(b) The fiscal year shall constitute the budget year, and the year for accounting and reporting of each and every fund, office, department, institution, activity and agency of the county government; provided, that any such accounting and reporting shall be in addition to, and not in lieu of, any accounting and reporting now required of any official by general law.

SECTION 4.

(a) The county highway superintendent shall, on or before April 1 of each year, file with the director of finance and budgets an itemized statement of the funds estimated to be required for the county road program for the ensuing fiscal year and for the construction, operation, repair and maintenance of the county road system and for the general administration of the highway department, together with an estimate of the highway and road funds expected to be received during such fiscal year.

(b) The county board of education, after preparing its annual budget as now provided by law, shall file such budget with the director of finance and budgets for inclusion in the complete budget document to be presented to the budget committee.

(c) The county mayor, on or before April 1 of each year, shall file with the director of finance and budgets an itemized statement of the amounts which the county mayor estimates are necessary to be expended from the county general fund, the debt service funds and from all other funds (excluding highway funds, school funds, and funds derived from the sale of bonds), together with an estimate of the revenue to be received during the next fiscal year.

(d) Each of the other operating departments, institutions, offices or agencies shall file with the director of finance and budgets on or before April 1 of each year a detailed estimate of its requirements for expenditures from the county's funds for the ensuing fiscal year, together with an estimate of any county

(c) Likewise, opposite each item of proposed expenditure, the budget document shall show the amount actually expended for such item during the last completed year, the probable amount which will be spent during the current fiscal year and the proposed appropriations or expenditure estimate for the ensuing fiscal year.

(d) In preparing the budget, the budget committee may revise, as it deems necessary, the estimates or requests made by the various departments, officials, offices, institutions and agencies of the county, but any county official or employee shall be entitled to a hearing before the budget committee with reference to any contemplated changes in the county official's or employee's budget requests or estimates.

(e) The budget committee shall certainly and fully provide in the budget for all debt service requirements, interest and bond maturities and any cash deficit in any fund at the beginning of the fiscal year, and shall propose a tentative tax rate for the current calendar year.

SECTION 6.

(a)

(1) (A) At least ten (10) days before the budget committee conducts a public hearing as provided in subdivision (a)(3), the budget committee shall cause the proposed annual operating budget to be published in a newspaper of general circulation.

(B) This budget shall contain a budgetary comparison that includes comparisons of the proposed budget with the current year and the prior year for the following governmental funds:

(C) The budgetary comparisons shall be by individual fund and shall summarize revenues by local taxes, state, federal government and other sources. Expenditures shall be summarized by salaries and other costs. The budgetary comparison shall also present beginning and ending fund balances and the number of employee positions.

(2) The publication shall also contain a notice of a public hearing to be conducted by the budget

committee at which any citizen of the county shall have the right to appear and state such citizen's views on the budget. (3) Such public hearing shall be held by the budget committee not later than ten (10) days prior to the beginning of the fiscal year.

(b) Following such public hearing, the budget committee shall make the final revision of the budget document and prepare copies for presentation to the county legislative body.

SECTION 7.

(a)

(1) The budget committee shall present the budget to the county legislative body either at the regular July session each year or at a special session called for this purpose during the month of July; provided, that with the consent of the chairman of the county legislative body, the deadline for the presentation of the budget may be extended through August.

(3) Pending such final adoption, the director of finance and budgets is hereby authorized to make temporary expenditure allotments for essential county services in amounts not in excess of comparable allotments for an average quarter of the preceding fiscal year.

(c) The budget, the appropriation resolution, and the tax levy resolution, as adopted, shall be spread upon the minutes of the county legislative body.

SECTION 8.

(a) The appropriations made in the appropriation resolution, or any amendment thereto, shall constitute the limit to expenditures for the various purposes and from the several funds of such county for the fiscal year covered by said resolution, and no expenditure shall be made or obligation created in excess of such limitation.

(b) Any resolution presented to the county legislative body in any fiscal year, after the original appropriation resolution has been adopted and the tax rate for the year fixed by that body, which provides for an appropriation in addition to those made in the original budget appropriation resolution, shall specifically provide sufficient revenue or other funds to meet expenditures to be made in consequence of such additional appropriation.

(c) If at any time during the fiscal year it becomes apparent that the revenues of any of the county's funds, together with the fund's unencumbered cash balance at the beginning of such year, will not be sufficient to equal the amount of the original appropriations, it shall be the duty of the director of finance and budgets and the county mayor to impound the appropriations from such fund in such amount as shall appear necessary, subject to the written approval of the budget committee.

(d)

(1) The appropriations made by the county legislative body, as provided above, shall constitute authorization for expenditures. Expenditures may be made, and obligations created, against any appropriation to an aggregate total of the amount appropriated for such item.

(2) However, the expenditures and encumbrances against the amounts appropriated shall be made only in consequence of an order issued by the various departments and subsequent approval of the invoice by the director of finance and budgets; provided, that payrolls and bills for telephones, water, gas, electric and other utility services shall first be checked and approved for payment by the various departments or otherwise as provided by law, and county obligations imposed by law shall be approved by the proper authority before being submitted to the director of finance and budgets for payment.

(3) No expenditures made or obligations created in any manner other than so specified or authorized in this act shall be valid or binding against the county; provided, that the budget committee may issue such regulations as it deems necessary for the prompt handling of bona fide

emergencies.

(e)

(1) Expenditures from all other funds of the county, except school funds and highway funds, shall be made by disbursement warrants on the county trustee signed by the county mayor or the director of finance and budgets, and no other official, department, institution or agency of the county shall issue negotiable warrants or vouchers for such expenditures.

(2) Before any disbursement warrant shall be issued in discharge of any obligation, a detailed invoice or statement of the obligation shall be filed with the director of finance and budgets and it shall be the director's duty to carefully check all such invoices to determine if they are correct, if the goods or services have been received or rendered as stated, and if the obligation is just, authorized or legally binding on the county.

(f) Bills and accounts incurred in accordance with authorized appropriations shall be paid promptly and it shall not be necessary for any such bill or account to be filed and recorded by the county clerk or to be approved before payment by the county legislative body, or by any committee or commission appointed by the county legislative body, in order that the county may obtain the benefit of cash discounts.

SECTION 9.

(a) The director of finance and budgets shall make a report at the end of each month showing the condition of the budget.

(b)

(1) The report shall show for each item of appropriation, or allotment thereof, the total expenditures for the month and the year to date, the amount of outstanding encumbrances and the amount of the unencumbered balance.

(2) The report shall also show for each fund an itemized statement of the revenues and receipts estimated for the year, the amount of the collections of each item for the month and the year to date and the unrealized portion of the estimate.

(3) In a parallel column shall be shown the amount of each item or revenue during the comparable elapsed period of the preceding fiscal year.

(c)

(1) The most recent of such reports shall be presented quarterly by the county mayor or the director of finance and budgets to the county legislative body.

(2) At such time, the county mayor or director of finance and budgets shall advise the county legislative body of the condition of the budget, and of any adjustment or reduction of appropriations which should be made, and shall recommend any other action which, in the opinion of the county mayor or the director of finance and budgets, the county legislative body should take in order that the budget shall be kept in balance.

SECTION 10.

(a) The county mayor shall appoint, with the approval of the county legislative body, a director of finance and budgets who shall be a county employee.

(b) The director of finance and budgets shall be qualified by training and experience in the field of accounting to perform the director's duties in a proficient manner and in accordance with generally recognized principles of governmental accounting.

(c)

(1) Before assuming the director's duties the director of finance and budgets shall execute a corporate surety bond, the amount of which shall be established by the county mayor at not less than ten thousand dollars (\$10,000) nor more than twenty-five thousand dollars (\$25,000).

(2) The bond shall be prepared in accordance with the provisions of title 8, chapter 19, approved by the county legislative body, recorded in the office of the county register of deeds and transmitted to the comptroller of the treasury for safekeeping.

(3) The premium for such bond shall be paid from the county general fund.

(d)

(1) The compensation of the director of finance and budgets, which shall not be in excess of compensation allowed county officials in accordance with §§ 8-24-101 and 8-24-102, shall be set annually by the county legislative body.

(2) The amount of such compensation, the compensation of any stenographers, typists or assistants as the director may need, and the other necessary expenses of the director's office shall be provided for by annual appropriation from the county general fund.

(e) The director of finance and budgets has the power, in accordance with such regulations as may be established from time to time by the county mayor, to appoint and remove the director's assistants, to prescribe their duties, and to fix their salaries within the limits of the annual appropriation.

(b) The system of fiscal procedure, control and accounting herein provided shall conform to generally accepted principles of governmental accounting and shall be in substantial agreement with the recommendations of the national committee on governmental accounting.

(c) The system shall include such records and procedures as may be required to accurately reflect the assets, liabilities, income and expenditures of each fund of the county, together with such records, accounts and files as are necessary to record and control:

- (1) The transactions relating to county revenues, and the revenues for each of its several funds;
- (2) The transactions relating to the adopted budget and appropriations, including the expenditures and encumbrances against each item of appropriation; (3) The transactions relating to the bonded debt; and (4) Such other records as may be necessary to facilitate the operation of the adopted budget and the proper accounting for each item of county expenditure.

(b) The director or the director's designee shall also, after careful pre-audit of invoices, bills and claims against the county or any of its funds, prepare disbursement warrants on all county funds.

(c) (1) The director of finance and budgets shall install, with the approval of the comptroller of the treasury, a uniform classification of accounts, including a classification of revenues and expenditures, to be used in accounting, budgeting and financial reporting respecting all county funds, offices, agencies and activities of the county government, with the exception of school funds administered by the county board of education and the county superintendent of schools and highway funds administered by the county highway superintendent, and shall prescribe the forms to be used by each official and employee of the county in connection therewith.

(2) The classification of expenditures and receipts of county school funds shall conform to the classification of accounts as prescribed by the commissioner of education.

(d) (1) The director of finance and budgets shall set up and maintain a double entry system of accounting for recording the transactions of all of the county's funds, including both proprietary and budgetary accounts, in conformity with the requirements set out in Section 11 of this act. (2) The accounts shall be kept on the modified cash basis.

(e) (1) The director of finance and budgets shall set up the necessary accounts to properly record the annual budget and each appropriation made by the county legislative body.

(2) All encumbrances, expenditures or other charges against any item of the budget shall be promptly recorded in order that the unencumbered balance of each item of the budget shall be readily ascertainable at all times.

(f) At the end of each month, the director of finance and budgets shall prepare a comprehensive report of all revenues and expenditures of the county and of each of its several funds, departments, offices, agencies and activities, all encumbrances against the several appropriations, and the condition of each
