Private Acts of 2004 Chapter 69

SECTION 1. Chapter 689 of the Private Acts of 1937, as amended by Chapter 242 of the Private Acts of 1945, Chapter 134 of the Private Acts of 1949, Chapter 186 of the Private Acts of 1951, Chapter 65 of the Private Acts of 1953, Chapter 361 of the Private Acts of 1961, Chapter 146 of the Private Acts of 1963, Chapter 399 of the Private Acts of 1972, Chapter 320 of the Private Acts of 1978, Chapter 136 of the Private Acts of 1981 and all acts amendatory thereto, is further amended by inserting the following language and sections:

It is the intention of the County that the Hamilton County Department of Education Insurance and Pension Fund Employees' Retirement Act complies with all of the requirements of Internal Revenue Code (hereinafter "Code") Section 401(a) that apply to plans that are sponsored by state or local governments or political subdivisions. The County intends that this plan be considered a tax-qualified plan under Code section 401(a) and that the retirees and beneficiaries that receive benefits from this plan enjoy the tax-deferred benefits of the plan's qualified status. In order to assure the tax-qualified status of this plan, this private act is now being amended by the General Assembly to incorporate the following terms as part of the plan document.

This private act, along with other provisions of the law that have been established by acts of the General Assembly of Tennessee and of the Hamilton County Commission that relate to providing retirement benefits for employees of the County, comprises the written documentation requirement of Code Section 401(a)(1).

SECTION 2. Assets Held in Trust - Assets maintained to fund the plan shall be held in trust for the purpose of providing benefits to the employees, former employees of the County, or their beneficiaries. The assets held in trust may not revert back to the County unless all benefits payable under the terms of the plan have been satisfied.

SECTION 3. Limitation on Benefits - Unless otherwise noted, this section shall be effective for plan years beginning after January 1, 1987.

(a) This subsection, except for subsection (a)(2), applies regardless of whether any member is or has ever been a member in another qualified plan maintained by the employer. If any member is or has ever been a member in another qualified plan or a welfare benefit fund, as defined in Section 419(e) of the Code, maintained by the employer, or an individual medical account, as defined in Section 415(1)(2) of the Code that provides an annual addition, subsection (b) is also applicable to that member's benefits.

(1) The annual benefit otherwise payable to a member at any time shall not exceed the maximum permissible amount. If the benefit the member would otherwise accrue in a limitation year would produce an annual benefit in excess of the maximum permissible amount, then the rate of accrual will be reduced so that the annual benefit shall equal the maximum permissible amount.

(2) The limitation in (1) above is deemed satisfied if the annual benefit payable to a member is not more than one thousand dollars (\$1,000) multiplied by the member's number of years of service or

parts thereof (not to exceed ten (10)) with the employer, and the employer has not at any time maintained a qualified defined contribution plan, a welfare benefit plan as defined in Section 419(e) of the Code, or an individual medical account, as defined in Section 415(1)(2) of the Code, in which such member participated.

(b) This subsection applies if any member is covered, or has ever been covered, by another plan maintained by the employer, including a qualified plan, a welfare benefit fund, as defined in Section 419(e) of the Code, or an individual medical account, as defined in Section 415(1)(2) of the Code, or a simplified employee pension which provides an annual addition maintained by the employer.

(1) If a member is, or has ever been, covered under more than one (1) qualified defined benefit plan maintained by the employer, the sum of the member's annual benefits from all such plans may not exceed the maximum permissible amount.

(2) The provisions of this subdivision 3(b)(2) shall not apply to limitation years beginning after December 31, 1999. If the employer maintains, or at any time maintained, one (1) or more qualified defined contribution plans covering any member in this plan, a welfare benefits fund as defined in Section 419(e) of the Code, an individual medical account as defined in Section 415(1)(2) of the Code, or a simplified employee pension, the following rules apply. The sum of the member's defined contribution fraction and defined benefit fraction shall not exceed one (1) in any limitation year, and the annual benefit otherwise payable to the member under this plan or the annual additions otherwise credited to the member under the defined contribution plan, shall be limited to the level necessary to prevent the limitations of this section from being exceeded with respect to such member (but not to a figure less than the accrued benefit of such member at the beginning of such limitation year). If the projected annual benefit is reduced to the level of the accrued benefit at the beginning of the limitation year, and the sum of both fractions remains in excess of one (1), the remaining reduction to a sum of one (1) shall be accomplished by reducing the numerator of the defined contribution fraction.

(3) The annual addition to any member's accounts for any plan year shall not exceed the lesser of thirty thousand dollars (\$30,000) (or such amount for any plan year as results from the annual adjustment factor determined by the commissioner of the Internal Revenue Service and effective on January 1 of the plan year), or twenty-five percent (25%) of such member's compensation for the plan year.

If as a result of (i) the allocation of forfeitures, (ii) a reasonable error in estimating the compensation of a member, (iii) a reasonable error in determining the amount of elective deferral contributions (within the meaning of Code Section 402(g)(3)) that may be made with respect to any individual under the limits of Code Section 415, or (iv) other facts and circumstances allowed by regulation, the annual additions limitation is exceeded in any plan year, the excess annual addition shall be charged against the member's accounts in the following order of priority by the amount required to ensure compliance with this section:

(A) The annual additions to any other qualified defined contribution plan;

(B) Employee contributions to this plan - The portion of such excess that consists of employee contributions shall be returned to the member. The employee contributions returned or distributed shall include income on such amounts determined in the same manner as income is determined in this plan. (However, if such method of determining income is not permitted by regulations, then income shall be determined in a manner consistent with any applicable regulations.)

(c) In the case of any individual who was a member in one (1) or more qualified defined benefit plans of the employer as of the first day of the first limitation year beginning after December 31, 1986, the application of the limitations of this section shall not cause the maximum permissible amount for such individual under all such qualified defined benefit plans to be less than the individual's Tax Reform Act of 1986 (TRA '86) accrued benefit. The preceding sentence applies only if all such qualified defined benefit plans met the requirements of Section 415 of the Code for all limitation years beginning before January 1, 1987.

(d) Definitions. For purposes of this section, the following terms shall be defined as follows:

(1) "Annual Additions" means the sum of the following amounts credited to a member's accounts under a qualified defined contribution plan for the limitation year:

(A) Employer contributions;

(B) Employee contributions; and

(C) Forfeitures

Amounts allocated after March 31, 1984, to an individual medical account, as defined in Section 415(1)(2) of the Code, which is part of a pension or annuity plan maintained by the employer, shall be treated as an annual addition to a qualified defined contribution plan.

(2) "Annual Benefit" means a retirement benefit under the plan which is payable annually in the form of a straight life annuity. Except as provided below, a benefit payable in a form other than a straight life annuity shall be adjusted to an actuarially equivalent straight life annuity before applying the limitations of this section. The annual benefit shall not include any benefits attributable to employee contributions (other than contributions picked up by the employer in accordance with Code Section 414(h)) or rollover contributions, or the assets transferred from a qualified plan that was not maintained by the employer. No actuarial adjustment to the benefit is required for (i) the value of a qualified joint and survivor annuity (as defined in Code Section 417(b)), (ii) the value of benefits that are not directly related to retirement benefits (such as the qualified disability benefit, pre-retirement death benefits, and post-retirement medical benefits), and (iii) the value of post-retirement cost-of-living increases, if any, made in accordance with Section 415(d) of the Code and Section 1.415-3(c)(2)(iii) of the Treasury Regulations.

(3) "Compensation" means solely for purposes of this section; wages, salaries, and fees for professional services and other amounts received (without regard to whether or not an amount is paid in cash) for personal services actually rendered in the course of employment with the employer maintaining the plan to the extent that the amounts are includible in gross income (including, but not limited to, commissions paid salesmen, compensation for services on the basis of a percentage of profits, commissions on insurance premiums, tips, bonuses, fringe benefits, reimbursements, and expense allowances) and excluding the following:

(A) Employer contributions to a plan of deferred compensation (including a Code Section 457 plan) which are not includible in the employee's gross income for the taxable year in which contributed, or any distributions from a plan of deferred compensation; and

(B) Other amounts which received special tax benefits, including pick-up contributions and contributions made by the employer (whether or not under a salary reduction agreement) toward the purchase of an annuity described in Code Section 403(b) (whether or not the amounts are actually excludable from the gross income of the eligible employee).

Notwithstanding these subdivisions (3)(A) and (B), effective January 1, 1998, compensation shall include salary deferrals under Sections 401(k), 403(b), 457, and 125 of the Code; however, contributions picked up by the employer shall continue to be excluded.

For limitation years beginning on and after January 1, 2001, for purposes of applying the limitations of this section, compensation paid or made available during such limitation years shall include elective amounts that are not includible in the gross income of the eligible employee by reason of Code Section 132(f)(4).

(4) "Defined Benefit Dollar Limitation" means ninety thousand dollars (\$90,000). Effective on January 1, 1988, and each January thereafter, the ninety thousand dollars (\$90,000) limitation above will be automatically adjusted by multiplying such limit by the cost of living adjustment factor prescribed by the secretary of the treasury under Section 415(d) of the Code in such manner as the secretary shall prescribe. The new limitation will apply to limitation years ending within the calendar year of the date of the adjustment.

(5) "Defined Benefit Fraction" means a fraction, the numerator of which is the sum of the member's projected annual benefits under all qualified defined benefit plans (whether or not terminated) maintained by the employer, and the denominator of which is the lesser of (i) one hundred twenty-five percent (125%) of the dollar limitation determined for the limitation year under Sections 415(b)(1)(A) and (d) of the Code and (ii) one hundred forty percent (140%) of the highest average compensation, including any adjustments under Section 415(b)(5) of the Code, both in accordance with Section 3(d)(10) below.

Notwithstanding other provisions of this subsection (5), if the member was a member as of the first day of the first limitation year beginning after December 31, 1986, in one (1) or more qualified defined benefit plans maintained by the employer which were in existence on May 6, 1986, the denominator of this fraction shall not be less than one hundred twenty-five percent (125%) of the sum of the annual benefits under such plans which the member had accrued as of the close of the last limitation year beginning before January 1, 1987, disregarding any changes in the terms and conditions of the plans after May 5, 1986. The preceding sentence applies only if the qualified defined benefit plans individually and in the aggregate satisfied the requirements of Code Section

415 for all limitation years beginning before January 1, 1987.

(6) "Defined Contribution Fraction" means a fraction, the numerator of which is the sum of the annual additions to the member's account under all qualified defined contribution plans (whether or not terminated) maintained by the employer for the current and all prior limitation years (including the annual additions attributable to the member's nondeductible employee contributions to this and all other qualified defined benefit plans (whether or not terminated) maintained by the employer and the annual additions attributable to all welfare benefit funds, as defined in Section 419(e) of the Code or individual medical accounts, as defined in Section 415(1)(2) of the Code, maintained by the employer), and the denominator of which is the sum of the maximum aggregate amounts for the current and all prior limitation years of service with the employer (regardless of whether a qualified defined contribution plan was maintained by the employer). For purposes hereof, the maximum aggregate amount in any limitation year is the lesser of (i) one hundred twenty-five percent (125%) of the dollar limitation determined under Section 415(c)(1)(A) of the Code after adjustment under Section 415(d) of the Code and (ii) thirty-five percent (35%) of the member's compensation for such year.

If the eligible employee was a member as of the first day of the first limitation year beginning after December 31, 1986, in one (1) or more defined contribution plans maintained by the employer which were in existence on May 6, 1986, then the numerator of this fraction shall be adjusted if the sum of this fraction and the defined benefit fraction would otherwise exceed one (1) under the terms of this plan. Under the adjustment, an amount equal to the product of (i) the excess of the sum of the fractions over one (1) times (ii) the denominator of this fraction, shall be permanently subtracted from the numerator of this fraction. The adjustment shall be calculated using the fractions as they would be computed as of the end of the last limitation year beginning before January 1, 1987, and disregarding any changes in the terms and conditions of the plans made after May 5, 1986, but using the Code Section 415 limitation applicable to the first limitation year beginning on or after January 1, 1987. The annual addition for any limitation year beginning before January 1, 1987, shall not be recomputed to treat all employee contributions as annual additions.

(7) "Employer" means, for purposes of this section, the Hamilton County Department of Education and any agency that adopts this plan.

(8) "Highest Average Compensation" means the average compensation for the three (3) consecutive years of service with the employer that produces the highest average.

(9) "Limitation Year" means the plan year.

(10) "Maximum Permissible Amount" means the defined benefit dollar limitation as modified below.

(A) If the member has less than ten (10) years of participation with the employer, the maximum permissible amount will be reduced by one-tenth (1/10) for each year of participation (or part thereof) less than ten (10). To the extent provided in regulations or in other guidance issued by the Internal Revenue Service, the preceding sentence shall be applied separately with respect to each change in the benefit structure of the plan. The adjustments of this paragraph shall be applied in the denominator of the defined benefit fraction based upon years of service. In no event shall the reduction in the maximum permissible amount reduce the limitation to an amount less than one-tenth (1/10) of that limitation (determined without regard to this paragraph).

(B) Adjustment for early payment. If the annual benefit of the member commences before age sixty-two (62), the defined benefit dollar limitation shall be determined as follows:

(i) If the annual benefit of a member commences prior to age sixty-two (62), the defined benefit dollar limitation shall be the actuarial equivalent of an annual benefit beginning at age sixty-two (62), as determined above, reduced for each month by which benefits commence before the month in which the member attains age sixty-two (62). However, in no event shall the adjustment in this paragraph result in the defined benefit dollar limitation being reduced to an amount less than the minimum specified below. If the annual benefit of a member commences on or after age fifty-five (55), the minimum amount shall be seventy-five thousand dollars (\$75,000) (with no adjustments for increases in the cost of living). If the annual benefit of a member commences before age fifty-five (55), the minimum amount shall be the actuarial equivalent of an annual benefit of seventy-five thousand dollars (\$75,000) commencing at age fifty-five (55) (with no adjustments for increases in the cost of living).

(ii) The adjustment in subdivision I) above shall not apply in the case of a qualified

member. A member is considered qualified for purposes of this paragraph if the service used in computing his benefit includes at least fifteen (15) years of full-time employment in any police department or fire department of the employer, to provide police protection, firefighting services or emergency medical services within the jurisdiction of the employer; or as a participant of the Armed Forces of the United States; or in any combination thereof adding up to at least fifteen (15) years of full-time employment.

(iii) The adjustment in subdivision (i) above shall not apply to any benefit payable as a result of the member becoming disabled or to any benefit payable to the beneficiaries, survivors, or estate of a member as a result of the death of the member.

(C) Adjustment for delayed payment. If the annual benefit of a member commences after age sixty-five (65), the defined benefit dollar limitation shall be adjusted so that it is the actuarial equivalent of an annual benefit of such dollar limitation beginning at age sixty-five (65).

(11) "Projected Annual Benefit" means the annual benefit to which the member would be entitled under the terms of the plan assuming:

(i) The member shall continue employment until normal retirement age under the plan (or current age, if later), and

(ii) The member's compensation for the current limitation year and all other relevant factors used to determine benefits under the plan shall remain constant for all future limitation years.

(12) "Year of Participation" means each accrual computation period (computed to fractional parts of a year) for which the following conditions are met: (i) the member is credited with at least the period of service for benefit accrual purposes, required under the terms of the plan in order to accrue credited employee service or credited police and fire service, and (ii) the member is included as a member under the eligibility provisions of the plan for at least one (1) day of the period of credited employee service or credited police and fire service. If these two (2) conditions are met, the portion of a year of participation credited to the member shall equal the amount of credited employee service or credited police and fire service credited to the member for such accrual computation period. A member who is permanently and totally disabled within the meaning of Section 415(c)(3)(C)(i) of the Code for an accrual computation period shall receive a year of participation with respect to that period. In addition, for a member to receive a year of participation (or part thereof) for an accrual computation period, the plan must be established no later than the last day of such accrual computation period. In no event will more than one (1) year of participation be credited for any twelve-month period.

(e) Actuarial equivalence. All actuarial equivalence determinations in this section shall be made in accordance with this subsection. Actuarial equivalence determinations include: adjustment for early payment; adjustment for delayed payment; adjustment for payment in a form other than a life annuity; computation of the benefit attributable to employee contributions; and all other determinations of a similar nature, as required by context. The actuarially equivalent straight life annuity is equal to the greater of the annuity benefit computed using the interest rate and mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form, and the annuity benefit computed using a five percent (5%) interest rate assumption and the GATT mortality table. In determining the actuarially equivalent straight life annuity for a benefit form other than a non-decreasing annuity payable for a period of not less than the life of the participant (or, in the case of a qualified pre-retirement survivor annuity, the life of the surviving spouse), or decreases during the life of the participant merely because of (a) the death of the survivor annuitant (but only if the reduction is not below fifty percent (50%) of the annual benefit payable before the death of the survivor annuitant), or (b) the cessation or reduction of social security supplements of qualified disability payments (as defined in Code Section 401(a)(11)), the applicable interest rate, as described in Code Section 417(e)(3), will be substituted for "a five percent (5%) interest rate assumption" in the preceding sentence. To determine actuarial equivalence for a delayed payment, the interest rate assumption used is the lesser of the rate specified in Section 11 of the plan and five percent (5%). The GATT mortality table is the table specified in Revenue Ruling 95-6, implementing Section 417(e)(3) of the Code as amended by the Uruguay Round Agreements Act of 1994. However, the GATT mortality table shall automatically be the table specified in any future revenue rulings or federal regulations that amend or supersede Revenue Ruling 95-6 by specifying a new mortality table for purposes of Section 417(e)(3) of the Code, as amended. Solely for purposes of determining the benefit attributable to employee contributions, to computer the limitations in this section, interest shall be credited to such contributions at the following rates. For periods before July 1, 1988, interest shall be

credited to employee contributions at the rate of five percent (5%) per year. For plan years commencing on or after July 1, 1988, interest shall be credited on accumulated employee contributions at the rate specified in Section 411(c)(2)(C)(iii) of the Code, up to the determination date. The interest rate used for periods of time commencing on the determination date shall be the rate specified in Section 417(e)(3) of the Code as of the last day of the prior plan year (as if such Code Section applied to this plan).

(f) Provided, the application of this section shall be subject to such rules as may be prescribed by the secretary of the treasury, in order to maintain the qualified status of the plan.

SECTION 4. Limitation on Earnings.

(a) For purposes of computing any benefit under the plan or any contribution made to the plan, there shall be a limit on the amount of compensation that may be considered in any plan year for any member. The limit shall be the amount specified in this section as described below.

(b) For plan years beginning after December 31, 1995, the annual compensation limit of Code Section 401(a)(17) is incorporated by reference in this plan with respect to non-eligible members; provided, however, in the case of an eligible member, the annual compensation limit of Code Section 401(a)(17) shall not apply to the extent that the application of the limitation would reduce the amount of compensation that was allowed to be taken into account under the plan as in effect on July 1, 1993. For these purposes, an eligible member is an individual who first became a member in the plan prior to the first day of the first plan year beginning after the earlier of (i) the last day of the plan year by which a plan amendment to reflect the amendments made by Section 13212 of the Omnibus Budget Reconciliation Act of 1993 is both adopted and effective, or (ii) December 31, 1995.

SECTION 5. Minimum Distributions - Effective July 1, 1989, notwithstanding any provisions of the plan to the contrary, the following provisions shall apply.

(a) A member shall begin to receive his plan benefits no later than April 1 of the calendar year following the later of (i) the year in which he attains age seventy and one-half (70½); or (ii) the year in which he retires. However, in no case shall the member's benefit commence later than the date required by Section 401(a)(9) of the Code, and in no case shall the distribution violate the minimum distribution incidental death benefit requirements of the regulations under Section 401(a)(9) of the Code.

(b) Upon the death of a member after distribution of his benefit has commenced, the remaining portion of his interest in the plan will be distributed at least as rapidly as under the method of distribution in effect prior to the member's death.

(c) Upon the death of a member before distribution of his benefit has commenced, the member's entire interest will be distributed no later than five (5) years after the member's death, except for the situations described in (1) and (2) below.

(1) If any portion of the member's interest is payable to a designated beneficiary, the distributions may be made in substantially equal installments over a period of time that is equal to or less than the life or life expectancy of the designated beneficiary, commencing no later than one (1) year after the member's death.

(2) If the designated beneficiary is the member's surviving spouse, the date distributions are required to commence in accordance with (1) above shall not be earlier than the date on which the member would have attained age seventy and one-half (70½), and if the spouse dies before payments begin, subsequent distributions shall be made as if the spouse had been the member.

SECTION 6. Right to Direct Rollover.

(a) This section applies to distributions made on or after January 1, 1993. Notwithstanding any provision of the plan to the contrary that would otherwise limit a distributee's election under this section, a distributee may elect, at the time and in the manner prescribed by the benefits board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(b) Definitions. For purposes of this section, the following terms shall be defined as follows:

(1) "Direct rollover" means a payment by the plan to the eligible retirement plan specified by the distributee.

(2) "Distributee" means a member or former member, or the spouse of the member or former member, provided such person is entitled to receive a benefit under the plan.

(3) "Eligible retirement plan" means an individual retirement account described in Section 408(a) of the Code, an individual retirement annuity described in Section 408(b) of the Code, an annuity plan described in Section 403(a) of the Code, or a qualified trust described in Section 401(a) of the

Code, that accepts the distributee's eligible rollover distribution. However, in the case of an eligible rollover distribution to the surviving spouse, an eligible retirement plan is an individual retirement account or individual retirement annuity.

(4) "Eligible rollover distribution" means any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: (1) any distribution that is one (1) of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten (10) years or more; (2) any distribution to the extent such distribution is required under Section 401(a)(9) of the Code; and (3) the portion of any distribution that is not includible in gross income.

SECTION 7. Qualified Military Service - The following sentence shall apply to those members who are re-employed on or after December 12, 1994. Notwithstanding any provision of this plan to the contrary, contributions, benefits, and service credit with respect to qualified military service will be provided in accordance with Code Section 414(u).

SECTION 8. Family and Medical Leave Act - Notwithstanding any other provisions of the plan, in the case of an eligible employee who takes family or medical leave as an eligible employee of a covered employer under the provisions of the Family and Medical Leave Act of 1993 (FMLA), any period of FMLA leave shall be treated as continued service for purposes of eligibility to participate and vesting service to the extent required by applicable law.

SECTION 9. Vesting Upon Plan Termination - In the event that this plan is terminated for any reason, the accrued benefits of all members shall fully vest and become non-forfeitable.

SECTION 10. Plan Forfeitures - Any plan forfeitures occurring as a result of a member terminating employment with the County prior to completing five (5) years of service shall not be used to increase benefits of any remaining plan members.

SECTION 11. Actuarial Equivalent - Effective July 1, 2002, actuarial equivalent shall mean a benefit of equivalent value on the basis of a seven and one-half percent (7.5%) interest rate, the RP-2000 Mortality Table for Employees (Male) for Members, and the RP-2000 Mortality Table for Employees (Female) for Beneficiaries.

SECTION 12. Definitions Applicable to this act.

(1) "Code" means the U.S. Internal Revenue Code as amended. All references to code sections shall include any applicable rulings and regulations, and as of any future date shall automatically incorporate any amendments to such sections, and shall be deemed to refer to any comparable provisions of any future laws.

(2) "Plan" means the Hamilton County Department of Education Insurance and Pension fund Employees' Retirement Act.

(3) "Plan Year" means each twelve-month period commencing July 1 and ending on the next June 30.

(4) "Spouse" means the person who is legally married to a member.

SECTION 13. This act shall have no effect unless it is approved by a two-thirds (2/3) vote of the Hamilton County legislative body. Its approval or nonapproval shall be proclaimed by the presiding officer of such county legislative body and certified by him to the secretary of state.

SECTION 14. For the purpose of approving or rejecting the provisions of this act, it shall be effective upon becoming a law, the public welfare requiring it. For all other purposes, it shall become effective upon being approved as provided in Section 13.

SECTION 2. This act amends the Plan to comply with changes in the Internal Revenue Code of 1986, herein referred to as the "Code" caused by the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA); the Job Creation and Worker Assistance Act of 2002 (JCWAA); the Pension Funding Equity Act of 2004 (PFEA); the American Jobs Creation Act of 2004 (AJCA); the Pension Protection Act of 2006 (PPA); the Heroes Earnings Assistance and Relief Tax Act of 2008 (HEART); the Worker, Retiree and Employer Recovery Act (WRERA); and various regulations and related guidance issued by the Internal Revenue Service.

SECTION 3. Chapter 689 of the Private Acts of 1937, as amended by Chapter 242 of the Private Acts of 1945, Chapter 134 of the Private Acts of 1949, Chapter 186 of the Private Acts of 1951, Chapter 110 of the Private Acts of 1953, Chapter 111 of the Private Acts of 1953, Chapter 149 of the Private Acts of 1957, Chapter 148 of the Private Acts of 1957, Chapter 361 of the Private Acts of 1961, Chapter 146 of the Private Acts of 1963, Chapter 147 of the Private Acts of 1963, Chapter 399 of the Private Acts of 1972, Chapter 320 of the Private Acts of 1978, Chapter 136 of the Private Acts of 1981, Chapter 69 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by adding the following language as a new section:

Section 13. Provisions relating to EGTRRA, PFEA, PPA and HEART.

13.01 Preamble

- (a) Adoption and effective date of Section. This Section 13 reflects recent law changes and related guidance to Code section 401 (a) which applies to qualified retirement plans sponsored by state and local governments. The County of Hamilton, Tennessee (the "County"), intends that this Plan continue to be considered a tax-qualified plan under Code section 401 (a) and, therefore, amends the Plan in accordance with the terms of this Section 13.
- (b) Superseding of inconsistent provisions. This Section 13 supersedes the provisions of the Plan to the extent those provisions are inconsistent with the provisions of this Section.
- (c) Construction. Except as otherwise provided in this Section 13, any reference to "Section" herein refers only to sections within this Section 13, and is not a reference to other sections of the Plan.

13.02 Limitations on Benefits.

- (a) The limitations of this Section 13 shall apply in Limitation Years beginning on or after July 1, 2002, except as otherwise provided herein.
- (b) The Annual Benefit otherwise payable to a Participant at any time shall not exceed the Maximum Permissible Benefit. If the benefit the Participant would otherwise accrue in a Limitation Year would produce an Annual Benefit in excess of the Maximum Permissible Benefit, the benefit shall be limited, or the rate of accrual reduced, to a benefit that does not exceed the Maximum Permissible Benefit.
- (c) If the Participant is, or has ever been, a participant in another qualified defined benefit plan maintained by the County, the sum of the Participant's Annual Benefits from all such plans may not exceed the Maximum Permissible Benefit. Where the Participant's county-provided benefits under all such defined benefit plans, determined as of the same age, would exceed the Maximum Permissible Benefit applicable at that age, the County will reduce the rate of accrual in this Plan to the extent necessary so that the total Annual Benefit payable at any time under such plans will not exceed the Maximum Permissible Benefit.
- (d) The application of the provisions of this Section 13 shall not cause the Maximum Permissible Benefit for any Participant to be less than the Participant's accrued benefit under all the defined benefit plans of the County as of the end of the last Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, under provisions of the plans that were both adopted and in effect before April 5, 2007. The preceding sentence applies only if the provisions of such defined benefit plans that were both adopted and in effect before April 5, 2007, satisfied the applicable requirements of statutory provisions, regulations, and other published guidance relating to Code section 415 in effect as of the end of the last Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, as described in

Regulation 1.415(a)-1 (g)(4).

(e) Definitions (In Addition to Those Capitalized Terms Defined in Section 13.08). For purposes of this Section 13, the following terms shall be defined as follows:

(1) "Annual Benefit" means a benefit that is payable annually in the form of a straight life annuity. Except as provided below, where a benefit is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit and is payable on the first day of each month, before applying the limitations of this Section 13. For a Participant who has or will have distributions commencing at more than one (1) Annuity Starting Date, the Annual Benefit shall be determined as of each such Annuity Starting Date, and shall satisfy the limitations of this Section 13 as of each such date, actuarially adjusting for past and future distributions of benefits commencing at the other Annuity Starting Dates. For this purpose, the determination of whether a new starting date has occurred shall be made without regard to Regulation 1.401 (a)-20, Q&A 10(d), and with regard to Regulation 1.415(b)1 (b)1 (ii)(B) and (C).

No actuarial adjustment to the benefit shall be made for (i) survivor benefits payable to a surviving Spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the Participant's benefit were paid in another form; (ii) benefits that are not directly related to retirement benefits, such as a qualified disability benefit, preretirement incidental death benefits, and postretirement medical benefits; or (iii) the inclusion in the form of benefit of an automatic benefit increase feature, provided the form of benefit is not subject to Code section 417(e)(3) and would otherwise satisfy the limitations of this Section 13, and the Plan provides that the amount payable under the form of benefit in any Limitation Year shall not exceed the limits of this Section 13 applicable at the Annuity Starting Date, as increased in subsequent years pursuant to Code section 415(d). For this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form.

The determination of the Annual Benefit shall take into account social security supplements described in Code section 411 (a)(9) and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant Regulation 1.411 (d)-4, Q&A3(c), but shall disregard benefits attributable to employee contributions or rollover contributions.

Effective for distributions in Plan Years beginning after December 31, 2003, the determination of actuarial equivalence of forms of benefit other than a straight life annuity shall be made in accordance with subsections (A) or (B) below.

(A) Benefit Forms Not Subject to Code section 417(e)(3). The straight life annuity that is actuarially equivalent to the Participant's form of benefit shall be determined under this subsection (A) if the form of the Participant's benefit is either (1) a nondecreasing annuity, other than a straight life annuity, payable for a period of not less than the life of the Participant, or, in the case of a qualified preretirement survivor annuity, the life of the surviving Spouse, or (2) an annuity that decreases during the life of the Participant merely because of (a) the death of the survivor annuitant, but only if the reduction is not below fifty percent (50%) of the benefit payable before the death of the survivor annuitant, or (b) the cessation or reduction of Social Security supplements or qualified disability payments, as defined in Code section 401 (a)(11).

(i) Limitation Years beginning before July 1, 2007. For Limitation Years beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same Annuity Starting Date that has the same actuarial present value as the Participant's form of benefit computed using whichever of the following produces the greater annual amount: (I) the interest rate and mortality table, or other tabular factor, specified in Section 13.07 for adjusting

benefits in the same form; and (II) a five percent (5%) interest rate assumption and the applicable mortality table defined in Section 13.07 for that Annuity Starting Date.

(ii) Limitation Years beginning on or after July 1, 2007. For Limitation Years beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, the actuarially equivalent straight life annuity is equal to the greater of (I) the annual amount of the straight life annuity, if any, payable to the Participant under the Plan commencing at the same Annuity Starting Date as the Participant's form of benefit; and (II) the annual amount of the straight life annuity commencing at the same Annuity Starting Date that has the same actuarial present value as the Participant's form of benefit, computed using a five percent (5%) interest rate assumption and the applicable mortality table defined in Section 13.07 for that Annuity Starting Date.

(B) Benefit Forms Subject to Code section 417(e)(3). As a governmental plan there are no benefits subject to Code section 417(e)(3).

(2) "Compensation" shall mean all of a Participant's wages within the meaning of Code section 3401 (a) and all other payments of compensation to an employee by the County for which the County is required to furnish the employee a written statement under Code sections 6041 (d), 6051 (a)(3), and 6052. Compensation shall be determined without regard to any rules under Code section 3401 (a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed, such as the exception for agricultural labor in Code section 3401 (a)(2). However, compensation shall exclude amounts paid or reimbursed by the County for moving expenses incurred by an employee, but only to the extent that at the time of the payment it is reasonable to believe that these amounts are deductible by the employee under Code section 217.

For Limitation Years beginning after December 31, 1991, for purposes of applying the limitations of this section, Compensation for a Limitation Year is the Compensation actually made available during such Limitation Year.

For Limitation Years beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, Compensation for a Limitation Year shall also include Compensation paid by the later of two and one-half (2"Y2) months after an employee's severance from employment with the County, or the end of an elected or appointed term as commissioner, or the end of the calendar year that includes the date of the employee's severance from employment, or the end of an elected or appointed term as commissioner, with the County, if:

(A) The payment is regular Compensation for services during the employee's regular working hours, or Compensation for services outside the employee's regular working hours, such as overtime or shift differential, commissions, bonuses, or other similar payments, and, absent a severance from employment, the payments would have been paid to the employee while the employee continued in employment, or service as commissioner, with the County;

(B) The payment is for unused accrued bona fide sick, vacation or other leave that the employee would have been able to use if employment had continued; or

(C) The payment is received by the employee pursuant to a nonqualified unfunded deferred compensation plan and would have been paid at the same time if employment had continued, but only to the extent includible in gross income.

Any payments not described above shall not be considered Compensation if paid after severance from employment, or end of term as commissioner, even if they are paid by the later of two and one-half (2Yz) months after the date of severance from employment or the end of the calendar year that includes the date of severance from employment, except, (i) payments to an individual who does not currently perform services for the County by reason of qualified military service,

within the meaning of Code section 414(u)(1), to the extent these payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the County rather than entering qualified military service; or (ii) compensation paid to a Participant who is permanently and totally disabled, as defined in Code section 22(e)(3), provided, salary continuation applies to all Participants who are permanently and totally disabled for a fixed or determinable period, or the Participant was not a highly compensated employee, as defined in Code section 414(q), immediately before becoming disabled.

Back pay, within the meaning of Regulation 1.415(c)-2(g)(8) shall be treated as Compensation for the Limitation Year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included under this definition.

For Limitation Years beginning after December 31, 1997, for purposes of applying the limitations of this Section 13.02, compensation paid or made available during such Limitation Year shall include any elective deferral, as defined in Code section 402(g)(3), and any amount which is contributed or deferred by the County at the election of the employee and which is not includible in the gross income of the employee by reason of Code section 125 or Code section 457.

For Limitation Years beginning on and after January 1, 2001, for purposes of applying the limitations of this Section 13.02, Compensation paid or made available during such Limitation Years shall include elective amounts that are not includible in the gross income of the Employee by reason of Code section 132(f)(4).

(3) "County" shall mean the County of Hamilton, Tennessee.

(4) "Defined Benefit Compensation Limitation" As a governmental plan, this Plan is not subject to the one hundred percent (100%) compensation limit of Code section 415(b).

(5) "Defined Benefit Dollar Limitation" shall mean, as of the general effective date of this act, one hundred ninety-five thousand dollars (\$195,000), the limit for the 2010 fiscal year, as may be automatically adjusted, effective January 1 of each year, by the Secretary of the Treasury under Code section 415(d) in such manner as the Secretary shall prescribe, and payable in the form of a straight-life annuity. A limitation as adjusted under Code section 415(d) will apply to Limitation Years ending with or within the calendar year for which the adjustment applies, but a Participant's benefits shall not reflect the adjusted limit prior to January 1 of that calendar year. The automatic annual adjustment provided under Code section 415(d) shall apply to Participants who have had a separation from employment.

(6) "Highest Average Compensation" shall mean the average Compensation for the three (3) consecutive Years of Service with the County that produces the highest average. If the Participant has less than three (3) consecutive Years of Service, the highest average will be based on the Participant's longest consecutive period of Service, including fractions of years, but not less than one (1) year.

In the case of a Participant who is rehired by the County after a severance from employment, or a commission re-elected or appointed to a nonconsecutive term, the Participant's Highest Average Compensation shall be calculated by excluding all years for which the Participant performs no services for and receives no Compensation from the County (the "break period") and by treating the years immediately preceding and following the break period as consecutive. A Participant's Compensation for a Year of Service shall not include Compensation in excess of the limitation under Code section 401(a)(17) that is in effect for the calendar year in which such Year of Service begins.

(7) "Limitation Year" shall mean the Plan Year. All qualified plans maintained by the County shall use the same Limitation Year. If the Limitation Year is amended to a different twelve (12) consecutive month period, then the new Limitation Year shall begin on a date within the Limitation Year in which the amendment is made.

(8) "Maximum Permissible Amount" shall mean the Defined Benefit Dollar Limitation adjusted where required and to the extent applicable pursuant to subsections (A) and (B) below.

(A) Adjustment for Less Than Ten (10) Years of Participation or Service. If the Participant has less than ten (10) Years of Participation in the Plan, the Defined Benefit Dollar Limitation shall be multiplied by a fraction (i) the numerator of which is the number of Years, or part thereof, but not less than one (1) year, of Participation in the Plan, and (ii) the denominator of which is ten (10). This subsection (A) shall not apply to a distribution made on account of the Participant becoming disabled by reason of personal injuries or sickness or as a result of the Participant's death.

(B) Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement Before Age Sixty-Two (62) or after Age Sixty-Five (65). Effective for benefits commencing in Limitation Years ending after December 31, 2001, the Defined Benefit Dollar Limitation shall be adjusted if the Annuity Starting Date of the Participant's benefit is before age sixty-two (62) or after age sixty-five (65). If the Annuity Starting Date is before age sixty-two (62), the Defined Benefit Dollar Limitation shall be adjusted under subparagraph (B)(i) below, as modified by subparagraph (B)(iii). If the Annuity Starting Date is after age sixty-five (65), the Defined Benefit Dollar Limitation shall be adjusted under subparagraph (B)(ii) below, as modified by subparagraph (B)(iii).

(i) Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement Before Age Sixty-Two (62).

(a) Limitation Years Beginning Before July 1, 2007. If the Annuity Starting Date for the Participant's benefit is prior to age sixty-two (62) and occurs in a Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, the Defined Benefit Dollar Limitation for the Participant's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Participant's Annuity Starting Date that is the actuarial equivalent of the Defined Benefit Dollar Limitation, adjusted under subsection (8)(A) above for years of participation less than ten (10), if required, with actuarial equivalence computed using whichever of the following produces the smaller annual amount (1) the interest rate specified and the mortality table, or other tabular factor, specified in Section 13.07; or (2) a five percent (5%) interest rate assumption and the applicable mortality table as defined in Section 13.07.

(b) Limitation Years Beginning on or After July 1, 2007.

(1) Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age Sixty-Two (62) and the Age of Benefit Commencement. If the Annuity Starting Date for the Participant's benefit is prior to age sixty-two (62) and occurs in a Limitation Year beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, and the Plan does not have an immediately commencing straight life annuity payable at both age sixty-two (62) and the age of benefit commencement, the Defined Benefit Dollar Limitation for the Participant's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Participant's Annuity Starting Date that is the actuarial equivalent of the Defined Benefit Dollar Limitation, adjusted under subsection (8)(A) above for years of participation less than ten (10), if required, with actuarial equivalence computed

using a five percent (5%) interest rate assumption and the applicable mortality table for the Annuity Starting Date as defined in Section 13.07, and expressing the Participant's age based on completed calendar months as of the Annuity Starting Date.

(2) Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age Sixty-Two (62) and the Age of Benefit Commencement. If the Annuity Starting Date for the Participant's benefit is prior to age sixty-two (62) and occurs in a Limitation Year beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, and the Plan has an immediately commencing straight life annuity payable at both age sixty-two (62) and the age of benefit commencement, the Defined Benefit Dollar Limitation for the Participant's Annuity Starting Date is the lesser of the limitation determined under subsection (B)(i)(b)(1) above and the Defined Benefit Dollar Limitation, adjusted under subsection (8)(A) for years of participation less than ten (10), if required, multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under the Plan at the Participant's Annuity Starting Date to the annual amount of the immediately commencing straight life annuity under the Plan at age sixty-two (62), both determined without applying the limitations of this Section 13.02.

(ii) Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement After Age Sixty-Five (65).

(a) Limitation Years Beginning Before July 1, 2007. If the Annuity Starting Date for the Participant's benefit is after age sixtyfive (65) and occurs in a Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, the Defined Benefit Dollar Limitation for the Participant's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Participant's Annuity Starting Date that is the actuarial equivalent of the Defined Benefit Dollar Limitation, adjusted under subsection (8)(A) above for years of participation less than ten (10), if required, with actuarial equivalence computed using whichever of the following produces the smaller annual amount: (1) the interest rate and the mortality table, or other tabular factor, specified in Section 13.07; or (2) a five percent (5%) interest rate assumption and the applicable mortality table defined in Section 13.07.

(b) Limitation Years Beginning Before July 1, 2007.

(1) Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age Sixty-Five (65) and the Age of Benefit Commencement. If the Annuity Starting Date for the Participant's benefit is after age sixtyfive (65) and occurs in a Limitation Year beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, and the Plan does not have an immediately commencing straight life annuity payable at both age sixty-five

(65) and the age of benefit commencement, the Defined Benefit Dollar Limitation at the Participant's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Participant's Annuity Starting Date that is the actuarial equivalent of the Defined Benefit Dollar Limitation, adjusted under subsection (8)(A) above for Years of Participation less than ten (10), if required, with actuarial equivalence computed using a five percent (5%) interest rate assumption and the applicable mortality table for that Annuity Starting Date as defined in Section 13.07, and expressing the Participant's age based on completed calendar months as of the Annuity Starting Date.

(2) Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age Sixty-Five (65) and the Age of Benefit Commencement. If the Annuity Starting Date for the Participant's benefit is after age sixty-five (65) and occurs in a Limitation Year beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, and the Plan has an immediately commencing straight life annuity payable at both age sixty-five (65) and the age of benefit commencement, the Defined Benefit Dollar Limitation at the Participant's Annuity Starting Date is the lesser of the limitation determined under subsection (B)(ii)(b)(1) and the Defined Benefit Dollar Limitation, adjusted under subsection (8)(A) above for Years of Participation less than ten (10), if required, multiplied by the ratio of the annual amount of the adjusted immediately commencing straight life annuity under the Plan at the Participant's Annuity Starting Date to the annual amount of the adjusted immediately commencing straight life annuity under the Plan at age sixty-five (65), both determined without applying the limitations of this Section 13.02. For this purpose, the adjusted immediately commencing straight life annuity under the Plan at the Participant's Annuity Starting Date is the annual amount of such annuity payable to the Participant, computed disregarding the Participant's accruals after age sixty-five (65) but including actuarial adjustments even if those actuarial adjustments are used to offset accruals; and the adjusted immediately commencing straight life annuity under the Plan at age sixty-five (65) is the annual amount of such annuity that would be payable under the Plan to a hypothetical participant who is age sixty-five (65) and has the same accrued benefit as the Participant.

(iii) Notwithstanding the other requirements of this subsection (8)(B), no adjustment shall be made to the Defined Benefit Dollar Limitation to reflect the probability of a Participant's death between the Annuity Starting Date and age sixty-two (62), or between age sixty-five (65) and the Annuity Starting Date, as applicable, if benefits are not forfeited upon the death of the Participant prior to the Annuity Starting Date. To the extent

benefits are forfeited upon death before the Annuity Starting Date, such an adjustment shall be made. For this purpose, no forfeiture shall be treated as occurring upon the Participant's death if the Plan does not charge Participants for providing a qualified preretirement survivor annuity, as defined in Code section 417(c) upon the Participant's death.

(C) Minimum benefit permitted. Notwithstanding anything else in this definition to the contrary, the benefit otherwise accrued or payable to a Participant under this Plan shall be deemed not to exceed the Maximum Permissible Benefit if:

(i) The retirement benefits payable for a Limitation Year under any form of benefit with respect to such Participant under this Plan and under all other defined benefit plans, without regard to whether a plan has been terminated, ever maintained by the County do not exceed ten thousand dollars (\$10,000) multiplied by a fraction (I) the numerator of which is the Participant's number of years, or part thereof, but not less than one (1) year of service, not to exceed ten (10), with the County, and (II) the denominator of which is ten (10); and

(ii) The County has not at any time maintained a defined contribution plan in which the Participant participated. For this purpose, mandatory employee contributions under a defined benefit plan, individual medical accounts under § 401 (h), and accounts for postretirement medical benefits established under § 419A(d)(1) are not considered a separate defined contribution plan.

(9) "Year of Participation" shall mean each accrual computation period, computed to fractional parts of a year, for which the following conditions are met: (i) the Participant is credited with at least the number of hours of service for benefit accrual purposes, required under the terms of the Plan in order to accrue benefit service, and (ii) the Participant is included as a Participant under the eligibility provisions of the Plan for at least one (1) day of the period of benefit service. If these two (2) conditions are met, the portion of a Year of Participation credited to the Participant shall equal the amount of benefit service credited to the Participant for such accrual computation period. A Participant who is permanently and totally disabled within the meaning of Code section 415(c)(3)(C)(i) for an accrual computation period shall receive a Year of Participation with respect to that period. In addition, for a Participant to receive a Year of Participation, or part thereof, for an accrual computation period, the Plan must be established no later than the last day of such accrual computation period. In no event will more than one (1) Year of Participation be credited for any twelve-month period.

(f) Notwithstanding any provision of this Section 13.02, the application of this Section 13.02 shall be subject to such rules as may be prescribed by the Secretary of the Treasury.

13.03. Limitation on Earnings.

(a) For purposes of computing any benefit under the Plan or any contribution made to the Plan, there shall be a limit on the amount of compensation that may be considered in any Plan Year for any Participant. The limit shall be the amount specified in this Section 13.03, as described below.

(b) For Plan Years beginning after December 31, 2001, the annual compensation of each Participant taken into account in determining benefit accruals in any Plan Year shall not exceed two hundred thousand dollars (\$200,000), as may be adjusted as set forth below. Annual compensation means compensation during the Plan Year or such other consecutive twelve-month period over which compensation is otherwise determined under the Plan, known as the determination period. Should the Plan use annual compensation for periods prior to January 1, 2002, to determine benefit accruals for Plan Years beginning after December 31, 2001, the annual compensation limit used for such periods shall be two hundred thousand dollars (\$200,000). The two hundred thousand dollar (\$200,000) limit on annual compensation in this subsection (b) shall be adjusted for cost-of-living increases

in accordance with Code section 401 (a)(17)(B). The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year.

13.04 Minimum Distribution.

(a) Final Regulations Incorporated By Reference. Notwithstanding any provision of the Plan to the contrary, with respect to distributions under the Plan made for calendar years beginning on or after January 1, 2006, the Plan will apply the minimum distribution requirements of Code section 401 (a)(9) in accordance with the Regulations under Code section 401 (a)(9) that were finalized on June 15, 2004, and amended September 8, 2009, which are hereby incorporated by reference.

Furthermore, the Plan shall comply with any and all provisions interpreting Code section 401 (a)(9) that are prescribed by the Commissioner of the Internal Revenue Service.

(b) Subject to the joint and survivor annuity requirement of the Plan, the requirements of this Section 13.04 will take precedence over any inconsistent provisions of the Plan.

(c) All distributions required under this Section 13.04 will be determined and made in accordance with Code section 401 (a)(9) and the Regulations thereunder, including the incidental death benefit requirement in Code section 401 (a)(9)(G).

(d) Notwithstanding the other provisions of this Section 13.04, other than subsection (c), distributions may be made under a designation made before January 1, 1984, in accordance with section 242(b)(2) of the Tax Equity and Fiscal Responsibility Act (TEFRA) and the provisions of the Plan that relate to section 242(b)(2) of TEFRA.

(e) Required Beginning Date. The Participant's entire interest will be distributed, or begin to be distributed, to the Participant no later than the Participant's required beginning date. "Required beginning date" means April 1 of the calendar year following the later of:

- (1) The calendar year in which the Participant attains age seventy and one-half (70½); or
- (2) The calendar year in which the Participant retires.

(f) Death of Participant Before Distributions Begin. If the Participant dies before distributions begin, the Participant's entire interest will be distributed, or begin to be distributed, no later than as follows:

- (1) If the Participant's surviving Spouse is the Participant's sole designated beneficiary, then distributions to the surviving Spouse will begin by December 31 of the calendar year immediately following the calendar year in which the Participant died, or by December 31 of the calendar year in which the Participant would have attained age seventy and one-half (70½), if later.
- (2) If the Participant's surviving Spouse is not the Participant's sole designated beneficiary, then distributions to the designated beneficiary will begin by December 31 of the calendar year immediately following the calendar year in which the Participant died.
- (3) If there is no designated beneficiary as of September 30 of the year following the year of the Participant's death, the Participant's entire interest will be distributed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.
- (4) If the Participant's surviving Spouse is the Participant's sole designated beneficiary and the surviving Spouse dies after the Participant but before distributions to the surviving Spouse begin, this Section 13.04(f), other than subsection (1), will apply as if the surviving Spouse were the Participant.

For purposes of this subsection (f) and subsections (n),(o) and (p) of this Section 13.04, distributions are considered to begin on the Participant's required beginning date, or, if Section 13.04(f)(4) applies, the date distributions are required to begin to the surviving Spouse under Section 13.04(f)(1). If annuity payments irrevocably commence to the Participant before the Participant's required beginning date, or to the Participant's surviving Spouse before the date distributions are required to begin to the surviving Spouse under Section 13.04(f)(4), the date distributions are considered to begin is the date distributions actually commence.

(g) Form of Distribution. Unless the Participant's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the required beginning date, distributions will be made in accordance with the subsequent provisions of this Section 13.04. If the Participant's interest is distributed in the form of an annuity purchased from an insurance company, distributions thereunder will be made in accordance with the requirements of Code section 401 (a)(9) and Regulations thereunder. Any part of the Participant's interest which is in the form of an individual account described in Code section 414(k) will be distributed in a manner satisfying the requirements of Code section 401 (a)(9) and the Regulations thereunder that apply to individual accounts.

(h) General Annuity Requirements. A Participant who is required to begin payments as a result of attaining his or her required beginning date, whose interest has not been distributed in the form of an annuity purchased from an insurance company or in a single sum before such date, may receive such payments in the form of annuity payments under the Plan. Payments under such annuity must satisfy the following requirements:

- (1) The annuity distributions will be paid in periodic payments made at intervals not longer than one (1) year;
- (2) The distribution period will be over a life, or lives, or over a period certain not longer than the period provided for under the terms of this Section 13.04;
- (3) Once payments have begun over a period certain, the period certain will not be changed even if the period certain is shorter than the maximum permitted; and
- (4) Payments will either be nonincreasing or increase only as follows:
 - (A) By an annual percentage increase that does not exceed the annual percentage increase in an eligible cost-of-living index for a twelve-month period ending in the year during which the increase occurs or the prior year;
 - (B) By a percentage increase that occurs at specified times, that is, at specified ages, and does not exceed the cumulative total of annual percentage increases in an eligible cost-of-living index since the Annuity Starting Date, or if later, the date of the most recent percentage increase; except that in cases providing such a cumulative increase, an actuarial increase may not be provided to reflect the fact that increases were not provided in the interim years;
 - (C) To the extent of the reduction in the amount of the Participant's payments to provide for a survivor benefit upon death, but only if the beneficiary whose life was being used to determine the distribution period described in Section 13.04(k) dies or is no longer the Participant's beneficiary pursuant to a court order recognized by the Plan;
 - (D) To allow a beneficiary to convert the survivor portion of a joint and survivor annuity into a single sum distribution upon the Participant's death;
 - (E) To pay increased benefits that result from a plan amendment;
 - (F) By a constant percentage, applied not less frequently than annually, at a rate that is less than five percent (5%) per year;
 - (G) To provide a final payment upon the death of the Participant that does not exceed the excess of the actuarial present value of the Participant's accrued benefit, within the meaning of Code section 411 (a)(7), calculated as of the Annuity Starting Date using the applicable interest rate and the applicable mortality table under Code section 417(e), or, if greater, the total amount of employee contributions, over the total of payments before the death of the Participant; or
 - (H) As a result of dividend or other payments that result from actuarial gains, provided:
 - (i) Actuarial gain is measured not less frequently than annually;
 - (ii) The resulting dividend or other payments are either paid no later than the year following the year for which the actuarial

experience is measured or paid in the same form as the payment of the annuity over the remaining period of the annuity, beginning no later than the year following the year for which the actuarial experience is measured;

(iii) The actuarial gain taken into account is limited to actuarial gain from investment experience;

(iv) The assumed interest rate used to calculate such actuarial gains is not less than three percent (3%); and

(v) The annuity payments are not also being increased by a constant percentage as described in this Section 13.04.

(i) Amount Required to be Distributed by Required Beginning Date. The amount that must be distributed on or before the Participant's required beginning date, or, if the Participant dies before distributions begin, the date distributions are required to begin under Section 13.04(f)(1) or (2), is the payment that is required for one (1) payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. Payment intervals are the periods for which payments are received, such as bi-monthly, monthly, semi-annually, or annually. All of the Participant's benefit accruals as of the last day of the first distribution calendar year will be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the Participant's required beginning date.

(j) Additional Accruals After First Distribution Calendar Year. Any additional benefits accruing to the Participant in a calendar year after the first distribution calendar year will be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which such amount accrues. Notwithstanding the preceding, the Plan will not fail to satisfy the requirements of this Section 13.04 and Code section 401 (a)(9) merely because there is an administrative delay in the commencement of the distribution of the additional benefits accrued in a calendar year, provided that the actual payment of such amount commences as soon as practicable. However, payment must commence no later than the end of the first calendar year following the calendar year in which the additional benefit accrues, and the total amount paid during such first calendar year must be no less than the total amount that was required to be paid during that year under this Section 13.04.

(k) Joint Life Annuities Where the Beneficiary Is the Participant's Spouse. If the Participant's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the Participant and the Participant's Spouse, the minimum distribution incidental benefit requirement will not be satisfied as of the date distributions commence unless, under the distribution option, the periodic annuity payment payable to the survivor does not at any time on and after the Participant's required beginning date exceed the annuity payable to the Participant. In the case of an annuity that provides for increasing payments, the requirement of this subsection (k) will not be violated merely because benefit payments to the beneficiary increase, provided the increase is determined in the same manner for the Participant and the beneficiary. If the form of distribution combines a joint and survivor annuity for the joint lives of the Participant and the Participant's Spouse and a period certain annuity, the preceding requirements will apply to annuity payments to be made to the designated beneficiary after the expiration of the period certain.

(l) Joint Life Annuities Where the Beneficiary Is Not the Participant's Spouse. If the Participant's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the Participant and a nonspouse beneficiary, the minimum distribution incidental benefit requirement will not be satisfied as of the date distributions commence unless under the distribution option, the annuity payments to be made on and after the Participant's required beginning date will satisfy the conditions of this subsection (1). The periodic annuity payment payable to the survivor must not at any time on and after the Participant's required beginning date exceed the applicable percentage of the annuity payment payable to the Participant using the table set forth in Q&A-2(c)(2) of Regulation 1.401 (a)(9)-6. The applicable percentage is based on the adjusted participant/beneficiary age difference. The adjusted participant/beneficiary age difference is determined by first calculating the excess of the age of the Participant over the age of the beneficiary based on their ages on their birthdays in a calendar year. If the Participant is younger than age seventy (70), the age difference determined in the previous sentence is reduced by the

number of years that the Participant is younger than age seventy (70) on the Participant's birthday in the calendar year that contains the Annuity Starting Date. In the case of an annuity that provides for increasing payments, the requirement of this subsection (I) will not be violated merely because benefit payments to the beneficiary increase, provided the increase is determined in the same manner for the Participant and the beneficiary. If the form of distribution combines a joint and survivor annuity for the joint lives of the Participant and a nonspouse beneficiary and a period certain annuity, the preceding requirements will apply to annuity payments to be made to the designated beneficiary after the expiration of the period certain.

(m) Period Certain Annuities. Unless the Participant's Spouse is the sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain for an annuity distribution commencing during the Participant's lifetime may not exceed the applicable distribution period for the Participant under the Uniform Lifetime Table set forth in Regulation 1.401 (a)(9)-9 for the calendar year that contains the Annuity Starting Date. If the Annuity Starting Date precedes the year in which the Participant reaches age seventy (70), the applicable distribution period for the Participant is the distribution period for age seventy (70) under the Uniform Lifetime Table set forth in Regulation 1.401 (a)(9)-9 plus the excess of seventy (70) over the age of the Participant as of the Participant's birthday in the year that contains the Annuity Starting Date. If the Participant's Spouse is the Participant's sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain may not exceed the longer of the Participant's applicable distribution period, as determined under this subsection (m), or the joint life and last survivor expectancy of the Participant and the Participant's Spouse as determined under the Joint and Last Survivor Table set forth in Regulation 1.401 (a)(9)-9, using the Participant's and Spouse's attained ages as of the Participant's and Spouse's birthdays in the calendar year that contains the Annuity Starting Date.

(n) Participant Survived by Designated Beneficiary. If the Participant dies before the date distribution of his or her interest begins and there is a designated beneficiary, the Participant's entire interest will be distributed, beginning no later than the time described in Section 13.04(f)(1) or (2), over the life of the designated beneficiary or over a period certain not exceeding:

(1) Unless the Annuity Starting Date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year immediately following the calendar year of the Participant's death; or

(2) If the Annuity Starting Date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year that contains the Annuity Starting Date.

(o) No Designated Beneficiary. If the Participant dies before the date distributions begin and there is no designated beneficiary as of September 30 of the year following the year of the Participant's death, distribution of the Participant's entire interest will be completed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.

(p) Death of Surviving Spouse Before Distributions to Surviving Spouse Begin. If the Participant dies before the date distribution of his or her interest begins, the Participant's surviving Spouse is the Participant's sole designated beneficiary, and the surviving Spouse dies before distributions to the surviving Spouse begin, this Section 13.04(p) will apply as if the surviving Spouse were the Participant, except that the time by which distributions must begin will be determined without regard to Section 13.04(f).

(q) Definitions.

(1) Actuarial Gain. The term "actuarial gain" as used in this Section 13.04 means the difference between an amount determined using the actuarial assumptions, that is, investment return, mortality, expense, and other similar assumptions, used to calculate the initial payments before adjustment for any increases and the amount determined under the actual experience with respect to those factors. Actuarial gain also includes differences between the amount determined using actuarial assumptions when an annuity was purchased or commenced and such

amount determined using actuarial assumptions used in calculating payments at the time the actuarial gain is determined.

(2) Designated Beneficiary. The term "designated beneficiary" as used in this Section 13.04 means the individual who is designated as the beneficiary under the Plan and is the designated beneficiary under Code section 401 (a)(9) and Regulation 1.401 (a)(9)-1, Q&A-4.

(3) Distribution calendar year. The term "distribution calendar year" as used in this Section 13.04 means a calendar year for which a minimum distribution is required. For distributions beginning before the Participant's death, the first distribution calendar year is the calendar year immediately preceding the calendar year which contains the Participant's required beginning date. For distributions beginning after the Participant's death, the first distribution calendar year is the calendar year in which distributions are required to begin pursuant to Section 13.04(f).

(4) Eligible Cost-of-Living Index. The term "eligible cost-of-living index" as used in this Section 13.04 means an index described below:

(A) A consumer price index that is based on prices of all items, or all items excluding food and energy, and issued by the Bureau of Labor Statistics, including an index for a specific population, such as urban consumers or urban wage earners and clerical workers, and an index for a geographic area or areas, such as a given metropolitan area or state; or

(B) A percentage adjustment based on a cost-of-living index described in subparagraph (A) above, or a fixed percentage, if less; provided however, in any year when the cost-of-living index is lower than the fixed percentage, the fixed percentage may be treated as an increase in an eligible cost-of-living index, provided it does not exceed the sum of:

(i) The cost-of-living index for that year;

(ii) The accumulated excess of the annual cost-of-living index from each prior year over the fixed annual percentage used in that year, reduced by any amount previously utilized under this subparagraph (B); and

(iii) If provided by this Plan, as a governmental plan, a percentage adjustment based on the increase in compensation for the position held by the Participant at the time of retirement.

(5) Life expectancy. The term "life expectancy" as used in this Section 13.04, means the life expectancy as computed by use of the Single Life Table in Regulation 1.401 (a)(9)-9.

13.05 Right to Direct Rollover.

This Section 13.05 applies to distributions made on or after January 1, 2002. Notwithstanding any provision of the Plan to the contrary that would otherwise limit a distributee's election under this Section 13.05, a distributee may elect, at the time and in the manner prescribed by the Pension Commission, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(a) Eligible rollover distribution: An eligible rollover distribution is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one (1) of a series of substantially equal periodic payments, not less frequently than annually, made for the life, or life expectancy, of the distributee or the joint lives, or joint life expectancies, of the distributee and the distributee's designated beneficiary, or for a specified period of ten (10) years or more; any distribution to the extent such distribution is required under Code section 401 (a)(9); and the portion of any distribution that is not includible in gross income, determined without regard to the exclusion for net unrealized appreciation with respect to employer securities.

(b) Eligible retirement plan: An eligible retirement plan is any of the following arrangements that accepts the distributee's eligible rollover distribution:

(1) An individual retirement account described in Code section 408(a);

- (2) An individual retirement annuity described in Code section 408(b);
- (3) An annuity plan described in Code section 403(a);
- (4) A qualified trust described in Code section 401 (a);
- (5) An annuity contract described in Code section 403(b);
- (6) An eligible plan under Code section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan; or
- (7) For distributions made after December 31, 2007, a Roth IRA described in Code section 408A(b).

The definition of eligible retirement plan shall also apply in the case of a distribution to a surviving Spouse, or to a Spouse or former Spouse who is the alternate payee under a domestic relations order accepted by the Pension Commission.

(c) Distributee: A distributee includes an employee or former employee eligible for benefits under the Plan. In addition, the employee's or former employee's surviving Spouse and the employee's or former employee's Spouse or former Spouse who is the alternate payee under a domestic relations order accepted by the Pension Commission, are distributees with regard to the interest of the Spouse or former Spouse.

Effective for distributions made after December 31, 2010, a distributee also includes a Participant's nonspouse beneficiary. However, in the case of a nonspouse beneficiary, the rollover must be a direct rollover and only can be made to an individual retirement account or annuity described in Code section 408(a) or 408(b) ("IRA") that is established on behalf of the beneficiary and will be treated as an inherited IRA pursuant to Code section 402(c)(ii). Also, in the case of a nonspouse beneficiary, the determination of any required minimum distribution under Code section 401 (a)(9) that is ineligible for rollover shall be made in accordance with IRS Notice 2007-7, Q&A 17 and 18. If such distribution is made prior to January 1, 2010, it is not subject to the direct rollover requirements of Code section 401(a)(31), the notice requirements of Code section 402(f) or the mandatory withholding requirements of Code section 3405(c). If a nonspouse beneficiary receives a distribution from the Plan, the distribution is not eligible for a 60-day (nondirect) rollover.

If the Participant's named beneficiary is a trust, the Plan may make a direct rollover to an IRA on behalf of the trust, provided the trust satisfies the requirements to be a designated beneficiary with the meaning of Code section 401 (a)(9)(E).

(d) Direct rollover: A direct rollover is a payment by the Plan to an eligible retirement plan specified by the distributee and as allowed by law.

13.06 HEART Provisions.

(a) Death benefits. In the case of a death or disability occurring on or after January 1, 2007, if a Participant dies while performing qualified military service, as defined in Code section 414(u), the survivors of the Participant are entitled to any additional benefits provided under the Plan, other than benefit accruals relating to the period of qualified military service, as if the Participant had resumed and then terminated employment on account of death.

(b) Differential wage payments. For years beginning after December 31, 2008, (i) an individual receiving a differential wage payment, as defined by Code section 3401 (h)(2), shall be treated as an employee of the County making the payment, (ii) the differential wage payment shall be treated as compensation, and (iii) the Plan shall not be treated as failing to meet the requirements of any provision described in Code section 414(u)(1)(C) by reason of any contribution or benefit which is based on the differential wage payment.

13.07 Actuarial Equivalent

(a) Effective July 1, 2002. actuarial equivalent shall mean a benefit of equivalent value on the basis of a seven and one-half percent (7.5%) interest rate, the RP-2000 Mortality Table for Employees (Male) for Members, and the RP-2000 Mortality Table for Employees (Female) for Beneficiaries. Notwithstanding the foregoing, effective for distributions with Annuity Starting Dates on or after December 31, 2002, the applicable mortality table and applicable interest rate used for purposes of adjusting any benefit or limitation under Code section 415(b)(2)(B), (C), or (D) as set forth in Section 13.02 shall be the table(s) and

interest rates set forth in subsections (b) and (c) below, if such actuarial equivalent amount produces a greater benefit than that determined by the factors set forth in this subsection (a).

(b) For purposes of this subsection (b), the "applicable mortality table" means, for distributions having an Annuity Starting Date of January 1, 2008, or later, the applicable annual mortality table prescribed by Code section 417(e)(3)(B), as initially described in Revenue Ruling 2007-67. For distributions having an Annuity Starting Date prior to January 1, 2008, and after January 1, 2002, the applicable mortality table is the table prescribed in Revenue Ruling 2001-62.

(c) For purposes of subsection (c), the "applicable interest rate" means, for distributions having an Annuity Starting Date prior to January 1, 2008, and after January 1, 2002, the annual rate of interest on 30-year Treasury securities of the United States for the second calendar month preceding the first day of the Plan Year during which the Annuity Starting Date occurs. For distributions having an Annuity Starting Date of January 1, 2008, or later, the "applicable interest rate" means the adjusted first, second, and third segment rates applied under rules similar to the rules of Code section 430(h)(2)(C) for the calendar month (lookback month) before the first day of the Plan Year in which the Annuity Starting Date occurs (stability period). For this purpose, the first, second, and third segment rates are the first, second, and third segment rates which would be determined under Code section 430(h)(2)(C) if:

- (1) Code section 430(h)(2)(D) were applied by substituting the average yields for the month described in the preceding paragraph for the average yields for the twenty-four-month period described in such section;
- (2) Code section 430(h)(2)(G)(i)(II) were applied by substituting "Section 417(e)(3)(A)(ii)(II)" for "Section 412(b)(5)(B)(ii)(II)"; and
- (3) The applicable percentage under Code section 430(h)(2)(G) is treated as being twenty percent (20%) in 2008, forty percent (40%) in 2009, sixty percent (60%) in 2010, and eighty percent (80%) in 2011.

Notwithstanding the foregoing, except as provided in the Regulations, if a Plan amendment, including amendments made by this act, changes the time for determining the "applicable interest rate", including an indirect change as a result of a change in the Plan Year, any distribution for which the Annuity Starting Date occurs in the 1-year period commencing at the time the Plan amendment is effective, if the amendment is effective on or after the adoption date, must use the interest rate as provided under the terms of the Plan after the effective date of the amendment, determined at either the date for determining the interest rate before the amendment or the date for determining the interest rate after the amendment, whichever results in the larger distribution. If the Plan amendment is adopted retroactively, that is, the amendment is effective prior to the adoption date, the Plan must use the interest rate determination date resulting in the larger distribution for the period beginning with the effective date and ending one (1) year after the adoption date.

13.08 Definitions Applicable to the Plan:

- (1) "Annuity Starting Date" shall mean the first day of the first period for which an amount is paid as an annuity or any other form;
- (2) "Code" means the United States Internal Revenue Code of 1986, as may be amended from time to time. All references to "Code sections" shall include any applicable rulings and Regulations, and as of any future date shall automatically incorporate any amendments to such sections, and shall be deemed to refer to any comparable provisions of any future laws;
- (3) "Participant" means an employee or former employee of the Hamilton County Department of Education who is a member in the Plan, or a beneficiary of such a member who is receiving benefits under the Plan;
- (4) "Plan" means the Hamilton County Department of Education Insurance and Pension Fund Employees' Retirement Act, as established and maintained by legislation enacted by the General Assembly of the State of Tennessee and approved by the Hamilton County legislative body;
- (5) "Plan Year" means each twelve-month period commencing July 1 and ending on the

SECTION 4. This act shall have no effect unless it is approved by a two-thirds (2/3) vote of the legislative body of Hamilton County. Its approval or rejection shall be proclaimed by the presiding officer of the legislative body and certified to the Secretary of State.

SECTION 5. For the purpose of approving or rejecting the provisions of this act, it shall be effective upon becoming a law, the public welfare requiring it. For all other purposes, it shall become effective upon being approved as provided in Section 4.

SECTION 2. This act amends the Plan to comply with changes in the Internal Revenue Code of 1986, herein referred to as the "Code", and various regulations and other guidance, as set forth in the 2012 Cumulative List issued by the Internal Revenue Service in Notice 2012-76 for Cycle C plans, including, but not limited to, changes under the Pension Protection Act of 2006 (PPA '06), the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act of 2007, the Heroes Earnings Assistance and Relief Act of 2008 (HEART Act), the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA), the Small Business Jobs Act of 2010 (SBJA); the Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010 (PRA 2010), and the Moving Ahead for Progress in the 21st Century Act (MAP-21).

SECTION 3. 13.02 Limitations on Benefits.

(a) The limitations of this Section 13.02 shall apply in Limitation Years beginning on or after July 1, 2007, except as otherwise provided herein.

(b) The Annual Benefit otherwise payable to a Participant at any time shall not exceed the Maximum Permissible Benefit. If the benefit the Participant would otherwise accrue in a Limitation Year would produce an Annual Benefit in excess of the Maximum Permissible Benefit, the benefit shall be limited, or the rate of accrual reduced, to a benefit that does not exceed the Maximum Permissible Benefit.

(c) If the Participant is, or has ever been, a participant in another qualified defined benefit plan maintained by the County, the sum of the Participant's Annual Benefits from all such plans may not exceed the Maximum Permissible Benefit. Where the Participant's county-provided benefits under all such defined benefit plans, determined as of the same age, would exceed the Maximum Permissible Benefit applicable at that age, the County will reduce the rate of accrual in this Plan to the extent necessary so that the total Annual Benefit payable at any time under such plans will not exceed the Maximum Permissible Benefit.

(d) The application of the provisions of this Section 13.02 shall not cause the Maximum Permissible Benefit for any Participant to be less than the Participant's accrued benefit under all the defined benefit plans of the County as of the end of the last Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, under provisions of the plans that were both adopted and in effect before April 5, 2007. The preceding sentence applies only if the provisions of such defined benefit plans that were both adopted and in effect before April 5, 2007, satisfied the applicable requirements of statutory provisions, regulations, and other published guidance relating to Code section 415 in effect as of the end of the last Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, as described in Regulation 1.415(a)-1 (g)(4).

(e) Definitions (In Addition to Those Capitalized Terms Defined in Section 13.08). For purposes of this Section 13.02, the following terms shall be defined as follows:

(1) "Annual Benefit" means a benefit that is payable annually in the form of a straight life annuity. Except as provided below, where a benefit is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit and is payable on the first day of each month, before applying the limitations of this Section 13.02. For a Participant who has or will have distributions commencing at more than one (1) Annuity Starting Date, the Annual Benefit shall be determined as of each such Annuity Starting Date, and shall satisfy the limitations of this Section 13.02 as of each such date, actuarially adjusting for past and future distributions of benefits commencing at the other Annuity Starting Dates. For this purpose, the determination of whether a new starting date has occurred shall be made without regard to Regulation 1.401 (a)-20, Q&A 10(d), and with regard to Regulation 1.415(b)1(b)-1(b)(ii) (B) and (C).

No actuarial adjustment to the benefit shall be made for (i) survivor benefits payable to a surviving Spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the Participant's benefit were paid in another form; (ii) benefits that are not directly related to retirement benefits, such as a qualified disability benefit, preretirement incidental death benefits, and postretirement medical benefits; or (iii) the inclusion in the form of benefit of an automatic benefit increase feature, provided the form of benefit is not subject to Code section 417(e)(3) and would otherwise satisfy the limitations of this Section 13.02, and the Plan provides that the amount payable under the form of benefit in any Limitation Year shall not exceed the limits of this Section 13.02 applicable at the Annuity Starting Date, as increased in subsequent years pursuant to Code section 415(d). For this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form.

The determination of the Annual Benefit shall take into account social security supplements described in Code section 411 (a)(9) and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant Regulation 1.411 (d)-4, Q&A-3(c), but shall disregard benefits attributable to employee contributions or rollover contributions.

The determination of actuarial equivalence of forms of benefit other than a straight life annuity shall be made in accordance with subsections (A) or (B) below.

(A) Benefit Forms Not Subject to Code section 417(e)(3). The straight life annuity that is actuarially equivalent to the Participant's form of benefit shall be

determined under this subsection (A) if the form of the Participant's benefit is either (1) a nondecreasing annuity, other than a straight life annuity, payable for a period of not less than the life of the Participant, or, in the case of a qualified preretirement survivor annuity, the life of the surviving Spouse, or (2) an annuity that decreases during the life of the Participant merely because of (a) the death of the survivor annuitant, but only if the reduction is not below fifty percent (50%) of the benefit payable before the death of the survivor annuitant, or (b) the cessation or reduction of Social Security supplements or qualified disability payments, as defined in Code section 401 (a)(11) .

(i) Limitation Years beginning before July 1, 2007. For Limitation Years beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same Annuity Starting Date that has the same actuarial present value as the Participant's form of benefit computed using whichever of the following produces the greater annual amount: (I) the interest rate and mortality table, or other tabular factor specified in Section 13.07 for adjusting benefits in the same form; and (II) a five percent (5%) interest rate assumption and the applicable mortality table defined in Section 13.07 for that Annuity Starting Date.

(ii) Limitation Years beginning on or after July 1, 2007. For Limitation Years beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, the actuarially equivalent straight life annuity is equal to the greater of (I) the annual amount of the straight life annuity, if any, payable to the Participant under the Plan commencing at the same Annuity Starting Date as the Participant's form of benefit; and (II) the annual amount of the straight life annuity commencing at the same Annuity Starting Date that has the same actuarial present value as the Participant's form of benefit, computed using a five percent (5%) interest rate assumption and the applicable mortality table defined in Section 13.07 for that Annuity Starting Date.

(B) Benefit Forms Subject to Code section 417(e)(3). As a governmental plan there are no benefits subject to Code section 417(e)(3).

(2) "Compensation" shall mean all of a Participant's wages within the meaning of Code section 3401 (a) and all other payments of compensation to an employee by the County for which the County is required to furnish the employee a written statement under Code sections 6041 (d), 6051 (a)(3), and 6052. Compensation shall be determined without regard to any rules under Code section 3401 (a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed, such as the exception for agricultural labor in Code section 3401 (a)(2). However, compensation shall exclude amounts paid or reimbursed by the County for moving expenses incurred by an employee, but only to the extent that at the time of the payment it is reasonable to believe that these amounts are deductible by the employee under Code section 217.

For Limitation Years beginning after December 31, 1991, for purposes of applying the limitations of this section, Compensation for a Limitation Year is the Compensation actually made available during such Limitation Year.

For Limitation Years beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, Compensation for a Limitation Year shall also include Compensation paid by the later of two and one-half (2Yz) months after an employee's severance from employment with the County, or the end of an elected or appointed term as commissioner, or the end of the calendar year that includes the date of the employee's severance from employment, or the end of an elected or appointed term as commissioner with the County, if:

(i) The payment is regular Compensation for services during the employee's regular working hours, or Compensation for services outside the employee's regular working hours, such as overtime or shift differential, commissions, bonuses, or other similar payments, and, absent a severance from employment, the payments would have been paid to the employee while the employee

continued in employment, or service as commissioner, with the County;

(ii) The payment is for unused accrued bona fide sick, vacation or other leave that the employee would have been able to use if employment had continued; or

(iii) The payment is received by the employee pursuant to a nonqualified unfunded deferred compensation plan and would have been paid at the same time if employment had continued, but only to the extent includible in gross income.

Any payments not described above shall not be considered Compensation if paid after severance from employment, or end of term as commissioner, even if they are paid by the later of two and one-half (2Yz) months after the date of severance from employment or the end of the calendar year that includes the date of severance from employment, except, (i) payments to an individual who does not currently perform services for the County by reason of qualified military service, within the meaning of Code section 414(u)(1), to the extent these payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the County rather than entering qualified military service; or (ii) compensation paid to a Participant who is permanently and totally disabled, as defined in Code section 22(e)(3), provided, salary continuation applies to all Participants who are permanently and totally disabled for a fixed or determinable period, or the Participant was not a highly compensated employee, as defined in Code section 414(q), immediately before becoming disabled.

Back pay, within the meaning of Regulation 1.415(c)-2(g)(8) shall be treated as Compensation for the Limitation Year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included under this definition.

For Limitation Years beginning after December 31, 1997, for purposes of applying the limitations of this Section 13.02, compensation paid or made available during such Limitation Year shall include any elective deferral, as defined in Code section 402(g)(3), and any amount which is contributed or deferred by the County at the election of the employee and which is not includible in the gross income of the employee by reason of Code section 125 or Code section 457.

For Limitation Years beginning on and after January 1, 2001, for purposes of applying the limitations of this Section 13.02, Compensation paid or made available during such Limitation Years shall include elective amounts that are not includible in the gross income of the Employee by reason of Code section 132(f)(4).

(3) "County" shall mean the County of Hamilton, Tennessee.

(4) "Defined Benefit Compensation Limitation" As a governmental plan, this Plan is not subject to the one hundred percent (100%) compensation limit of Code section 415(b).

(5) "Defined Benefit Dollar Limitation" shall mean, as of the general effective date of this act, two hundred five thousand dollars (\$205,000), the limit for the 2013 fiscal year, as may be automatically adjusted, effective January 1 of each year, by the Secretary of the Treasury under Code section 415(d) in such manner as the Secretary shall prescribe, and payable in the form of a straight-life annuity. A limitation as adjusted under Code section 415(d) will apply to Limitation Years ending with or within the calendar year for which the adjustment applies, but a Participant's benefits shall not reflect the adjusted limit prior to January 1 of that calendar year. The automatic annual adjustment provided under Code section 415(d) shall apply to Participants who have had a separation from employment.

(6) "Limitation Year" shall mean the Plan Year. All qualified plans maintained by the County shall use the same Limitation Year. If the Limitation Year is amended to a different twelve (12) consecutive month period, then the new Limitation Year shall begin on a date within the Limitation Year in which the amendment is made.

(7) "Maximum Permissible Amount" shall mean the Defined Benefit Dollar Limitation adjusted where required and to the extent applicable pursuant to subsections (A) and (B) below.

(A) Adjustment for Less Than Ten (10) Years of Participation or Service. If the Participant has less than ten (10) Years of Participation in the Plan, the Defined Benefit Dollar Limitation shall be multiplied by a fraction (i) the numerator of which is the number of Years, or part thereof, but not less than one (1) year, of Participation in the Plan, and (ii) the denominator of which is ten (10). This

subsection (A) shall not apply to a distribution made on account of the Participant becoming disabled by reason of personal injuries or sickness or as a result of the Participant's death.

(B) Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement Before Age Sixty-Two (62) or after Age Sixty-Five (65). The Defined Benefit Dollar Limitation shall be adjusted if the Annuity Starting Date of the Participant's benefit is after age sixty-five (65) as follows:

(i) Limitation Years Beginning Before July 1, 2007. If the Annuity Starting Date for the Participant's benefit is after age sixty-five (65), and occurs in a Limitation Year beginning before July 1, 2007, or such later date as may be applicable to a governmental plan, the Defined Benefit Dollar Limitation for the Participant's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Participant's Annuity Starting Date that is the actuarial equivalent of the Defined Benefit Dollar Limitation, adjusted under subsection (7)(A) above for years of participation less than ten (10), if required, with actuarial equivalence computed using whichever of the following produces the smaller amount: (1) the interest rate and the mortality table, or other tabular factor specified in Section 13.07 of the Plan, or (2) a five percent (5%) interest rate assumption and the applicable mortality table defined in Section 13.07 of the Plan.

(ii) Limitation Years Beginning On or After July 1, 2007.

A. Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age Sixty-Five (65) and the Age of Benefit Commencement. If the Annuity Starting Date for the Participant's benefit is after age sixty-five (65) and occurs in a Limitation Year beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, and the Plan does not have an immediately commencing straight life annuity payable at both age sixty-five (65) and the age of benefit commencement, the Defined Benefit Dollar Limitation at the Participant's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Participant's Annuity Starting Date that is the actuarial equivalent of the Defined Benefit Dollar Limitation, adjusted under subsection (7)(A) above for Years of Participation less than ten (10), if required, with actuarial equivalence computed using a five percent (5%) interest rate assumption and the applicable mortality table for that annuity Starting Date as defined in Section 13.07 of the Plan, and expressing the Participant's age based on completed calendar months as of the Annuity Starting Date.

B. Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age Sixty-Five (65) and the Age of Benefit Commencement. If the Annuity Starting Date for the Participant's benefit is after age sixty-five (65) and occurs in a Limitation Year beginning on or after July 1, 2007, or such later date as may be applicable to a governmental plan, and the Plan has an immediately commencing straight life annuity payable at both age sixty-five (65) and the age of benefit commencement, the Defined Benefit Dollar Limitation at the Participant's Annuity Starting Date is the lesser of the limitation determined under subsection (B)(ii)A and the Defined Benefit Dollar Limitation, adjusted under subsection (7)(A) above for Years of Participation less than ten (10), if required, multiplied by the ratio of the annual amount of the adjusted immediately commencing straight life annuity under the Plan at Participant's Annuity Starting Date to the annual amount of the adjusted immediately commencing straight life annuity at age sixty-five (65), both determined without applying the limitations of this Section 13.02. For this purpose, the adjusted immediately commencing straight life annuity under the Plan is the annual

amount of such annuity payable to the Participant, computed disregarding the Participant's accruals after age sixty-five (65) but including actuarial adjustments even if those actuarial adjustments are used to offset accruals; and the adjusted immediately commencing straight life annuity under the Plan at age sixty-five (65) is the annual amount of such annuity that would be payable under the Plan to a hypothetical participant who is age sixty-five (65) and has the same accrued benefit as the Participant.

(iii) Notwithstanding the other requirements of this subsection (7)(B), no adjustment shall be made to the Defined Benefit Dollar Limitation to reflect the probability of a Participant's death between age sixty-five (65) and the Annuity Starting Date, as applicable, since benefits are not forfeited upon the death of the Participant prior to the Annuity Starting Date. To the extent benefits are forfeited upon death before the Annuity Starting Date, such an adjustment shall be made. For this purpose, no forfeiture shall be treated as occurring upon the Participant's death if the Plan does not charge Participants for providing a qualified preretirement survivor annuity, as defined in Code section 417(c) upon the Participant's death.

(C) Minimum benefit permitted. Notwithstanding anything else in this definition to the contrary, the benefit otherwise accrued or payable to a Participant under this Plan shall be deemed not to exceed the Maximum Permissible Benefit if:

(i) The retirement benefits payable for a Limitation Year under any form of benefit with respect to such Participant under this Plan and under all other defined benefit plans, without regard to whether a plan has been terminated, ever maintained by the County do not exceed ten thousand dollars (\$10,000) multiplied by a fraction (I) the numerator of which is the Participant's number of years, or part thereof, but not less than one (1) year, of service, not to exceed ten (10) with the County, and (II) the denominator of which is ten (10); and

(ii) The County has not at any time maintained a defined contribution plan in which the Participant participated. For this purpose, mandatory employee contributions under a defined benefit plan, individual medical accounts under § 401 (h), and accounts for postretirement medical benefits established under § 419A(d)(1) are not considered a separate defined contribution plan.

(8) "Year of Participation" shall mean each accrual computation period, computed to fractional parts of a year, for which the following conditions are met: (i) the Participant is credited with at least the number of hours of service for benefit accrual purposes, required under the terms of the Plan in order to accrue benefit service, and (ii) the Participant is included as a Participant under the eligibility provisions of the Plan for at least one (1) day of the period of benefit service. If these two (2) conditions are met, the portion of a Year of Participation credited to the Participant shall equal the amount of benefit service credited to the Participant for such accrual computation period. A Participant who is permanently and totally disabled within the meaning of Code section 415(c)(3)(C)(i) for an accrual computation period shall receive a Year of Participation with respect to that period. In addition, for a Participant to receive a Year of Participation, or part thereof, for an accrual computation period, the Plan must be established no later than the last day of such accrual computation period. In no event will more than one (1) Year of Participation be credited for any twelve-month period.

(f) Notwithstanding any provision of this Section 13.02, the application of this Section 13.02 shall be subject to such rules as may be prescribed by the Secretary of the Treasury.

SECTION 4. Chapter 689 of the Private Acts of 1937, as amended by Chapter 242 of the Private Acts of 1945, Chapter 134 of the Private Acts of 1949, Chapter 186 of the Private Acts of 1951, Chapter 110 of the Private Acts of 1953, Chapter 111 of the Private Acts of 1953, Chapter 149 of the Private Acts of 1957, Chapter 148 of the Private Acts of 1957, Chapter 361 of the Private Acts of 1961, Chapter 146 of the Private Acts of 1963, Chapter 147 of the Private Acts of 1963, Chapter 399 of the Private Acts of 1972, Chapter 320 of the Private Acts of 1978, Chapter 136 of the Private Acts of 1981, Chapter 69 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by deleting Section 13.03 in its entirety and substituting instead the following:

13.03. Limitation on Earnings.

(a) For purposes of computing any benefit under the Plan or any contribution made to the Plan, there shall be a limit on the amount of compensation that may be considered in any Plan Year for any Participant. The limit shall be the amount specified in this Section 13.03, as described below.

(b) For Plan Years beginning after December 31, 2001, the Annual compensation of each Participant taken into account in determining benefit accruals in any Plan Year shall not exceed two hundred thousand dollars (\$200,000), as may be adjusted as set forth below. Annual compensation means compensation during the Plan Year or such other consecutive twelve-month period over which compensation is otherwise determined under the Plan, known as the determination period. The two hundred thousand dollar (\$200,000) limit on annual compensation in this subsection (b) shall be adjusted for cost-of-living increases in accordance with Code section 401 (a)(17)(B). The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year.

SECTION 5. Chapter 689 of the Private Acts of 1937, as amended by Chapter 242 of the Private Acts of 1945, Chapter 134 of the Private Acts of 1949, Chapter 186 of the Private Acts of 1951, Chapter 110 of the Private Acts of 1953, Chapter 111 of the Private Acts of 1953, Chapter 149 of the Private Acts of 1957, Chapter 148 of the Private Acts of 1957, Chapter 361 of the Private Acts of 1961, Chapter 146 of the Private Acts of 1963, Chapter 147 of the Private Acts of 1963, Chapter 399 of the Private Acts of 1972, Chapter 320 of the Private Acts of 1978, Chapter 136 of the Private Acts of 1981, Chapter 69 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by deleting Section 13.05 in its entirety and substituting instead the following:

13.05 Right to Direct Rollover. This Section 13.05 applies to distributions made on or after January 1, 2002. Notwithstanding any provision of the Plan to the contrary that would otherwise limit a distributee's election under this Section 13.05, a distributee may elect, at the time and in the manner prescribed by the Pension Commission, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(a) Eligible rollover distribution: An "eligible rollover distribution" is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one (1) of a series of substantially equal periodic payments, not less frequently than annually, made for the life, or life expectancy, of the distributee or the joint lives, or joint life expectancies of the distributee and the distributee's designated beneficiary, or for a specified period of ten (10) years or more; any distribution to the extent such distribution is required under Code section 401 (a)(9); and the portion of any distribution that is not includible in gross income, determined without regard to the exclusion for net unrealized appreciation with respect to employer securities.

(b) Eligible retirement plan: An "eligible retirement plan" is any of the following arrangements that accepts the distributee's eligible rollover distribution:

- (1) An individual retirement account described in Code section 408(a);
- (2) An individual retirement annuity described in Code section 408(b);
- (3) An annuity plan described in Code section 403(a);
- (4) A qualified trust described in Code section 401 (a);
- (5) An annuity contract described in Code section 403(b);
- (6) An eligible plan under Code section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan; and
- (7) For distributions made after December 31, 2007, a Roth IRA described in Code section 408A(b).

A portion of a distribution shall not fail to be an "eligible rollover distribution" merely because the portion consists of after-tax Participant contributions which are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in Code section 408(a) or (b), or to a qualified defined contribution plan described in Code Section 401 (a) or to an annuity contract described in Code section 403(b) that agrees to separately account for amounts so transferred including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible.

The definition of "eligible retirement plan" shall also apply in the case of a distribution to a

surviving Spouse, or to a Spouse or former Spouse who is the alternate payee under a domestic relations order accepted by the Pension Commission.

(c) Distributee: A "distributee" includes an employee or former employee eligible for benefits under the Plan. In addition, the employee's or former employee's surviving Spouse and the employee's or former employee's Spouse or former Spouse who is the alternate payee under a domestic relations order accepted by the Pension Commission, are distributees with regard to the interest of the Spouse or former Spouse.

Effective for distributions made after December 31, 2010, a "distributee" also includes a Participant's nonspouse beneficiary. However, in the case of a nonspouse beneficiary, the rollover must be a direct rollover and only can be made to an individual retirement account or annuity describe in Code section 408(a) or 408(b) ("IRA") that is established on behalf of the beneficiary and will be treated as an inherited IRA pursuant to Code section 402(c)(ii). Also, in the case of a nonspouse beneficiary, the determination of any required minimum distribution under Code section 401 (a)(9) that is ineligible for rollover shall be made in accordance with IRS Notice 2007-7, Q&A 17 and 18. If such distribution is made prior to January 1, 2010, it is not subject to the direct rollover requirements of Code section 401 (a)(31), the notice requirements of Code section 402(f) or the mandatory withholding requirements of Code section 3405(c). If a nonspouse beneficiary receives a distribution from the Plan, the distribution is not eligible for a sixty-day (nondirect) rollover.

If the Participant's named beneficiary is a trust, the Plan may make a direct rollover to an IRA on behalf of the trust, provided the trust satisfies the requirements to be a designated beneficiary with the meaning of Code section 401 (a)(9)(E).

(d) Direct rollover: A direct rollover is a payment by the Plan to an eligible retirement plan specified by the distributee and as allowed by law.

SECTION 6. Chapter 689 of the Private Acts of 1937, as amended by Chapter 242 of the Private Acts of 1945, Chapter 134 of the Private Acts of 1949, Chapter 186 of the Private Acts of 1951, Chapter 110 of the Private Acts of 1953, Chapter 111 of the Private Acts of 1953, Chapter 149 of the Private Acts of 1957, Chapter 148 of the Private Acts of 1957, Chapter 361 of the Private Acts of 1961, Chapter 146 of the Private Acts of 1963, Chapter 147 of the Private Acts of 1963, Chapter 399 of the Private Acts of 1972, Chapter 320 of the Private Acts of 1978, Chapter 136 of the Private Acts of 1981, Chapter 69 of the Private Acts of 2004, and any other acts amendatory thereto, is amended by deleting Section 13.07 in its entirety and substituting instead the following:

13.07 Actuarial Equivalent.

(a) Effective July 1, 2002, "actuarial equivalent" shall mean a benefit of equivalent value on the basis of a seven and one-half percent (7.5%) interest rate, the RP-2000 Mortality Table for Employees (Male) for Members, and the RP-2000 Mortality Table for Employees (Female) for Beneficiaries.

(b) Notwithstanding the foregoing, the mortality table and the interest rate for the purposes of determining the actuarial equivalent of the limitation on benefits described in Section 13.02 shall be the "applicable mortality table" and the "applicable interest rate" described below:

(1) For Plan Years beginning before January 1, 2008, the "applicable interest rate" is the rate of interest on thirty-year Treasury securities determined as of the "lookback month" for the "stability period", as explained in Subsection (3) below. For Plan Years beginning on or after January 1, 2008, the applicable interest rate is the adjusted first, second, and third segment rates described in Code Section 417(e) (3), as specified by the Commissioner of the Internal Revenue Service, for the lookback month preceding the stability period. For this purpose, the segment rates are the spot segment rates that would be determined for the applicable month under Code section 430(h)(2)(D), and determined without regard to the adjustment for the twenty-five-year average segment rates provided in Code Section 430(h)(2)(C)(iv).

(2) For Plan Years beginning before January 1, 2009, the "applicable mortality table" is the table set forth in Rev. Ruling 2001-62. For Plan Years beginning on or after January 1, 2009, the applicable mortality tables are set forth in Regulation 1.430(h)(3)-1 and Internal Revenue Service Notice 2008-85.

(3) For purposes of Section 13.07(b), the "stability period" is the plan year in which the Participant's Annuity Starting Date occurs, and the "lookback month" is the first full calendar month prior to the first day of the stability period.

(c) Notwithstanding the foregoing, except as provided in the Regulations, if a Plan amendment, including amendments made by this act, changes the time for determining the "applicable interest rate", including

an indirect change as a result of a change in the Plan Year, any distribution for which the Annuity Starting Date occurs in the one-year period commencing at the time the Plan amendment is effective, if the amendment is effective on or after the adoption date, must use the interest rate as provided under the terms of the Plan after the effective date of the amendment, determined at either the date for determining the interest rate before the amendment or the date for determining the interest rate after the amendment, whichever results in the larger distribution. If the Plan amendment is adopted retroactively, that is, the amendment is effective prior to the adoption date, the Plan must use the interest rate determination date resulting in the larger distribution for the period beginning with the effective date and ending one (1) year after the adoption date.

SECTION 7. This act shall have no effect unless it is approved by a two-thirds (2/3) vote of the legislative body of Hamilton County. Its approval or rejection shall be proclaimed by the presiding officer of the legislative body and certified to the Secretary of State.

SECTION 8. For the purpose of approving or rejecting the provisions of this act, it shall be effective upon becoming a law, the public welfare requiring it. For all other purposes, it shall become effective upon being approved as provided in Section 7.

Passed May 13, 2014.

Education/Schools - Historical Notes

Board of Education

The following acts once affected the board of education in Hamilton County but are no longer operative. Also referenced below is an act which repealed prior law without providing new substantive provisions.

Private Acts of 1927, Chapter 387, created the office of chairman of the county board of education, to be appointed by the county judge; his salary was to be \$3,000 yearly, and he was to devote full time to the duties of the office as outlined in the Act. This act was repealed by Private Acts of 1929, Chapter 72, published herein, which was identical to this act except the quarterly county court, rather than the county judge, appointed the chairman.

Private Acts of 1978, Chapter 245, directed the election commissioners to hold a referendum election on the following three issues: (1) to retain the present method of appointment of members of the county school board and the superintendent of county schools by the quarterly county court of Hamilton County; (2) to elect the members of the board and the county superintendent of schools by popular vote; or, (3) to elect the members of the school board by popular vote, abolish the office of school superintendent, and provide for a school administrator to be appointed by the school board.

Private Acts of 1992, Chapter 235, divided Hamilton County into school districts which were to be coextensive with the county commissioner districts established by the county legislative body of Hamilton County and provided that the Hamilton County Board of Education would consist of the same number of members as the number of county commissioner districts in Hamilton County. This act was repealed by Private Acts of 2020, Chapter 50, published herein, which increased the membership of the Hamilton County board of education from nine members to 11 members.

Superintendent or Director of Schools

The acts referenced below once affected the office of superintendent of education in Hamilton County, but are no longer operative.

1. Public Acts of 1895, Chapter 155, prohibited the county superintendents of public instruction in counties exceeding 30,000 inhabitants (no particular census designated) from teaching in any public school, nor could they make any contract for building or repairing school property, or become the owner of any school warrant other than the one allowed as superintendent.
2. Public Acts of 1899, Chapter 326, authorized and empowered the school directors of the twenty-seventh school district of the seventh civil district of Hamilton County to sell and convey the grounds and buildings in said district known as Harrison Academy.
3. Acts of 1901, Chapter 484, amended Chapter 326, above, so that the school directors would be compelled to pay any funds, undisbursed and left in their hands after improvements were made, into the common school funds of the county.
4. Private Acts of 1943, Chapter 332, states that in counties between 180,478 and 180,500, census of 1940, or later, despite any general act fixing such terms at a different length, the term of the county superintendent of education was to be two years, computed from the date of his qualification. This statute was ruled unconstitutional by the chancellor, which ruling was reversed by the Supreme Court in Clark v. Smith, 193 Tenn. 194, 245 S.W.2d 197 (1951). The Private Acts 1943, Chapter 332, was repealed by Private Acts of 1988, Chapter 177.

5. Private Acts of 1955, Chapter 31, abolished the office of county superintendent of public instruction and established the position of director of schools, subject to a referendum. The referendum produced a favorable vote but this act was declared to be unconstitutional on two grounds by the supreme court in the case of Cagle v. McCanless, 199 Tenn. 128, 285 S.W.2d 118 (1955).
6. Private Acts of 1988, Chapter 177, set the next election of the superintendent of public instruction by the county legislative body of Hamilton County to be held on or before June 1, 1988 and quadrennially thereafter. The term was for four (4) years and commence on January 15 following the election of the superintendent. This act has been superseded by general law enacted in 1992. Popularly elected school superintendents have been replaced by directors of schools appointed by the school board pursuant to T.C.A. §§ 49-2-203 and 49-2-301.

General Reference

The following acts constitute part of the administrative and political heritage of the educational structure of Hamilton County but are no longer operative since they have either been superseded, repealed, or failed to receive local approval. Whiteside, of Hamilton County, as agent for the school lands and authorized him to demand damages from the State of Georgia for the right-of-way granted to the Western and Atlantic Railroad which passed through some of the school properties. The damages received were to be paid over to the school commissioners. The agent was to receive a 6% commission for his services.
4. Acts of 1847-48, Chapter 104, named H. W. VanAldenhoff as president, and Robert M. Hook, William A. Anderson, Allen Kennedy, Milo Smith, Thomas McCallie, James A. Whiteside, John P. Long and John G. Glass as Trustees of the Chattanooga Seminary, with all the usual corporate powers being granted to them as a non-profit educational institution.

7. Acts of 1907, Chapter 530, changed the line between the third and twenty-first school districts of Hamilton County such that all that part of the third school district not included within the corporate limits of the taxing district of Hill City was attached to and constituted a part of the twenty-first school district.

county trustee; and, all requests for supplies were to be given to the purchasing agent after having been approved by the county superintendent of schools.

11. Private Acts of 1931, Chapter 554, also amended Public Acts of 1925, Chapter 115, by exempting counties with population of not less than 158,000 nor more than 160,000, according to the Federal Census of 1930, or later, from the provisions of the last three paragraphs of Section 19 relating to the enumeration of the school census, thus making it unnecessary to be taken in Hamilton County.
12. Private Acts of 1935, Chapter 620, authorized county boards of education in counties of population not less than 159,000 nor more than 200,000, according to the Federal Census of 1930, or later, to employ teachers, supervisors, and principals of schools, and the minimum salaries to be paid were not to be less than that provided in the schedule set out in the act in Section 2. This act was amended by Private Acts of 1935 (Ex. Sess.), Chapter 82, and both statutes were declared unconstitutional by the Tennessee Supreme Court in the case of State v. Hamilton County, 170 Tenn. 371, 95 S.W.2d 618 (1936), on the ground that the act placed a burden on Hamilton County which was not placed on any other county of the state.

The board was also responsible for payment to all employees of any educational system of the county who had been retired on a pension prior to the passing of this act and were receiving a pension of \$100 or less per month. Their pensions were to be supplemented such that any retired employee was to receive not less than \$125 per month, as specified in the amending act found in Private Acts of 1963, Chapter 146. The funds for the supplemental pensions were to be appropriated from the Hamilton County general fund. This act was repealed and superseded by Private Acts of 1981, Chapter 136.
15. Private Acts of 1978, Chapter 229, would have allowed the Hamilton County school system to employ a purchasing agent to obtain food, materials and other supplies, but the act was not acted on by local authorities and therefore did not become effective.
16. Private Acts of 1998, Chapter 109, amended Private Acts of 1937, Chapter 689, transferring duties and responsibilities of the Pension Commission to the Trustee of Hamilton County. This act did not receive local approval.
