, the annual compensation limit of Code Section 401(a)(17) shall not apply to the extent that the application of the limitation would reduce the amount of

compensation that was allowed to be taken into account under the plan as in effect on July 1, 1993. For these purposes, an eligible member is an individual who first became a member in the plan prior to the first day of the first plan year beginning after the earlier of (i) the last day of the plan year by which a plan amendment to reflect the amendments made by Section 13212 of the Omnibus Budget Reconciliation Act of 1993 is both adopted and effective, or (ii) December 31, 1995.

**SECTION 27.** Minimum Distributions - Effective July 1, 1989, notwithstanding any provisions of the plan to the contrary, the following provisions shall apply.

(a) A member shall begin to receive that member's plan benefits no later than April 1 of the calendar year following the later of (i) the year in which he attains age seventy and one-half (70½) or (ii) the year in which he retires. However, in no case shall the member's benefit commence later than the date required by Section 401(a)(9) of the Code, and in no case shall the distribution violate the minimum distribution incidental death benefit requirements of the regulations under Section 401(a)(9) of the Code.

(b) Upon the death of a member after distribution of his benefit has commenced, the remaining portion of his interest in the plan will be distributed at least as rapidly as under the method of distribution in effect prior to the member's death.

Upon the death of a member before distribution of his benefit has commenced, the member's entire interest will be distributed no later than five (5) years after the member's death, except for situations described in (1) or (2) below.

(1) If any portion of the member's interest is payable to a designated beneficiary, the distributions may be made in substantially equal installments over a period of time that is equal to or less than the life or life expectancy of the designated beneficiary commencing no later than one (1) year after the member's death.

(2) If the designated beneficiary is the member's surviving spouse, the date distributions are required to commence in accordance with subdivision (b)(1) above shall not be earlier than the date on which the member would have attained age seventy and one-half (70½), and if the spouse dies before payments begin, subsequent distributions shall be made as if the spouse had been the member.

**SECTION 28.** Right to Direct Rollover.

(a) This section applies to distributions made on or after January 1, 1993. Notwithstanding any provision of the plan to the contrary that would otherwise limit a distributee's election under this section, a distributee may elect, at the time and in the manner prescribed by the benefits board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(b) Definitions. For purposes of this section, the following terms shall be defined as follows:

(1) "Direct rollover" means a payment by the plan to the eligible retirement plan specified by the distributee.

(2) "Distributee" means a member or former member, or the spouse of the member or former member, provided such person is entitled to receive a benefit under the plan.

(3) "Eligible retirement plan" means an individual retirement account described in Section 408(a) of the Code, an individual retirement annuity described in Section 408(b) of the Code, an annuity plan described in Section 403(a) of the Code, or a qualified trust described in Section 401(a) of the Code, that accepts the distributee's eligible rollover distribution. However, in the case of an eligible rollover distribution to the surviving spouse, an eligible retirement plan is an individual retirement account or individual retirement annuity.

(4) "Eligible rollover distribution" means any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: (A) any distribution that is one (1) of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten (10) years or more; (B) any distribution to the extent such distribution is required under Section 401(a)(9) of the Code; and (C) the portion of any distribution that is not includible in gross income.

**SECTION 29.** Qualified Military Service - The following sentence shall apply to those members who are re-employed on or after December 12, 1994. Notwithstanding any provision of this plan to the contrary, contributions, benefits, and service credit with respect to qualified military service will be provided in accordance with Code Section 414(u).

**SECTION 30.** Family Medical Leave Act - Notwithstanding any other provisions of the plan, in the case of an eligible employee who takes family or medical leave as an eligible employee of a covered employer under the provisions of the Family and Medical Leave Act of 1993 (FMLA), any period of FMLA leave shall be treated as continued service for purposes of eligibility to participate and vesting service to the extent required by applicable law.

**SECTION 31.** Vesting Upon Plan Termination - In the event that this plan is terminated for any reason, the accrued benefits of all members shall fully vest and become nonforfeitable.

**SECTION 32.** Plan Forfeitures - Plan forfeitures occurring as a result of a member terminating employment with the county prior to completing five (5) years of service shall not be used to increase benefits of remaining plan members.

**SECTION 33.** Actuarial Equivalent - Effective July 1, 2002, actuarial equivalent shall mean a benefit of equivalent value on the basis of a seven and one-half percent (7/5%) interest rate, the RP-2000 Mortality Table for Employees (Male) for Members, and the RP-2000 Mortality Table for Employees (Female) for Beneficiaries.

**SECTION 34.** Definitions Applicable to this Act:

(1) "Code" means the U.S. Internal Revenue Code as amended. All references to code sections shall include any applicable rulings and regulations, and as of any future date shall automatically incorporate any amendments to such Sections, and shall be deemed to refer to any comparable provisions of any future laws.

(2) "Plan" means the Hamilton County Employees' Retirement Plan.

(3) "Plan Year" means each twelve-month period commencing July 1 and ending on the next June 30.

(4) "Spouse" means the person who is legally married to a member.

**SECTION 35.** Alienation of Assignment of Benefits: Qualified Domestic Relations Orders (QDROs).

(a) This Act, as created by Chapter 557 of the Private Acts of 1939, and any other acts amendatory thereto, is deemed to be the Hamilton County Employees' Retirement Act, hereinafter referred to under this Section 35 as "the Plan."

(b) Except as otherwise provided under Tennessee Code Annotated, Section 26-2-105, no benefit under the Plan shall be subject in any manner to anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, or charge, and any attempt to so anticipate, alienate, sell, transfer, assign, pledge, encumber, or charge shall be void. No such benefit shall in any manner be liable for or subject to the debts, contracts, liabilities, engagements, or torts of the person entitled to such benefit, except for an order of assignment of support issued under Tennessee Code Annotated, section 36-5-501 or a QDRO under Tennessee Code Annotated, Section 26-2-105, subject to this paragraph (b).

(c) If a QDRO pertains to a plan member who is already receiving benefits under the Plan, the alternate payee, as identified in the QDRO, shall share in the payments being made to the plan member and shall not be allowed to change the payment method or the timing of the payments. If a QDRO pertains to a plan member who has not commenced receiving benefit payments under the Plan, the alternate payee shall not be permitted to receive benefit payments from the plan until the member commences receiving payments, and then the alternate payee shall share in the payments to be made to the member in the manner and timing of payments as elected by the member. The Plan shall not accept a QDRO that provides the alternate payee with a separate interest in a member's benefit.

(d) The responsibility for the review and processing of a QDRO is hereby delegated to the Pension commission, which may, in its discretion, further delegate some or all of such responsibility to a county employee or third party; provided, that the ultimate authority for the determination of the qualified status of a domestic relations order remains with the Pension Commission. The Pension Commission shall establish reasonable procedures to determine the qualified status of a domestic relations order.

As amended by: Private Acts of 208, Chapter 50.

**SECTION 36.** This act shall have no effect unless it is approved by a two-thirds (2/3) vote of the Hamilton County legislative body. Its approval or rejection shall be proclaimed by the presiding officer of such county legislative body and certified by him to the Secretary of State.

## Private Acts of 2014 Chapter 68

AN ACT to amend Chapter 557 of the Private Acts of 1939; as amended by Chapter 76 of the Private Acts of 2004; and any other acts amendatory thereto, relative to the Hamilton County Employees' Retirement Act.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF TENNESSEE:

SECTION 1. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, such acts comprising the Hamilton County Employees' Retirement Act, herein referred to as "the Plan", and any other acts amendatory thereto, are hereby amended as provided in the subsequent sections of this act, generally effective as of July 1, 2010, with specific effective dates for certain sections as may be indicated in such sections.

SECTION 2. This act amends the Plan to comply with changes in the Internal Revenue Code of 1986, herein referred to as the "Code", caused by the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA); the Job Creation and Worker Assistance Act of 2002 (JCWAA); the Pension Funding Equity Act of 2004 (PFEA); the American Jobs Creation Act of 2004 (AJCA); the Pension Protection Act of 2006 (PPA); the Heroes Earnings Assistance and Relief Tax Act of 2008 (HEART); the Worker, Retiree and Employer Recovery Act (WRERA); and various regulations and related guidance issued by the Internal Revenue Service.

SECTION 3. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, and any other acts amendatory thereto, is amended in Section 16 by adding the following language at the end of the section:

The Plan does not permit involuntary distributions of benefits that are immediately distributable,

as defined by the Code.

SECTION 4. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by deleting Section 25 in its entirety and substituting instead the following:

Section 25. Limitations on Benefits.

(a) The limitations of this Section 25 shall apply in Limitation Years beginning on or after July 1, 2002, except as otherwise provided herein.

(b) The Annual Benefit otherwise payable to a Participant at any time shall not exceed the Maximum Permissible Benefit. If the benefit the Participant would otherwise accrue in a Limitation Year would produce an Annual Benefit in excess of the Maximum Permissible Benefit, the benefit shall be limited, or the rate of accrual reduced, to a benefit that does not exceed the Maximum Permissible Benefit.

(c) If the Participant is, or has ever been, a participant in another qualified defined benefit plan maintained by the County, the sum of the Participant's Annual Benefits from all such plans may not exceed the Maximum Permissible Benefit. Where the Participant's county-provided benefits under all such defined benefit plans, determined as of the same age, would exceed the Maximum Permissible Benefit applicable at that age, the County will reduce the rate of accrual in this Plan to the extent necessary so that the total Annual Benefit payable at any time under such plans will not exceed the Maximum Permissible Benefit.

(d) The application of the provisions of this Section 25 shall not cause the Maximum Permissible Benefit for any Participant to be less than the Participant's accrued benefit under all the defined benefit plans of the County as of the end of the last Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, under provisions of the plans that were both adopted and in effect before April 5, 2007. The preceding sentence applies only if the provisions of such defined benefit plans that were both adopted and in effect before April 5, 2007, satisfied the applicable requirements of statutory provisions, regulations, and other published guidance relating to Code section 415 in effect as of the end of the last Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, as described in Regulation 1.415(a)-1(g)(4).

(e) Definitions (In Addition to Those Capitalized Terms Defined in Section 34). For purposes of this Section 25, the following terms shall be defined as follows:

(1) "Annual Benefit" means a benefit that is payable annually in the form of a straight life annuity. Except as provided below, where a benefit is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit and is payable on the first day of each month, before applying the limitations of this Section 25. For a Participant who has or will have distributions commencing at more than one Annuity Starting Date, the Annual Benefit shall be determined as of each such Annuity Starting Date, and shall satisfy the limitations of this Section 25 as of each such date, actuarially adjusting for past and future distributions of benefits commencing at the other Annuity Starting Dates. For this purpose, the determination of whether a new starting date has occurred shall be made without regard to Regulation 1.401(a) 20, Q&A 10(d), and with regard to Regulation 1.415(b)-1(b)(ii)(B) and (C).

No actuarial adjustment to the benefit shall be made for (i) survivor benefits payable to a surviving Spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the Participant's benefit were paid in another form; (ii) benefits that are not directly related to retirement benefits, such as a qualified disability benefit, preretirement incidental death benefits, and postretirement medical benefits; or (iii) the inclusion in the form of benefit of an automatic benefit increase feature, provided the form of benefit is not subject to Code section 417(e)(3) and would otherwise satisfy the limitations of this Section 25, and the Plan provides that the amount payable under the form of benefit in any Limitation Year shall not exceed the limits of this Section 25 applicable at the Annuity Starting Date, as increased in subsequent years pursuant to Code section 415( d). For this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form.

The determination of the Annual Benefit shall take into account social security supplements described in Code section 411 (a)(9) and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant Regulation 1.411(d)-4, Q&A-3(c), but shall disregard benefits attributable to employee contributions

or rollover contributions.

Effective for distributions in Plan Years beginning after December 31, 2003, the determination of actuarial equivalence of forms of benefit other than a straight life annuity shall be made in accordance with subsections (A) or (B) below.

(A) Benefit Forms Not Subject to Code section 417(e)(3). The straight life annuity that is actuarially equivalent to the Participant's form of benefit shall be determined under this subsection (A) if the form of the Participant's benefit is either (1) a nondecreasing annuity, other than a straight life annuity, payable for a period of not less than the life of the Participant or, in the case of a qualified pre-retirement survivor annuity, the life of the surviving Spouse, or (2) an annuity that decreases during the life of the Participant merely because of (a) the death of the survivor annuitant, but only if the reduction is not below fifty percent (50%) of the benefit payable before the death of the survivor annuitant, or (b) the cessation or reduction of Social Security supplements or qualified disability payments, as defined in Code section 401(a)(11).

(i) Limitation Years beginning before July 1, 2007. For Limitation Years beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same Annuity Starting Date that has the same actuarial present value as the Participant's form of benefit computed using whichever of the following produces the greater annual amount: (I) the interest rate and mortality table, or other tabular factor specified in Section 33 of the Plan for adjusting benefits in the same form; and (II) a five percent (5%) interest rate assumption and the applicable mortality table defined in Section 33 of the Plan for that Annuity Starting Date.

(ii) Limitation Years beginning on or after July 1, 2007. For Limitation Years beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, the actuarially equivalent straight life annuity is equal to the greater of (I) the annual amount of the straight life annuity, if any, payable to the Participant under the Plan commencing at the same Annuity Starting Date as the Participant's form of benefit; and (II) the annual amount of the straight life annuity commencing at the same Annuity Starting Date that has the same actuarial present value as the Participant's form of benefit, computed using a five percent (5%) interest rate assumption and the applicable mortality table defined in Section 33 of the Plan for that Annuity Starting Date.

(B) Benefit Forms Subject to Code section 417(e)(3). As a governmental plan there are no benefits subject to Code section 417(e)(3).

(2) "Compensation" shall mean all of a Participant's wages within the meaning of Code section 3401 (a) and all other payments of compensation to an employee by the County for which the County is required to furnish the employee a written statement under Code sections 6041 (d), 6051 (a)(3), and 6052. Compensation shall be determined without regard to any rules under Code section 3401 (a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed, such as the exception for agricultural labor in Code section 3401 (a)(2). However, compensation shall exclude amounts paid or reimbursed by the County for moving expenses incurred by an employee, but only to the extent that at the time of the payment it is reasonable to believe that these amounts are deductible by the employee under Code section 217.

For Limitation Years beginning after December 31, 1991, for purposes of applying the limitations of this section, Compensation for a Limitation Year is the Compensation actually made available during such Limitation Year.

For Limitation Years beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, Compensation for a Limitation Year shall also include Compensation paid by the later of two and one-half (2Y2) months after an employee's severance from employment with the County, or the end of an elected or appointed term as commissioner, or the end of the calendar year that includes the date of the employee's severance from employment, or the end of an elected or appointed term as commissioner

with the County, if:

- (i) The payment is regular Compensation for services during the employee's regular working hours, or Compensation for services outside the employee's regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments, and, absent a severance from employment, the payments would have been paid to the employee while the employee continued in employment (or service as commissioner) with the County; or,
- (ii) The payment is for unused accrued bona fide sick, vacation or other leave that the employee would have been able to use if employment had continued; or
- (iii) The payment is received by the employee pursuant to a nonqualified unfunded deferred compensation plan and would have been paid at the same time if employment had continued, but only to the extent includible in gross income.

Any payments not described above shall not be considered Compensation if paid after severance from employment, or end of term as commissioner, even if they are paid by the later of two and one-half (2Y2) months after the date of severance from employment or the end of the calendar year that includes the date of severance from employment, except, (i) payments to an individual who does not currently perform services for the County by reason of qualified military service, within the meaning of Code section 414(u)(1), to the extent these payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the County rather than entering qualified military service; or (ii) compensation paid to a Participant who is permanently and totally disabled, as defined in Code section 22(e)(3), provided, salary continuation applies to all Participants who are permanently and totally disabled for a fixed or determinable period, or the Participant was not a highly compensated employee, as defined in Code section 414(q), immediately before becoming disabled.

Back pay, within the meaning of Regulation 1.415(c)-2(g)(8) shall be treated as Compensation for the Limitation Year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included under this definition.

For Limitation Years beginning after December 31, 1997, for purposes of applying the limitations of this Section 25, compensation paid or made available during such Limitation Year shall include any elective deferral, as defined in Code section 402(g)(3), and any amount which is contributed or deferred by the County at the election of the employee and which is not includible in the gross income of the employee by reason of Code section 125 or Code section 457.

For Limitation Years beginning on and after January 1, 2001, for purposes of applying the limitations of this Section 25, Compensation paid or made available during such Limitation Years shall include elective amounts that are not includible in the gross income of the Employee by reason of Code section 132(f)(4).

(3) "County" shall, for purposes of this Section 25, mean the County of Hamilton, Tennessee.

(4) "Defined Benefit Compensation Limitation" As a governmental plan, this Plan is not subject to the 100% compensation limit of Code section 415(b).

(5) "Defined Benefit Dollar Limitation" shall mean, as of the general effective date of this act, one hundred ninety-five thousand dollars (\$195,000), the limit for the 2010 fiscal year, as may be automatically adjusted, effective January 1 of each year, by the Secretary of the Treasury under Code section 415(d) in such manner as the Secretary shall prescribe, and payable in the form of a straight-life annuity. A limitation as adjusted under Code section 415(d) will apply to Limitation Years ending with or within the calendar year for which the adjustment applies, but a Participant's benefits shall not reflect the adjusted limit prior to January 1 of that calendar year. The automatic annual adjustment provided under Code section 415(d) shall apply to Participants who have had a separation from employment.

(6) "Highest Average Compensation" shall mean the average Compensation for the three (3) consecutive Years of Service with the County that produces the highest average. If the Participant has less than three (3) consecutive Years of Service, the highest average will be based on the Participant's longest consecutive period of Service, including fractions of

years, but not less than one (1) year.

In the case of a Participant who is rehired by the County after a severance from employment, or a commissioner re-elected or appointed to a nonconsecutive term, the Participant's Highest Average Compensation shall be calculated by excluding all years for which the Participant performs no services for and receives no Compensation from the County (the "break period") and by treating the years immediately preceding and following the break period as consecutive. A Participant's Compensation for a Year of Service shall not include Compensation in excess of the limitation under Code section 401 (a)(17) that is in effect for the calendar year in which such Year of Service begins.

(7) "Limitation Year" shall mean the Plan Year. All qualified plans maintained by the County shall use the same Limitation Year. If the Limitation Year is amended to a different twelve (12) consecutive month period, then the new Limitation Year shall begin on a date within the Limitation Year in which the amendment is made.

(8) "Maximum Permissible Amount" shall mean the Defined Benefit Dollar Limitation adjusted where required and to the extent applicable pursuant to subsections (A) and (B) below.

(A) Adjustment for Less Than Ten (10) Years of Participation or Service. If the Participant has less than ten (10) Years of Participation in the Plan, the Defined Benefit Dollar Limitation shall be multiplied by a fraction (i) the numerator of which is the number of Years, or part thereof, but not less than one (1) year, of Participation in the Plan, and (ii) the denominator of which is ten (10). This subsection (A) shall not apply to a distribution made on account of the Participant becoming disabled by reason of personal injuries or sickness or as a result of the Participant's death.

(B) Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement Before Age Sixty-Two (62) or after Age Sixty-Five (65). Effective for benefits commencing in Limitation Years ending after December 31, 2001, the Defined Benefit Dollar Limitation shall be adjusted if the Annuity Starting Date of the Participant's benefit is before age sixty-two (62) or after age sixty-five (65). If the Annuity Starting Date is before age sixty-two (62), the Defined Benefit Dollar Limitation shall be adjusted under subparagraph (B)(i) below, as modified by subparagraph (B)(iii). If the Annuity Starting Date is after age sixty-five (65), the Defined Benefit Dollar Limitation shall be adjusted under subparagraph (B)(ii) below, as modified by subparagraph (B)(iii).

(i) Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement Before Age Sixty-Two (62).

I. Limitation Years Beginning Before July 1, 2007. If the Annuity Starting Date for the Participant's benefit is prior to age sixty-two (62) and occurs in a Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, the Defined Benefit Dollar Limitation for the Participant's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Participant's Annuity Starting Date that is the actuarial equivalent of the Defined Benefit Dollar Limitation, adjusted under subsection (8)(A) above for years of participation less than ten (10), if required, with actuarial equivalence computed using whichever of the following produces the smaller annual amount: (1) the interest rate specified and the mortality table, or other tabular factor specified in Section 33 of the Plan; or (2) a five percent (5%) interest rate assumption and the applicable mortality table as defined in Section 33 of the Plan.

II. Limitation Years Beginning on or After July 1, 2007.

A. Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age Sixty-Two (62) and the Age of Benefit Commencement. If the Annuity Starting Date for the Participant's benefit is prior to age sixty-two (62) and occurs in a Limitation Year beginning on or after

July 1, 2007, or such later date as may be applicable to a governmental plan, and the Plan does not have an immediately commencing straight life annuity payable at both age sixty-two (62) and the age of benefit commencement, the Defined Benefit Dollar Limitation for the Participant's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Participant's Annuity Starting Date that is the actuarial equivalent of the Defined Benefit Dollar Limitation, adjusted under subsection (8)(A) above for years of participation less than ten (10), if required, with actuarial equivalence computed using a five percent (5%) interest rate assumption and the applicable mortality table for the Annuity Starting Date as defined in Section 33 of the Plan, and expressing the Participant's age based on completed calendar months as of the Annuity Starting Date.

B. Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age Sixty Two (62) and the Age of Benefit Commencement. If the Annuity Starting Date for the Participant's benefit is prior to age sixty-two (62) and occurs in a Limitation Year beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, and the Plan has an immediately commencing straight life annuity payable at both age sixty-two (62) and the age of benefit commencement, the Defined Benefit Dollar Limitation for the Participant's Annuity Starting Date is the lesser of the limitation determined under subsection (B)(i)(II)A above and the Defined Benefit Dollar Limitation, adjusted under subsection (8)(A) for years of participation less than ten (10), if required, multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under the Plan at the Participant's Annuity Starting Date to the annual amount of the immediately commencing straight life annuity under the Plan at age sixty-two (62), both determined without applying the limitations of this Section 25.

(ii) Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement After Age Sixty-Five (65).

I. Limitation Years Beginning Before July 1, 2007. If the Annuity Starting Date for the Participant's benefit is after age sixty-five (65) and occurs in a Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, the Defined Benefit Dollar Limitation for the Participant's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Participant's Annuity Starting Date that is the actuarial equivalent of the Defined Benefit Dollar Limitation, adjusted under subsection (8)(A) above for years of participation less than ten (10), if required, with actuarial equivalence computed using whichever of the following produces the smaller annual amount: (1) the interest rate and the mortality table, or other tabular factor specified in Section 33 of the Plan; or (2) a five percent (5%) interest rate assumption and the applicable mortality table defined in Section 33 of the Plan.

II. Limitation Years Beginning Before July 1, 2007.

A. Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age Sixty-Five (65) and the Age of Benefit Commencement. If the Annuity Starting

Date for the Participant's benefit is after age sixty-five (65) and occurs in a Limitation Year beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, and the Plan does not have an immediately commencing straight life annuity payable at both age sixty-five (65) and the age of benefit commencement, the Defined Benefit Dollar Limitation at the Participant's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Participant's Annuity Starting Date that is the actuarial equivalent of the Defined Benefit Dollar Limitation, adjusted under subsection (8)(A) above for Years of Participation less than ten (10), if required, with actuarial equivalence computed using a five percent (5%) interest rate assumption and the applicable mortality table for that Annuity Starting Date as defined in Section 33 of the Plan, and expressing the Participant's age based on completed calendar months as of the Annuity Starting Date.

B. Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age SixtyFive (65) and the Age of Benefit Commencement. If the Annuity Starting Date for the Participant's benefit is after age sixty-five (65) and occurs in a Limitation Year beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, and the Plan has an immediately commencing straight life annuity payable at both age sixty-five (65) and the age of benefit commencement, the Defined Benefit Dollar Limitation at the Participant's Annuity Starting Date is the lesser of the limitation determined under subsection (B)(i)(II)A and the Defined Benefit Dollar Limitation, adjusted under subsection (8)(A) above for Years of Participation less than ten (10), if required, multiplied by the ratio of the annual amount of the adjusted immediately commencing straight life annuity under the Plan at the Participant's Annuity Starting Date to the annual amount of the adjusted immediately commencing straight life annuity under the Plan at age sixty-five (65), both determined without applying the limitations of this Section 25. For this purpose, the adjusted immediately commencing straight life annuity under the Plan at the Participant's Annuity Starting Date is the annual amount of such annuity payable to the Participant, computed disregarding the Participant's accruals after age sixty-five (65) but including actuarial adjustments even if those actuarial adjustments are used to offset accruals; and the adjusted immediately commencing straight life annuity under the Plan at age sixty-five (65) is the annual amount of such annuity that would be payable under the Plan to a hypothetical participant who is age sixty-five (65) and has the same accrued benefit as the Participant.

(iii) Notwithstanding the other requirements of this subsection (8)(B), no adjustment shall be made to the Defined Benefit Dollar Limitation to reflect the probability of a Participant's death between the Annuity Starting Date and age sixty-two (62), or between age sixty-five (65) and the Annuity Starting Date, as applicable, if benefits are not forfeited upon the death of the Participant prior to the Annuity Starting Date. To the extent benefits are forfeited upon death before the Annuity Starting Date, such an adjustment shall be made. For this purpose, no forfeiture shall be treated as occurring upon the Participant's death if the

Plan does not charge Participants for providing a qualified preretirement survivor annuity, as defined in Code section 417(c) upon the Participant's death.

(C) Minimum benefit permitted. Notwithstanding anything else in this definition to the contrary, the benefit otherwise accrued or payable to a Participant under this Plan shall be deemed not to exceed the Maximum Permissible Benefit if:

(i) The retirement benefits payable for a Limitation Year under any form of benefit with respect to such Participant under this Plan and under all other defined benefit plans, without regard to whether a plan has been terminated, ever maintained by the County do not exceed ten thousand dollars (\$10,000) multiplied by a fraction (I) the numerator of which is the Participant's number of years, or part thereof, but not less than one (1) year of service, not to exceed ten (10) with the County, and (II) the denominator of which is ten (10); and

(ii) The County has not at any time maintained a defined contribution plan in which the Participant participated. For this purpose, mandatory employee contributions under a defined benefit plan, individual medical accounts under § 401 (h), and accounts for postretirement medical benefits established under § 419A(d)(1) are not considered a separate defined contribution plan.

(9) "Year of Participation" shall mean each accrual computation period, computed to fractional parts of a year, for which the following conditions are met: (i) the Participant is credited with at least the number of hours of service for benefit accrual purposes, required under the terms of the Plan in order to accrue benefit service, and (ii) the Participant is included as a Participant under the eligibility provisions of the Plan for at least one (1) day of the period of benefit service. If these two (2) conditions are met, the portion of a Year of Participation credited to the Participant shall equal the amount of benefit service credited to the Participant for such accrual computation period. A Participant who is permanently and totally disabled within the meaning of Code section 415(c)(3)(C)(i) for an accrual computation period shall receive a Year of Participation with respect to that period. In addition, for a Participant to receive a Year of Participation, or part thereof, for an accrual computation period, the Plan must be established no later than the last day of such accrual computation period. In no event will more than one (1) Year of Participation be credited for any twelve (12) month period.

(f) Notwithstanding any provision of this Section 25, the application of this section shall be subject to such rules as may be prescribed by the Secretary of the Treasury.

SECTION 5. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by deleting Section 26 in its entirety and substituting instead the following:

Section 26. Limitation on Earnings.

(a) For purposes of computing any benefit under the Plan or any contribution made to the Plan, there shall be a limit on the amount of compensation that may be considered in any Plan Year for any Participant. The limit shall be the amount specified in this section as described below.

(b) For Plan Years beginning after December 31, 2001, the annual compensation of each Participant taken into account in determining benefit accruals in any Plan Year shall not exceed two hundred thousand dollars (\$200,000), as may be adjusted as set forth below. Annual compensation means compensation during the Plan Year or such other consecutive twelve-month period over which compensation is otherwise determined under the Plan, known as the determination period. Should the Plan use annual compensation for periods prior to January 1, 2002, to determine benefit accruals for Plan Years beginning after December 31, 2001, the annual compensation limit used for such periods shall be two hundred thousand dollars (\$200,000). The two hundred thousand dollar (\$200,000) limit on annual compensation in this subsection (b) shall be adjusted for cost-of-living increases in accordance with Code section 401(a)(17)(B), the cost-of-living adjustment effective January 1, 2010, is two hundred forty-five thousand dollars (\$245,000). The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year.

SECTION 6. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by deleting Section 27 in its entirety and substituting instead the following:

Section 27. Minimum Distribution.

(a) Final Regulations Incorporated By Reference. Notwithstanding any provision of the Plan to the contrary, with respect to distributions under the Plan made for calendar years beginning on or after January 1, 2006, the Plan will apply the minimum distribution requirements of Code section 401(a)(9) in accordance with the Regulations under Code section 401 (a)(9) that were finalized on June 15, 2004, and amended September 8, 2009, which are hereby incorporated by reference.

Furthermore, the Plan shall comply with any and all provisions interpreting Code section 401(a)(9) that are prescribed by the Commissioner of the Internal Revenue Service.

(b) Subject to the joint and survivor annuity requirement of the Plan, the requirements of this Section 27 will take precedence over any inconsistent provisions of the Plan.

(c) All distributions required under this Section 27 will be determined and made in accordance with Code section 401(a)(9) and the Regulations thereunder, including the incidental death benefit requirement in Code section 401 (a)(9)(G).

(d) Notwithstanding any other provision of this Section 27, other than subsection (c), distributions may be made under a designation made before January 1, 1984, in accordance with section 242(b)(2) of the Tax Equity and Fiscal Responsibility Act (TEFRA) and the provisions of the Plan that relate to section 242(b)(2) of TEFRA.

(e) Required Beginning Date. The Participant's entire interest will be distributed, or begin to be distributed, to the Participant no later than the Participant's required beginning date. "Required beginning date" means the April 1 of the calendar year following the later of:

- (1) The calendar year in which the Participant attains age seventy and one-half (70 1/2), or
- (2) The calendar year in which the Participant retires.

(f) Death of Participant Before Distributions Begin. If the Participant dies before distributions begin, the Participant's entire interest will be distributed, or begin to be distributed, no later than as follows:

- (1) If the Participant's surviving Spouse is the Participant's sole designated beneficiary, then distributions to the surviving Spouse will begin by December 31 of the calendar year immediately following the calendar year in which the Participant died, or by December 31 of the calendar year in which the Participant would have attained age seventy and one-half (70 1/2), if later.
- (2) If the Participant's surviving Spouse is not the Participant's sole designated beneficiary, then distributions to the designated beneficiary will begin by December 31 of the calendar year immediately following the calendar year in which the Participant died.
- (3) If there is no designated beneficiary as of September 30 of the year following the year of the Participant's death, the Participant's entire interest will be distributed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.
- (4) If the Participant's surviving Spouse is the Participant's sole designated beneficiary and the surviving Spouse dies after the Participant but before distributions to the surviving Spouse begin, this Section 27(f), other than subsection (1), will apply as if the surviving Spouse were the Participant.

For purposes of this Section 27(f) and subsections (n),(o) and (p), distributions are considered to begin on the Participant's required beginning date, or, if Section 27(f)(4) applies, the date distributions are required to begin to the surviving Spouse under Section 27(f)(1). If annuity payments irrevocably commence to the Participant before the Participant's required beginning date, or to the Participant's surviving Spouse before the date distributions are required to begin to the surviving Spouse under Section 27(f)(4), the date distributions are considered to begin is the date distributions actually commence.

(g) Form of Distribution. Unless the Participant's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the required beginning date, distributions will be made in accordance with the subsequent provisions of this Section 27. If the Participant's interest is distributed in the form of an annuity purchased from an insurance company, distributions thereunder will be made in accordance with the requirements of Code

section 401 (a)(9) and Regulations thereunder. Any part of the Participant's interest which is in the form of an individual account described in Code section 414(k) will be distributed in a manner satisfying the requirements of Code section 401 (a)(9) and the Regulations thereunder that apply to individual accounts.

(h) General Annuity Requirements. A Participant who is required to begin payments as a result of attaining his or her required beginning date, whose interest has not been distributed in the form of an annuity purchased from an insurance company or in a single sum before such date, may receive such payments in the form of annuity payments under the Plan. Payments under such annuity must satisfy the following requirements:

- (1) The annuity distributions will be paid in periodic payments made at intervals not longer than one (1) year;
- (2) The distribution period will be over a life, or lives, or over a period certain not longer than the period provided for under the terms of this Section 27;
- (3) Once payments have begun over a period certain, the period certain will not be changed even if the period certain is shorter than the maximum permitted;
- (4) Payments will either be nonincreasing, or increase only as follows:
  - (A) By an annual percentage increase that does not exceed the annual percentage increase in an eligible cost-of-living index for a twelve-month period ending in the year during which the increase occurs or the prior year;
  - (B) By a percentage increase that occurs at specified times, for example, at specified ages, and does not exceed the cumulative total of annual percentage increases in an eligible cost-of-living index since the Annuity Starting Date, or if later, the date of the most recent percentage increase; except that in cases providing such a cumulative increase, an actuarial increase may not be provided to reflect the fact that increases were not provided in the interim years;
  - (C) To the extent of the reduction in the amount of the Participant's payments to provide for a survivor benefit upon death, but only if the beneficiary whose life was being used to determine the distribution period described in Section 27(k) dies or is no longer the Participant's beneficiary pursuant to a court order recognized by the Plan;
  - (D) To allow a beneficiary to convert the survivor portion of a joint and survivor annuity into a single sum distribution upon the Participant's death;
  - (E) To pay increased benefits that result from a plan amendment;
  - (F) By a constant percentage, applied not less frequently than annually, at a rate that is less than five percent (5%) per year;
  - (G) To provide a final payment upon the death of the Participant that does not exceed the excess of the actuarial present value of the Participant's accrued benefit, within the meaning of Code section 411 (a)(7), calculated as of the Annuity Starting Date using the applicable interest rate and the applicable mortality table under Code section 417(e), or, if greater, the total amount of employee contributions, over the total of payments before the death of the Participant; or
  - (H) As a result of dividend or other payments that result from actuarial gains, provided:
    - (i) Actuarial gain is measured not less frequently than annually;
    - (ii) The resulting dividend or other payments are either paid no later than the year following the year for which the actuarial experience is measured or paid in the same form as the payment of the annuity over the remaining period of the annuity, beginning no later than the year following the year for which the actuarial experience is measured;
    - (iii) The actuarial gain taken into account is limited to actuarial gain from investment experience;
    - (iv) The assumed interest rate used to calculate such actuarial gains is not less than three percent (3%); and
    - (v) The annuity payments are not also being increased by a constant

percentage as described in this Section 27.

(i) Amount Required to be Distributed by Required Beginning Date. The amount that must be distributed on or before the Participant's required beginning date, or, if the Participant dies before distributions begin, the date distributions are required to begin under Section 27(f)(1) or (2), is the payment that is required for one (1) payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. Payment intervals are the periods for which payments are received, such as bi-monthly, monthly, semi-annually, or annually. All of the Participant's benefit accruals as of the last day of the first distribution calendar year will be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the Participant's required beginning date.

(j) Additional Accruals After First Distribution Calendar Year. Any additional benefits accruing to the Participant in a calendar year after the first distribution calendar year will be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which such amount accrues. Notwithstanding the preceding, the Plan will not fail to satisfy the requirements of this Section 27 and Code section 401 (a)(9) merely because there is an administrative delay in the commencement of the distribution of the additional benefits accrued in a calendar year, provided that the actual payment of such amount commences as soon as practicable. However, payment must commence no later than the end of the first calendar year following the calendar year in which the additional benefit accrues, and the total amount paid during such first calendar year must be no less than the total amount that was required to be paid during that year under this Section 27.

(k) Joint Life Annuities Where the Beneficiary Is the Participant's Spouse. If the Participant's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the Participant and the Participant's Spouse, the minimum distribution incidental benefit requirement will not be satisfied as of the date distributions commence unless, under the distribution option, the periodic annuity payment payable to the survivor does not at any time on and after the Participant's required beginning date exceed the annuity payable to the Participant. In the case of an annuity that provides for increasing payments, the requirement of this subsection (k) will not be violated merely because benefit payments to the beneficiary increase, provided the increase is determined in the same manner for the Participant and the beneficiary. If the form of distribution combines a joint and survivor annuity for the joint lives of the Participant and the Participant's Spouse and a period certain annuity, the preceding requirements will apply to annuity payments to be made to the designated beneficiary after the expiration of the period certain.

(l) Joint Life Annuities Where the Beneficiary Is Not the Participant's Spouse. If the Participant's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the Participant and a nonspouse beneficiary, the minimum distribution incidental benefit requirement will not be satisfied as of the date distributions commence unless under the distribution option, the annuity payments to be made on and after the Participant's required beginning date will satisfy the conditions of this subsection (l). The periodic annuity payment payable to the survivor must not, at any time on and after the Participant's required beginning date, exceed the applicable percentage of the annuity payment payable to the Participant using the table set forth in Q&A-2(c)(2) of Regulation 1.401 (a)(9)-6. The applicable percentage is based on the adjusted participant/beneficiary age difference. The adjusted participant/beneficiary age difference is determined by first calculating the excess of the age of the Participant over the age of the beneficiary based on their ages on their birthdays in a calendar year. If the Participant is younger than age seventy (70), the age difference determined in the previous sentence is reduced by the number of years that the Participant is younger than age seventy (70) on the Participant's birthday in the calendar year that contains the Annuity Starting Date. In the case of an annuity that provides for increasing payments, the requirement of this subsection (l) will not be violated merely because benefit payments to the beneficiary increase, provided the increase is determined in the same manner for the Participant and the beneficiary. If the form of distribution combines a joint and survivor annuity for the joint lives of the Participant and a nonspouse beneficiary and a period certain annuity, the preceding requirements will apply to annuity payments to be made to the designated beneficiary after the expiration of the period certain.

(m) Period Certain Annuities. Unless the Participant's Spouse is the sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain for an annuity distribution commencing during the Participant's lifetime may not exceed the applicable distribution period for the Participant under the Uniform Lifetime Table set forth in Regulation 1.401 (a)(9)-9 for the calendar year that contains the Annuity Starting Date. If the Annuity Starting Date precedes the year in which the Participant reaches age seventy (70), the applicable distribution period for the Participant is the distribution period for age seventy (70) under the Uniform Lifetime Table set forth in Regulation 1.401 (a)(9)-9 plus the excess of seventy (70) over the age of the Participant as of the Participant's birthday in the year that contains the Annuity Starting Date. If the Participant's Spouse is the Participant's sole

designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain may not exceed the longer of the Participant's applicable distribution period, as determined under this subsection (m), or the joint life and last survivor expectancy of the Participant and the Participant's Spouse as determined under the Joint and Last Survivor Table set forth in Regulation 1.401 (a)(9)-9, using the Participant's and Spouse's attained ages as of the Participant's and Spouse's birthdays in the calendar year that contains the Annuity Starting Date.

(n) Participant Survived by Designated Beneficiary. If the Participant dies before the date distribution of his or her interest begins and there is a designated beneficiary, the Participant's entire interest will be distributed, beginning no later than the time described in Section 27(f)(1) or (2), over the life of the designated beneficiary or over a period certain not exceeding:

(1) Unless the Annuity Starting Date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year immediately following the calendar year of the Participant's death; or

(2) If the Annuity Starting Date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year that contains the Annuity Starting Date.

(o) No Designated Beneficiary. If the Participant dies before the date distributions begin and there is no designated beneficiary as of September 30 of the year following the year of the Participant's death, distribution of the Participant's entire interest will be completed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.

(p) Death of Surviving Spouse Before Distributions to Surviving Spouse Begin. If the Participant dies before the date distribution of his or her interest begins, the Participant's surviving Spouse is the Participant's sole designated beneficiary, and the surviving Spouse dies before distributions to the surviving Spouse begin, this Section 27(p) will apply as if the surviving Spouse were the Participant, except that the time by which distributions must begin will be determined without regard to Section 27(f).

(q) Definitions.

(1) Actuarial Gain. The term "actuarial gain" as used in this Section 27 means the difference between an amount determined using the actuarial assumptions, that is, investment return, mortality, expense, and other similar assumptions, used to calculate the initial payments before adjustment for any increases and the amount determined under the actual experience with respect to those factors. Actuarial gain also includes differences between the amount determined using actuarial assumptions when an annuity was purchased or commenced and such amount determined using actuarial assumptions used in calculating payments at the time the actuarial gain is determined.

(2) Designated Beneficiary. The term "designated beneficiary" as used in this Section 27 means the individual who is designated as the beneficiary under the Plan and is the designated beneficiary under Code section 401 (a)(9) and Regulation 1.401 (a)(9)-1, Q&A-4.

(3) Distribution calendar year. The term "distribution calendar year" as used in this Section 27 means a calendar year for which a minimum distribution is required. For distributions beginning before the Participant's death, the first distribution calendar year is the calendar year immediately preceding the calendar year which contains the Participant's required beginning date. For distributions beginning after the Participant's death, the first distribution calendar year is the calendar year in which distributions are required to begin pursuant to Section 27(f) hereof.

(4) Eligible Cost-of-Living Index. The term "eligible cost-of-living index" as used in this Section 27 means an index described below:

(a) Consumer price index that is based on prices of all items, or all items excluding food and energy, and issued by the Bureau of Labor Statistics, including an index for a specific population, such as urban consumers or urban wage earners and clerical workers, and an index for a geographic area or areas, such as a given metropolitan area or state; or

(b) A percentage adjustment based on a cost-of-living index described in subparagraph (a) above, or a fixed percentage, if less; provided however, in any year when the cost-of-living index is lower than the fixed percentage, the fixed percentage may be treated as an increase in an eligible cost-of-living index,

provided it does not exceed the sum of:

- (i) The cost-of-living index for that year;
- (ii) The accumulated excess of the annual cost-of-living index from each prior year over the fixed annual percentage used in that year, reduced by any amount previously utilized under this subparagraph (b); and
- (iii) If provided by this Plan, as a governmental plan, a percentage adjustment based on the increase in compensation for the position held by the Participant at the time of retirement.

(5) Life expectancy. The term "life expectancy" as used in this Section 27, means the life expectancy as computed by use of the Single Life Table in Regulation 1.401 (a)(9)-9.

SECTION 8. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by deleting Section 28 in its entirety and substituting instead the following:

Section 28. Right to Direct Rollover. This section applies to distributions made on or after January 1, 2002. Notwithstanding any provision of the Plan to the contrary that would otherwise limit a distributee's election under this section, a distributee may elect, at the time and in the manner prescribed by the Pension Commission, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(a) Eligible rollover distribution: An "eligible rollover distribution" is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one (1) of a series of substantially equal periodic payments, not less frequently than annually, made for the life, or life expectancy of the distributee or the joint lives, or joint life expectancies of the distributee and the distributee's designated beneficiary, or for a specified period of ten (10) years or more; any distribution to the extent such distribution is required under Code section 401 (a)(9); and the portion of any distribution that is not includible in gross income, determined without regard to the exclusion for net unrealized appreciation with respect to employer securities.

(b) Eligible retirement plan: An "eligible retirement plan" is any of the following arrangements that accept the distributee's eligible rollover distribution:

- (1) An individual retirement account described in Code section 408(a);
- (2) An individual retirement annuity described in Code section 408(b);
- (3) An annuity plan described in Code section 403(a);
- (4) A qualified trust described in Code section 401 (a);
- (5) An annuity contract described in Code section 403(b);
- (6) An eligible plan under Code section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan; or
- (7) For distributions made after December 31, 2007, a Roth IRA described in Code section 408A(b).

The definition of "eligible retirement plan" shall also apply in the case of a distribution to a surviving Spouse, or to a Spouse or former Spouse who is the alternate payee under a domestic relations order accepted by the Pension Commission.

(c) Distributee: A "distributee" includes an employee or former employee eligible for benefits under the Plan. In addition, the employee's or former employee's surviving Spouse and the employee's or former employee's Spouse or former Spouse who is the alternate payee under a domestic relations order accepted by the Pension Commission, are distributees with regard to the interest of the Spouse or former Spouse. Effective for distributions made after December 31, 2010, a "distributee" also includes a Participant's nonspouse beneficiary. However, in the case of a nonspouse beneficiary, the rollover must be a direct rollover and only can be made to an individual retirement account or annuity described in Code section 408(a) or 408(b) ("IRA") that is established on behalf of the beneficiary and will be treated as an inherited IRA pursuant to Code section 402(c)(ii). Also, in the case of a nonspouse beneficiary, the determination of any required minimum distribution under Code section 401 (a)(9) that is ineligible for rollover shall be made in accordance with IRS Notice 2007-7, Q&A 17 and 18. If such distribution is made prior to January 1, 2010, it is not subject to the direct rollover requirements of Code section 401 (a)(31) ,

the notice requirements of Code section 402(f) or the mandatory withholding requirements of Code section 3405(c). If a nonspouse beneficiary receives a distribution from the Plan, the distribution is not eligible for a sixty-day (nondirect) rollover.

If the Participant's named beneficiary is a trust, the Plan may make a direct rollover to an IRA on behalf of the trust, provided the trust satisfies the requirements to be a designated beneficiary with the meaning of Code section 401 (a)(9)(E).

(d) Direct rollover: A direct rollover is a payment by the Plan to an eligible retirement plan specified by the distributee and as allowed by law.

SECTION 9. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, and any other acts amendatory thereto, is amended in Section 29 by adding the following language at the end of the section:

Death benefits. In the case of a death or disability occurring on or after January 1, 2007, if a Participant dies while performing qualified military service, as defined in Code section 414(u), the survivors of the Participant are entitled to any additional benefits provided under the Plan, other than benefit accruals relating to the period of qualified military service, as if the Participant had resumed and then terminated employment on account of death.

Differential wage payments. For years beginning after December 31, 2008, (i) an individual receiving a differential wage payment, as defined by Code section 3401 (h)(2), shall be treated as an employee of the County making the payment, (ii) the differential wage payment shall be treated as compensation, and (iii) the Plan shall not be treated as failing to meet the requirements of any provision described in Code section 414(u)(1)(C) by reason of any contribution or benefit which is based on the differential wage payment.

SECTION 10. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by deleting Section 33 in its entirety and substituting instead the following:

#### Section 33. Actuarial Equivalent

(a) Effective July 1, 2002, "actuarial equivalent" shall mean a benefit of equivalent value on the basis of a seven and one-half percent (7.5%) interest rate, the RP-2000 Mortality Table for Employees (Male) for Members, and the RP-2000 Mortality Table for Employees (Female) for Beneficiaries. Notwithstanding the foregoing, effective for distributions with Annuity Starting Dates on or after December 31, 2002, the applicable mortality table and applicable interest rate used for purposes of adjusting any benefit or limitation under Code section 415(b)(2)(8), (C), or (D) as set forth in Section 25 of the Plan shall be the table(s) and interest rates set forth in subsections (b) and (c) below, if such actuarial equivalent amount produces a greater benefit than that determined by the factors set forth in this subsection (a).

(b) For purposes of this subsection (b), the "applicable mortality table" means, for distributions having an Annuity Starting Date of January 1, 2008, or later, the applicable annual mortality table prescribed by Code section 417(e)(3)(B), as initially described in Revenue Ruling 2007-67. For distributions having an Annuity Starting Date prior to January 1, 2008, and after January 1, 2002, the applicable mortality table is the table prescribed in Revenue Ruling 2001-62.

(c) For purposes of subsection (c), the "applicable interest rate" means, for distributions having an Annuity Starting Date prior to January 1, 2008, and after January 1, 2002, the annual rate of interest on 30-year Treasury securities of the United States for the second calendar month preceding the first day of the Plan Year during which the Annuity Starting Date occurs. For distributions having an Annuity Starting Date of January 1, 2008, or later, the "applicable interest rate" means the adjusted first, second, and third segment rates applied under rules similar to the rules of Code section 430(h)(2)(C) for the calendar month (lookback month) before the first day of the Plan Year in which the Annuity Starting Date occurs (stability period). For this purpose, the first, second, and third segment rates are the first, second, and third segment rates which would be determined under Code section 430(h)(2)(C) if:

(1) Code section 430(h)(2)(D) were applied by substituting the average yields for the month described in the preceding paragraph for the average yields for the 24-month period described in such section, and

(2) Code section 430(h)(2)(G)(i)(II) were applied by substituting "Section 417(e)(3)(A)(ii)(II)" for "Section 412(b)(5)(B)(ii)(II)," and

(3) The applicable percentage under Code section 430(h)(2)(G) is treated as being twenty percent (20%) in 2008, forty percent (40%) in 2009, sixty percent (60%) in 2010, and eighty percent (80%) in 2011.

Notwithstanding the foregoing, except as provided in the Regulations, if a Plan amendment, including amendments made by this act, changes the time for determining the "applicable interest rate", including an indirect change as a result of a change in the Plan Year, any distribution for which the Annuity Starting Date occurs in the 1-year period commencing at the time the Plan amendment is effective, if the amendment is effective on or after the adoption date, must use the interest rate as provided under the terms of the Plan after the effective date of the amendment, determined at either the date for determining the interest rate before the amendment or the date for determining the interest rate after the amendment, whichever results in the larger distribution. If the Plan amendment is adopted retroactively, that is, the amendment is effective prior to the adoption date, the Plan must use the interest rate determination date resulting in the larger distribution for the period beginning with the effective date and ending one (1) year after the adoption date.

SECTION 11. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by deleting Section 34 in its entirety and substituting instead the following:

Section 34. Definitions Applicable to the Plan:

- (1) "Annuity Starting Date" shall mean the first day of the first period for which an amount is paid as an annuity or any other form;
- (2) "Code" means the United States Internal Revenue Code of 1986, as may be amended from time to time. All references to "Code sections" shall include any applicable rulings and Regulations, and as of any future date shall automatically incorporate any amendments to such sections, and shall be deemed to refer to any comparable provisions of any future laws;
- (3) "Participant" means an employee or commissioner of Hamilton County participating in the Plan in accordance with the provisions of the Plan;
- (4) "Plan" means the Hamilton County Employees' Retirement Plan, as established and maintained by legislation enacted by the General Assembly of the State of Tennessee and approved by the Hamilton County legislative body;
- (5) "Plan Year" means each twelve-month period commencing July 1 and ending on the next June 30;
- (6) "Regulations" mean the Income Tax Regulations promulgated by the Secretary of the Treasury or a delegate of the Secretary of the Treasury, and as amended from time to time, including temporary regulations; and
- (7) "Spouse" means the person who is legally married to a Participant as determined under the laws of the State of Tennessee.

SECTION 12. This act shall have no effect unless it is approved by a two-thirds (2/3) vote of the legislative body of Hamilton County. Its approval or rejection shall be proclaimed by the presiding officer of the legislative body and certified to the Secretary of State.

SECTION 13. For the purpose of approving or rejecting the provisions of this act, it shall be effective upon becoming a law, the public welfare requiring it. For all other purposes, it shall become effective upon being approved as provided in Section 12.

## Private Acts of 2014 Chapter 70

AN ACT to amend Chapter 557 of the Private Acts of 1939; as amended by Chapter 76 of the Private Acts of 2004; and any other acts amendatory thereto, relative to the Hamilton County Employees' Retirement Act.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF TENNESSEE:

SECTION 1. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, such acts comprising the Hamilton County Employees' Retirement Act, herein referred to as "the Plan", and any other acts amendatory thereto, are hereby amended as provided in the subsequent sections of this act, generally effective as of July 1, 2013, with specific effective dates for certain sections as may be indicated in such sections.

SECTION 2. This act amends the Plan to comply with changes in the Internal Revenue Code of 1986, herein referred to as the "Code", and various regulations and other guidance, as set forth in the 2012 Cumulative List issued by the Internal Revenue Service in Notice 2012-76 for Cycle C plans, including, but not limited to, changes under the Pension Protection Act of 2006 (PPA '06); the U.S. Troop Readiness,

Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act of 2007; the Heroes Earnings Assistance and Relief Tax Act of 2008 (HEART Act); the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA); the Small Business Jobs Act of 2010 (SBJA); the Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010 (PRA 201 0); and the Moving Ahead for Progress in the 21st Century Act (MAP-21).

SECTION 3. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by deleting Section 25 in its entirety and substituting instead the following:

Section 25. Limitations on Benefits.

(a) The limitations of this Section 25 shall apply in Limitation Years beginning on or after July 1, 2007, except as otherwise provided herein.

(b) The Annual Benefit otherwise payable to a Participant at any time shall not exceed the Maximum Permissible Benefit. If the benefit the Participant would otherwise accrue in a Limitation Year would produce an Annual Benefit in excess of the Maximum Permissible Benefit, the benefit shall be limited, or the rate of accrual reduced, to a benefit that does not exceed the Maximum Permissible Benefit.

(c) If the Participant is, or has ever been, a participant in another qualified defined benefit plan maintained by the County, the sum of the Participant's Annual Benefits from all such plans may not exceed the Maximum Permissible Benefit. Where the Participant's county-provided benefits under all such defined benefit plans, determined as of the same age, would exceed the Maximum Permissible Benefit applicable at that age, the County will reduce the rate of accrual in this Plan to the extent necessary so that the total Annual Benefit payable at any time under such plans will not exceed the Maximum Permissible Benefit.

(d) The application of the provisions of this Section 25 shall not cause the Maximum Permissible Benefit for any Participant to be less than the Participant's accrued benefit under all the defined benefit plans of the County as of the end of the last Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, under provisions of the plans that were both adopted and in effect before April 5, 2007. The preceding sentence applies only if the provisions of such defined benefit plans that were both adopted and in effect before April 5, 2007, satisfied the applicable requirements of statutory provisions, regulations, and other published guidance relating to Code section 415 in effect as of the end of the last Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, as described in Regulation 1.415(a)-1 (g)(4).

(e) Definitions (In Addition to Those Capitalized Terms Defined in Section 34). For purposes of this Section 25, the following terms shall be defined as follows:

(1) "Annual Benefit" means a benefit that is payable annually in the form of a straight life annuity. Except as provided below, where a benefit is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit and is payable on the first day of each month, before applying the limitations of this Section 25. For a Participant who has or will have distributions commencing at more than one Annuity Starting Date, the Annual Benefit shall be determined as of each such Annuity Starting Date, and shall satisfy the limitations of this Section 25 as of each such date, actuarially adjusting for past and future distributions of benefits commencing at the other Annuity Starting Dates. For this purpose, the determination of whether a new starting date has occurred shall be made without regard to Regulation 1.401 (a)-20, Q&A 10(d), and with regard to Regulation 1.415(b)-(1)(b)(ii)(B) and (C).

No actuarial adjustment to the benefit shall be made for (i) survivor benefits payable to a surviving Spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the Participant's benefit were paid in another form; (ii) benefits that are not directly related to retirement benefits, such as a qualified disability benefit, preretirement incidental death benefits, and postretirement medical benefits; or (iii) the inclusion in the form of benefit of an automatic benefit increase feature, provided the form of benefit is not subject to Code section 417(e)(3) and would otherwise satisfy the limitations of this Section 25, and the Plan provides that the amount payable under the form of benefit in any Limitation Year shall not exceed the limits of this Section 25 applicable at the Annuity Starting Date, as increased in subsequent years pursuant to Code section 415( d). For this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form.

The determination of the Annual Benefit shall take into account Social Security supplements described in Code section 411 (a)(9) and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant Regulation 1.411 (d)-4, Q&A-3(c), but shall disregard benefits attributable to employee contributions or rollover contributions.

The determination of actuarial equivalence of forms of benefit other than a straight life annuity shall be made in accordance with subsections (A) or (B) below.

(A) Benefit Forms Not Subject to Code section 417(e)(3). The straight life annuity that is actuarially equivalent to the Participant's form of benefit shall be determined under this subsection (A) if the form of the Participant's benefit is either (1) a nondecreasing annuity, other than a straight life annuity, payable for a period of not less than the life of the Participant, or, in the case of a qualified preretirement survivor annuity, the life of the surviving Spouse, or (2) an annuity that decreases during the life of the Participant merely because of (a) the death of the survivor annuitant, but only if the reduction is not below fifty percent (50%) of the benefit payable before the death of the survivor annuitant, or (b) the cessation or reduction of Social Security supplements or qualified disability payments, as defined in Code section 401 (a)(11).

(i) Limitation Years beginning before July 1, 2007. For Limitation Years beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same Annuity Starting Date that has the same actuarial present value as the Participant's form of benefit computed using whichever of the following produces the greater annual amount: (I) the interest rate and mortality table, or other tabular factor specified in Section 33 of the Plan for adjusting benefits in the same form; and (II) a five percent (5%) interest rate assumption and the applicable mortality table defined in Section 33 of the Plan for that Annuity Starting Date.

(ii) Limitation Years beginning on or after July 1, 2007. For Limitation Years beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, the actuarially equivalent straight life annuity is equal to the greater of (I) the annual amount of the straight life annuity, if any, payable to the Participant under the Plan commencing at the same Annuity Starting Date as the Participant's form of benefit; and (II) the annual amount of the straight life annuity commencing at the same Annuity Starting Date that has the same actuarial present value as the Participant's form of benefit, computed using a five percent (5%) interest rate assumption and the applicable mortality table defined in Section 33 of the Plan for that Annuity Starting Date.

(B) Benefit Forms Subject to Code section 417(e)(3). As a governmental plan there are no benefits subject to Code section 417(e)(3).

(2) "Compensation" shall mean all of a Participant's wages within the meaning of Code section 3401 (a) and all other payments of compensation to an employee by the County for which the County is required to furnish the employee a written statement under Code sections 6041 (d), 6051 (a)(3), and 6052. Compensation shall be determined without regard to any rules under Code section 3401 (a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed, such as the exception for agricultural labor in Code section 3401 (a)(2). However, compensation shall exclude amounts paid or reimbursed by the County for moving expenses incurred by an employee, but only to the extent that at the time of the payment it is reasonable to believe that these amounts are deductible by the employee under Code section 217.

For Limitation Years beginning after December 31, 1991, for purposes of applying the limitations of this section, Compensation for a Limitation Year is the Compensation actually made available during such Limitation Year.

For Limitation Years beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, Compensation for a Limitation Year shall also include Compensation paid by the later of two and one-half (2½) months after an employee's

severance from employment with the County, or the end of an elected or appointed term as commissioner, or the end of the calendar year that includes the date of the employee's severance from employment, or the end of an elected or appointed term as commissioner with the County, if:

(i) The payment is regular Compensation for services during the employee's regular working hours, or Compensation for services outside the employee's regular working hours, such as overtime or shift differential, commissions, bonuses, or other similar payments, and, absent a severance from employment, the payments would have been paid to the employee while the employee continued in employment, or service as commissioner with the County;

(ii) The payment is for unused accrued bona fide sick, vacation or other leave that the employee would have been able to use if employment had continued; or

(iii) The payment is received by the employee pursuant to a nonqualified unfunded deferred compensation plan and would have been paid at the same time if employment had continued, but only to the extent includible in gross income.

Any payments not described above shall not be considered Compensation if paid after severance from employment, or end of term as commissioner, even if they are paid by the later of two and one-half (2½) months after the date of severance from employment or the end of the calendar year that includes the date of severance from employment, except, (i) payments to an individual who does not currently perform services for the County by reason of qualified military service within the meaning of Code section 414(u)(1), to the extent these payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the County rather than entering qualified military service; or (ii) compensation paid to a Participant who is permanently and totally disabled, as defined in Code section 22(e)(3), provided, salary continuation applies to all Participants who are permanently and totally disabled for a fixed or determinable period, or the Participant was not a highly compensated employee, as defined in Code section 414(q), immediately before becoming disabled.

Back pay, within the meaning of Regulation 1.415(c)-2(g)(8) shall be treated as Compensation for the Limitation Year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included under this definition.

For Limitation Years beginning after December 31, 1997, for purposes of applying the limitations of this Section 25, compensation paid or made available during such Limitation Year shall include any elective deferral, as defined in Code section 402(g)(3), and any amount which is contributed or deferred by the County at the election of the employee and which is not includible in the gross income of the employee by reason of Code section 125 or Code section 457.

For Limitation Years beginning on and after January 1, 2001, for purposes of applying the limitations of this Section 25, Compensation paid or made available during such Limitation Years shall include elective amounts that are not includible in the gross income of the Employee by reason of Code section 132(f)(4).

(3) "County" shall, for purposes of this Section 25, mean the County of Hamilton, Tennessee.

(4) "Defined Benefit Compensation Limitation" As a governmental plan, this Plan is not subject to the one hundred percent (100%) compensation limit of Code section 415(b).

(5) "Defined Benefit Dollar Limitation" shall mean, as of the general effective date of this act, two hundred five thousand dollars (\$205,000), the limit for the 2013 fiscal year, as may be automatically adjusted, effective January 1 of each year, by the Secretary of the Treasury under Code section 415(d) in such manner as the Secretary shall prescribe, and

payable in the form of a straight-life annuity. A limitation as adjusted under Code section 415(d) will apply to Limitation Years ending with or within the calendar year for which the adjustment applies, but a Participant's benefits shall not reflect the adjusted limit prior to January 1 of that calendar year. The automatic annual adjustment provided under Code section 415(d) shall apply to Participants who have had a separation from employment.

(6) "Limitation Year" shall mean the Plan Year. All qualified plans maintained by the County shall use the same Limitation Year. If the Limitation Year is amended to a different twelve (12) consecutive month period, then the new Limitation Year shall begin on a date within the Limitation Year in which the amendment is made.

(7) "Maximum Permissible Amount" shall mean the Defined Benefit Dollar Limitation adjusted where required and to the extent applicable pursuant to subsections (A) and (B) below.

(A) Adjustment for Less Than Ten (10) Years of Participation or Service. If the Participant has less than ten (10) Years of Participation in the Plan, the Defined Benefit Dollar Limitation shall be multiplied by a fraction (i) the numerator of which is the number of Years, or part thereof, but not less than one (1) year, of Participation in the Plan, and (ii) the denominator of which is ten (10). This subsection (A) shall not apply to a distribution made on account of the Participant becoming disabled by reason of personal injuries or sickness or as a result of the Participant's death.

(B) Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement Before Age Sixty-Two (62) or after Age Sixty-Five (65). The Defined Benefit Dollar Limitation shall be adjusted if the Annuity Starting Date of the Participant's benefit is after age sixty-five (65) as follows:

(i) Limitation Years Beginning Before July 1, 2007. If the Annuity Starting Date for the Participant's benefit is after age sixty-five (65) and occurs in a Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, the Defined Benefit Dollar Limitation for the Participant's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Participant's Annuity Starting Date that is the actuarial equivalent of the Defined Benefit Dollar Limitation, adjusted under subsection (7)(A) above for years of participation less than ten (10), if required, with actuarial equivalence computed using whichever of the following produces the smaller annual amount: (1) the interest rate and the mortality table, or other tabular factor specified in Section 33 of the Plan; or (2) a five percent (5%) interest rate assumption and the applicable mortality table defined in Section 33 of the Plan.

(ii) Limitation Years Beginning On or After July 1, 2007.

A. Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age Sixty-Five (65) and the Age of Benefit Commencement. If the Annuity Starting Date for the Participant's benefit is after age sixty-five (65) and occurs in a Limitation Year beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, and the Plan does not have an immediately commencing straight life annuity payable at both age sixty-five (65) and the age of benefit commencement, the Defined Benefit Dollar Limitation at the Participant's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Participant's Annuity Starting Date that is the actuarial equivalent of the Defined Benefit Dollar Limitation, adjusted under subsection (7)(A) above for Years of Participation less than ten (10), if required, with actuarial equivalence computed using a five percent (5%) interest rate assumption and the applicable mortality table for that Annuity Starting Date as defined in Section 33 of the Plan, and expressing the Participant's age based on completed calendar months as of the Annuity Starting Date.

B. Plan Has Immediately Commencing Straight Life Annuity

Payable at Both Age Sixty-Five (65) and the Age of Benefit Commencement. If the Annuity Starting Date for the Participant's benefit is after age sixty-five (65) and occurs in a Limitation Year beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, and the Plan has an immediately commencing straight life annuity payable at both age sixty-five (65) and the age of benefit commencement, the Defined Benefit Dollar Limitation at the Participant's Annuity Starting Date is the lesser of the limitation determined under subsection (B)(ii)A, and the Defined Benefit Dollar Limitation, adjusted under subsection (8)(A) above for Years of Participation less than ten (10), if required, multiplied by the ratio of the annual amount of the adjusted immediately commencing straight life annuity under the Plan at the Participant's Annuity Starting Date to the annual amount of the adjusted immediately commencing straight life annuity under the Plan at age sixty-five (65), both determined without applying the limitations of this Section 25. For this purpose, the adjusted immediately commencing straight life annuity under the Plan at the Participant's Annuity Starting Date is the annual amount of such annuity payable to the Participant, computed disregarding the Participant's accruals after age sixty-five (65) but including actuarial adjustments even if those actuarial adjustments are used to offset accruals; and the adjusted immediately commencing straight life annuity under the Plan at age sixty-five (65) is the annual amount of such annuity that would be payable under the Plan to a hypothetical participant who is age sixty-five (65) and has the same accrued benefit as the Participant.

(iii) Notwithstanding the other requirements of this subsection (7)(B), no adjustment shall be made to the Defined Benefit Dollar Limitation to reflect the probability of a Participant's death between age sixty-five (65) and the Annuity Starting Date, as applicable, since benefits are not forfeited upon the death of the Participant prior to the Annuity Starting Date. To the extent benefits are forfeited upon death before the Annuity Starting Date, such an adjustment shall be made. For this purpose, no forfeiture shall be treated as occurring upon the Participant's death if the Plan does not charge Participants for providing a qualified preretirement survivor annuity, as defined in Code section 417(c) upon the Participant's death.

(C) Minimum benefit permitted. Notwithstanding anything else in this definition to the contrary, the benefit otherwise accrued or payable to a Participant under this Plan shall be deemed not to exceed the Maximum Permissible Benefit if:

(i) The retirement benefits payable for a Limitation Year under any form of benefit with respect to such Participant under this Plan and under all other defined benefit plans, without regard to whether a plan has been terminated, ever maintained by the County do not exceed ten thousand dollars (\$10,000) multiplied by a fraction (I) the numerator of which is the Participant's number of years, or part thereof, but not less than one (1) year of service, not to exceed ten (10), with the County, and (II) the denominator of which is ten (10); and

(ii) The County has not at any time maintained a defined contribution plan in which the Participant participated. For this purpose, mandatory employee contributions under a defined benefit plan, individual medical accounts under § 401 (h), and accounts for postretirement medical benefits established under § 419A(d)(1) are not considered a separate defined contribution plan.

(8) "Year of Participation" shall mean each accrual computation period, computed to fractional parts of a year, for which the following conditions are met: (i) the Participant is credited with at least the number of hours of service for benefit accrual purposes, required under the terms of the Plan in order to accrue benefit service, and (ii) the Participant is included as a Participant under the eligibility provisions of the Plan for at least one (1) day

of the period of benefit service. If these two (2) conditions are met, the portion of a Year of Participation credited to the Participant shall equal the amount of benefit service credited to the Participant for such accrual computation period. A Participant who is permanently and totally disabled within the meaning of Code section 415(c)(3)(C)(i) for an accrual computation period shall receive a Year of Participation with respect to that period. In addition, for a Participant to receive a Year of Participation, or part thereof, for an accrual computation period, the Plan must be established no later than the last day of such accrual computation period. In no event will more than one Year of Participation be credited for any twelve-month period.

(f) Notwithstanding any provision of this Section 25, the application of this section shall be subject to such rules as may be prescribed by the Secretary of the Treasury.

SECTION 4. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by deleting Section 26 in its entirety and substituting instead the following:

Section 26. Limitation on Earnings.

(a) For purposes of computing any benefit under the Plan or any contribution made to the Plan, there shall be a limit on the amount of compensation that may be considered in any Plan Year for any Participant. The limit shall be the amount specified in this section as described below.

(b) For Plan Years beginning after December 31, 2001, the annual compensation of each Participant taken into account in determining benefit accruals in any Plan Year shall not exceed two hundred thousand dollars (\$200,000), as may be adjusted as set forth below. Annual compensation means compensation during the Plan Year or such other consecutive twelve-month period over which compensation is otherwise determined under the Plan, known as the determination period. The two hundred thousand dollar (\$200,000) limit on annual compensation in this subsection (b) shall be adjusted for cost-of-living increases in accordance with Code section 401 (a)(17)(B). The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year.

SECTION 5. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by deleting Section 28 in its entirety and substituting instead the following:

Section 28. Right to Direct Rollover. This section applies to distributions made on or after January 1, 2002. Notwithstanding any provision of the Plan to the contrary that would otherwise limit a distributee's election under this section, a distributee may elect, at the time and in the manner prescribed by the Pension Commission, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(a) Eligible rollover distribution: An "eligible rollover distribution" is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one (1) of a series of substantially equal periodic payments, not less frequently than annually, made for the life or life expectancy of the distributee or the joint lives, or joint life expectancies of the distributee and the distributee's designated beneficiary, or for a specified period of ten (10) years or more; any distribution to the extent such distribution is required under Code section 401 (a)(9); and the portion of any distribution that is not includible in gross income, determined without regard to the exclusion for net unrealized appreciation with respect to employer securities.

(b) Eligible retirement plan: An "eligible retirement plan" is any of the following arrangements that accept the distributee's eligible rollover distribution:

- (1) An individual retirement account described in Code section 408(a);
- (2) An individual retirement annuity described in Code section 408(b);
- (3) An annuity plan described in Code section 403(a);
- (4) A qualified trust described in Code section 401 (a);
- (5) An annuity contract described in Code section 403(b);
- (6) An eligible plan under Code section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan; or
- (7) For distributions made after December 31, 2007, a Roth IRA described in Code section

408A(b).

A portion of a distribution shall not fail to be an "eligible rollover distribution" merely because the portion consists of after tax Participant contributions which are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in Code section 408(a) or (b), or to a qualified defined contribution plan described in Code section 401 (a) or 403(a) that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible.

The definition of "eligible retirement plan" shall also apply in the case of a distribution to a surviving Spouse, or to a Spouse or former Spouse who is the alternate payee under a domestic relations order accepted by the Pension Commission.

(c) Distributee: A "distributee" includes an employee or former employee eligible for benefits under the Plan. In addition, the employee's or former employee's surviving Spouse and the employee's or former employee's Spouse or former Spouse who is the alternate payee under a domestic relations order accepted by the Pension Commission, are distributees with regard to the interest of the Spouse or former Spouse.

Effective for distributions made after December 31, 2010, a "distributee" also includes a Participant's nonspouse beneficiary. However, in the case of a nonspouse beneficiary, the rollover must be a direct rollover and only can be made to an individual retirement account or annuity described in Code section 408(a) or 408(b) ("IRA") that is established on behalf of the beneficiary and will be treated as an inherited IRA pursuant to Code section 402(c)(ii). Also, in the case of a nonspouse beneficiary, the determination of any required minimum distribution under Code section 401 (a)(9) that is ineligible for rollover shall be made in accordance with IRS Notice 2007-7, Q&A 17 and 18. If such distribution is made prior to January 1, 2010, it is not subject to the direct rollover requirements of Code section 401 (a)(31), the notice requirements of Code section 402(f) or the mandatory withholding requirements of Code section 3405(c). If a nonspouse beneficiary receives a distribution from the Plan, the distribution is not eligible for a 60-day (nondirect) rollover.

If the Participant's named beneficiary is a trust, the Plan may make a direct rollover to an IRA on behalf of the trust, provided the trust satisfies the requirements to be a designated beneficiary with the meaning of Code section 401 (a)(9)(E).

(d) Direct rollover: A direct rollover is a payment by the Plan to an eligible retirement plan specified by the distributee and as allowed by law.

SECTION 6. Chapter 557 of the Private Acts of 1939, as amended by Chapter 76 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by deleting Section 33 in its entirety and substituting instead the following:

Section 33. Actuarial Equivalent

(a) Effective July 1, 2002, "actuarial equivalent" shall mean a benefit of equivalent value on the basis of a seven and one-half percent (7.5%) interest rate, the RP-2000 Mortality Table for Employees (Male) for Members, and the RP- 2000 Mortality Table for Employees (Female) for Beneficiaries.

(b) Notwithstanding the foregoing, the mortality table and the interest rate for the purposes of determining the actuarial equivalent of the limitation on benefits per Section 25 shall be the "applicable mortality table" and the "applicable interest rate" described below:

(1) For Plan Years beginning before January 1, 2008, the "applicable interest rate" is the rate of interest on 30 year Treasury securities determined as of the "lookback month" for the "stability period," as explained in Subsection (3) below. For Plan Years beginning on or after January 1, 2008, the applicable interest rate is the adjusted first, second and third segment rates described in Code section 417(e)(3), as specified by the Commissioner of the Internal Revenue Service, for the lookback month preceding the stability period. For this purpose, the segment rates are the spot segment rates that would be determined for the applicable month under Code section 430(h)(2)(C) without the twenty-four-month averaging under Code section 430(h)(2)(D), and determined without regard to the adjustment for the 25-year average segment rates provided in Code section 430(h)(2)(C)(iv).

(2) For Plan Years beginning before January 1, 2009, the "applicable mortality table" is the table set forth in Rev. Rul. 2001-62. For Plan Years beginning on or after January 1, 2009,

the applicable mortality tables are set forth in Regulation 1.430(h)(3)-1 and Internal Revenue Service Notice 2008-25.

(3) For purposes of this Section 33, the "stability period" is the plan year in which the Participant's Annuity Starting Date occurs, and the "lookback month" is the second full calendar month prior to the first day of the stability period.

(c) Notwithstanding the foregoing, except as provided in the Regulations, if a Plan amendment, including amendments made by this act, changes the time for determining the "applicable interest rate", including an indirect change as a result of a change in the Plan Year, any distribution for which the Annuity Starting Date occurs in the 1-year period commencing at the time the Plan amendment is effective, if the amendment is effective on or after the adoption date, must use the interest rate as provided under the terms of the Plan after the effective date of the amendment, determined at either the date for determining the interest rate before the amendment or the date for determining the interest rate after the amendment, whichever results in the larger distribution. If the Plan amendment is adopted retroactively, that is, the amendment is effective prior to the adoption date, the Plan must use the interest rate determination date resulting in the larger distribution for the period beginning with the effective date and ending one (1) year after the adoption date.

SECTION 7. This act shall have no effect unless it is approved by a two-thirds (2/3) vote of the legislative body of Hamilton County. Its approval or rejection shall be proclaimed by the presiding officer of the legislative body and certified to the Secretary of State.

SECTION 8. For the purpose of approving or rejecting the provisions of this act, it shall be effective upon becoming a law, the public welfare requiring it. For all other purposes, it shall become effective upon being approved as provided in Section 7.
