WHEREAS, By the provisions of the said Act the Board of Commissioners of the City of Memphis were authorized and empowered by ordinance to prevent the exhibition of immoral, lewd, or lascivious pictures, acts, performances, representations, plays, or pantomimes, subversive of the morals of such city. It was also authorized by ordinance to prevent plays, pictures, pantomimes, or their representations or performances inimical to public safety, health, morals and welfare, and likewise performances, representations, pictures or plays denouncing, deriding or seeking to overthrow the present form of National Government. This power was not extended, however, to prevent the private exhibition of any picture, plays, pantomimes or representations for purely scientific or educational purposes, nor those exhibited by any recognized school, college, seminary, or other educational institution as part of its educational work.

AND WHEREAS, the General Assembly is advised and finds that the presently authorized exercise of the police power of the State and that delegated to the Cities of the population and qualifications set out in Chapter 54 of the Private Acts of 1921, is inadequate to protect and safeguard the public health, safety, morals and welfare of residents residing in the County, but residing outside the City or Cities included in the population class aforesaid;

AND WHEREAS, it is therefore now desired to extend the rights of censorship by a properly appointed Board to the entire area of the County of Shelby outside the corporate limits of the City of Memphis;

SECTION 2. That the Quarterly County Court, in Counties having a population of 350,000 or more by the Federal Census of 1940, or any subsequent Federal Census, be authorized and empowered to elect and appoint a Board of three members and to prescribe by proper resolution of the Quarterly County Court the duties, qualifications, terms of office and compensation of the members of said Board, to give them the power to censor, supervise and regulate public exhibitions, plays, motion pictures, performances, pantomimes, and other representations in any portion of a County having a population as above set out, which is outside the corporate limits of any Municipality having a population in excess of 290,000 by the Federal Census of 1940, or any subsequent Federal Census.

The said Quarterly County Court shall likewise have power by proper resolution to provide penalties for the failure of a proprietor, operator, actor, designer, manager or other person participating in, having control of, or any financial interest in, any such public performance for refusal or failure to obey and lawful order of the said County Board of Censors.

SECTION 3. That the Quarterly County Court shall likewise have power by proper resolution to provide for the suspension of any play, performance or public exhibition for failure on the part of any proprietor, operator, actor, designer, manager, or other person participating in, having control of, or any financial

interest in any such public performance, to obey any lawful order of the County Board of Censors, and shall also have power by resolution to provide for the closing of any theatre, hall, opera house, or place, within which any act, play, performance, representation, pantomime, or other public exhibition is given or sought to be given in violation of any of the provisions of any resolution passed pursuant to the authority of this Act, or under any police power of the County, or for failure of any person connected with such performance to obey any lawful order of the said County Board of Censors.

SECTION 4. That the Quarterly County Court is authorized to elect or appoint at its discretion as members of the said County Board of Censors, any individual or individuals who may now or then be acting upon the Board of Censors of the City of Memphis, but is shall not be obligatory, the election of the said Board to be left entirely and solely in the discretion of the Quarterly County Court.

The term of office and compensation, if any, of the said County Board of Censors shall also be fixed by proper resolution and the said Quarterly County Court is authorized to make any necessary appropriations for carrying out of the provisions of this Act.

SECTION 5. That this County Board of Censors shall have no jurisdiction in any part of the County of Shelby which is comprised within the corporate limits of the City of Memphis.

SECTION 6. That if any section or part of this Act for any reason be declared unconstitutional or invalid, the same shall not render invalid the other sections or portions of the Act, but same shall remain in full force and effect.

SECTION 7. That this Act take effect from and after its passage, the public welfare requiring it.

Passed: February 25, 1947.

SECTION 8. Any one county, individually, or in combination with one or more counties, may undertake works of improvements as provided for in this act with the Authority and the state, if such works are not in conflict with the basin-wide plans for control of water. However, prior to participation in such programs the Quarterly County Courts of Shelby and Tipton counties shall express their desire to participate in the programs, by means of a resolution to that effect, passed by each or all of the respective local legislative bodies of the counties involved. The resolution shall be approved by a two-thirds ($\frac{2}{3}$) vote of such legislative bodies within one hundred twenty (120) days of the date this act becomes effective.

Any county to which this act applies which has elected or elects to participate in the programs authorized by the act may withdraw from participation therein by resolution to that effect adopted by a two-thirds ($\frac{2}{3}$) vote of the Quarterly County Court of such county. However, such withdrawal shall not relieve such county of any of then existing obligation on account of bonds or other evidence of indebtedness incurred by such county on account of its participation in the programs of the authority and such obligation shall continue until discharged by the county.

As amended by:

Public Acts of 1976, Chapter 847

In granting its approval the board shall consider this intent as well as the size of the department in question. (b) The classified service shall comprise all offices and positions of employment for the county not specifically included in the unclassified service.

Such classification plan will contain description of the duties and responsibilities of each individual office or position. Each office or position shall be assigned to an appropriate class of positions, each class consisting of those offices or positions which have the same or reasonably similar duties and responsibilities. Written specifications will be given to each class and must include the title of the class; a general description of the duties and responsibilities of the offices and positions within the class; the minimum requirements of education, training, experience, licensing or certification, and any other qualifications necessary to hold an office or position within the class. As far as practicable, the lines of promotion to and from each class should be included in the classification plan.

Under the provisions of this Section, a class may be comprised of a single office or position.

SECTION 11. SCHEDULE OF COMPENSATION. For each class of positions established in the classification plan, a study shall be made of the rates paid for similar services elsewhere and of other information pertaining to proper rates of compensation and a schedule of compensation will accordingly be established. Such schedules shall show for each class a minimum salary rate, a maximum salary rate and such intermediate rate or rates as is equitable and proper.

The financial condition of the county and the personnel policies of the county, in addition to other relevant factors, will be taken into consideration in the assignment of a minimum and maximum rate for each class of position.

SECTION 13. APPLICATION FORMS. For all examinations, the minimum performance or requirements on which eligibility is attained shall be established by the Administrator of Personnel. A minimum qualifying grade shall be established for each exam segment or the combined ratings of the several parts of the examination.

Any applicant for original appointment into the system achieving at least a minimum passing score on the competitive examination process, who shall have received an honorable discharge from any branch of the Arms Forces of the United States and who served in time of war or National Emergency as declared by the President of the United States, shall be entitled to receive a bonus of additional points, the number of which to be determined by the Board, which shall be added to his competitive examination score.

As amended by: Private Acts of 1977, Chapter 128

SECTION 15. ELIGIBILITY LISTS. Certificates of eligibles drawn from these lists shall be provided, as required, to the appointing authorities for the filling

of vacancies in accord with the provisions of this Act.

As amended by: Private Acts of 1977, Chapter 128

SECTION 16. APPOINTMENT; PROBATIONARY PERIOD. Whenever a position in the classified service is to be filled, the appropriate appointing authority shall so notify the Secretary. The Secretary shall forward to the appointing authority a certificate of eligibles drawn from the applicants eligible for the class or grade to which such position belongs, and the appointing authority shall forthwith appoint to such position one of such persons whose name appears on the certificate. Such appointment shall be for a probationary period of six months, commencing with the first working day. During the probationary period, the newly appointed employee may be dismissed with or without cause, and such dismissed employee shall have no recourse as is otherwise provided in Section 23 of this Act. Upon application of the appointing authority, the board may extend the probationary period for any newly appointed employee for a period not to exceed an additional three months. As amended by: Private Acts of 1977, Chapter 128

SECTION 17. EXTRAORDINARY AND EMERGENCY APPOINTMENTS. Notwithstanding the provisions of this Act, in order to prevent the stoppage of business or to meet extraordinary conditions or emergencies, an appointing authority may appoint any individual to a classified position for a period not to exceed 90 days and only until regular appointment can be made under the provisions of this Act.

SECTION 18. PROVISIONAL APPOINTMENTS. Should there arise an urgent or pressing need for filling a vacancy in any position in the classified service and the Secretary be unable to provide the appropriate appointing authority with the name of an applicant eligible for the vacancy, the appointing authority may provisionally appoint an individual to fill the vacancy. Such provisional appointment shall continue only until an appropriate eligible list can be established and submitted to the appointing authority, but in no event for more than 90 days. When, in the opinion of an appointing authority, there arises the urgent or pressing need for a new permanent position in his office or department not contemplated in the existing classification plan, he may provisionally appoint an individual to fill such position. Such provisional appointment shall continue only until the classification plan can be amended to include such position, if same is found to be necessary or desirable, and regular appointment can be made under the provisions of this Act. Immediately following such provisional appointment, the necessity or desirability of inclusion of such position within the system shall be studied and determined. In no event shall such provisional appointment exceed 90 days.

SECTION 19. PROMOTION. Vacancies occurring in the classified service may be filled by the promotion of those officers and employees of a lesser class of position within the system who are otherwise qualified for the position and certified as eligible by the Secretary. In filling any vacancy arising in an office or department, an appointing authority may restrict his consideration of applicants to those individuals presently in the classified service, provided that the names of applicants considered have been certified as eligible for promotion by the Secretary. Following a promotional appointment, the promoted employee shall serve a three months probationary period in that position, at the successful completion of which the promotion shall be deemed complete. Should the appointing authority determine that the service of an employee in a position to which he was promoted is unsatisfactory within the three months probationary period, he shall reinstate the employee to the position which he occupied immediately prior to the promotion.

Should the promotion of any employee result in his exclusion from the classified service, he shall thereafter be entitled to reinstatement in the system at the same or equivalent position which he held immediately prior to said promotion, upon 30 days notice to the board of his desire to be reinstated in the system.

Employees who have not completed original appointment probation, including extended original appointment probation, or who are on disciplinary probation or suspension, shall not apply for positions posted as closed promotion positions.

The rating system shall be so designated as to give a fair evaluation of the quality and quantity of the employee's work performed. The service rating for the individual employee will be based on periodic reports of the appointing authority and made on no less than an annual basis. No employee will be eligible for a promotion in rank or compensation who does not maintain a satisfactory service rating. An unsatisfactory service rating may be a basis for disciplinary action to be taken against the employee.

SECTION 21. APPOINTMENTS PERMANENT. Except as otherwise provided in this Act, no employee in the

classified service who is not a durational employee and who shall have successfully completed the prescribed period of probation and therefore have been permanently appointed or inducted into the system under the provisions of this Act, shall be dismissed, suspended, demoted or subjected to other discipline, except for cause.

As amended by: Private Acts of 1977, Chapter 128

SECTION 22. DISCIPLINARY ACTION. For unsatisfactory performance of duties or other just cause, an employee in the classified service may be subject to the following discipline by the appointing authority:

Such order shall be signed by the appointing authority and directed to the individual employees involved and a copy thereof directed to the Secretary for inclusion in a permanent service record to be maintained for each employee in the system. Any employee so disciplined may respond, by directing a reply in writing to the Secretary within seven days of receipt of the order of discipline with a copy of such reply to the appointing authority. Such reply of the employee shall be maintained in his permanent service record.

Any employee demoted in rank or compensation, suspended without pay for a period exceeding 10 days, or dismissed, may, within seven days after service of the order of demotion, suspension or dismissal as hereinabove provided, appeal to the board.

Immediately upon service of any order of demotion in rank or compensation, employee shall assume the rank or rate of compensation to which he was demoted.

The board shall, within 30 days from the filing of said appeal, commence a hearing thereon, and shall thereupon fully hear and determine the matter and shall either affirm, modify or revoke such order of discipline. A hearing may be postponed or continued upon written request of the employee and/or written or oral request of the employee's attorney. The appellant shall be entitled to appear personally, produce evidence, and to have counsel and to a public hearing. The finding and decision of the board shall be certified to the appointing authority from whose order the appeal is taken, and shall forthwith be enforced and followed by him, but no such demotion in rank or compensation, suspension or dismissal, if appealed to the board, shall be considered final until the finding and decision of the board shall be so certified. SECTION 25. LAYOFF. Notwithstanding the other provisions of this Act, in the event that conditions in any department or office of the county or the financial condition of the county necessitates a reduction in the work force, the required reduction shall be made in such class or classes as the appointing authority designates. Favorable consideration must, however, be given toward retention of those employees in the highest class of positions. If necessary to achieve their retention, employees may be temporarily demoted to a lower class of position. The determination as to which employees within a particular class are to be laid off rests with the sound discretion of the appointing authority and will be based on such considerations as service ratings, seniority and other relevant factors. Any employee laid off or temporarily demoted to a lower class of position under this section shall be given priority over other applicants to reinstatement to his former position or to a comparable position in the system.

SECTION 26. DISCRIMINATION PROHIBITED. All appointment and promotion in the system, except as otherwise provided under the provisions of this Act, shall be on the basis of competitive examination, and

no person in the system or seeking admission thereto, shall be appointed, disciplined or dismissed, or in any way favored or discriminated against because of his political affiliation, sex, race, color, creed, age or religious belief. The legislative body shall appoint five (5) citizen members of such commission who shall be residents of said County, and whose term of office shall be three (3) years, except that the respective terms of the five (5) citizen members first appointed shall be respectively one for one (1) years (year*), two for two (2) years, and two for three (3) years. Said appointive members shall hold no other public office or position except that any of them may be an appointive member of the municipal, regional, state or other planning commission. All members of the County planning commission shall serve as such without compensation, and shall hold office until their successors are duly appointed and qualified. Any appointive member may be removed for cause by the legislative body of the County, after due notice of charges filed in writing, and after a public hearing. Any vacancy in appointive membership shall be filled by the legislative body for the unexpired term.

SECTION 2. County Planning Commission: Organization, Rules, Staff, and Finances.--

The County Planning Commission shall elect from amongst the appointive members a Chairman, whose term shall be for one year with eligibility for reelection, and the commission may create and fill such other offices as it may determine. It shall have the power and authority to appoint such employees and staff as it may deem necessary for its work, and may contract with planners and other consultants for such services as it may require. The expenditures of the commission, exclusive of gifts, shall be within the amounts appropriated for the purpose by the County Commissioners. Upon request of the commission, the County Commissioners or other County Officials or the Chief Executive officer of any municipality may from time to time, for the purpose of special surveys under the direction of the planning commission, assign or detail to the commission any members of staffs of County or municipal administrative departments, or may direct any such department to make for the commission special surveys or studies requested by the commission.

SECTION 3. County Master Plan.--It shall be the function and duty of the County Planning Commission to make and adopt a master plan for the physical development of the unincorporated territory of the County. Any such plan may include the planning of incorporated areas to the extent to which, in the commission's judgment, they are related to the planning of the unincorporated territory or of the County as a whole; provided, however, that the plan shall not be deemed an official plan or part of the official plan of any municipality unless adopted by the municipal planning commission thereof. The master plan of the County, with the accompanying maps, plats, charts and descriptive and explanatory matters, shall show the County planning Commission's recommendations for the development of the territory covered by the plan, and may include, amongst other things, the general location, character, and extent of streets or roads, viaducts, bridges, waterway and water-front developments, parkways, playgrounds, forests, reservations, parks, airports, and other public ways, grounds, places, and spaces; the general location and extent of public utilities and terminals, whether publicly or privately owned, for water, light, power, sanitation, transportation, communication, heat, and other purposes; the acceptance, widening, removal, extension, relocation, narrowing, vacation, abandonment, or change of use of any of the foregoing public ways, grounds, places, spaces, buildings, properties, utilities, or terminals; the general character, location, and extent of community centers, town sites, or housing developments; the general location and extent of forests, agricultural areas, and open-development areas for purposes of conservation, food and water supply, sanitary and drainage facilities, or the protection of urban development; a landclassification and utilization program; and a zoning plan for the regulation of the height, area, bulk, location, and uses of buildings, the distribution of population, and the uses of land for trade, industry, habitation, recreation, agriculture, forestry, soil and water conservation, and other purposes.

In addition to such features of the County plan as may come wholly or partially within County jurisdiction the planning commission may incorporate in its master plan similar elements of the plan existed and proposed within municipal and State jurisdiction as have or are likely to bear an important relation to the above County. Such master plan shall be a public record, but its purpose and effect shall be solely as an aid to the planning commission in the performance of its duties.

SECTION 4. General Purposes of the Plan.--In the preparation of the County master plan the County planning commission shall make careful and comprehensive surveys and studies of the existing conditions and probable future growth of the territory within its jurisdiction. The County master plan shall be made

with the general purpose of guiding and accomplishing a coordinated, adjusted, and harmonious development of the County which will, in accordance with present and future needs and resources, best promote the health, safety, morals, order, convenience, prosperity, or the general welfare of the inhabitants, as well as efficiency and economy in the process of development, including, amongst other things, such distribution of population and of the uses of land for urbanization, trade, industry, habitation, recreation, agriculture, forestry, and other purposes, as will tend to create conditions favorable to health, safety, transportation, prosperity, civic activities, and recreational, educational, and cultural opportunities; will tend to reduce the wastes of physical, financial, or human resources which result from either excessive congestion or excessive scattering of population; and will tend toward an efficient and economic utilization, conservation, and production of the supply of food and water, and of drainage, sanitary, and other facilities and resources.

SECTION 5. Adoption of Master Plan.--The County planning commission may adopt the County master plan as a whole by a single resolution, or, as the work of making the whole master plan progresses, may from time to time adopt a part or parts thereof, any such part to correspond generally with one or more of the functional subdivisions of the subject matter which may be included in the plan. *Provided, however,* that the planning commission may report to the legislative body parts of the master plan not embracing the entire area of the County where the public health, safety and welfare may require the adoption of a master plan for such limited unincorporated areas before the completion of the master plan for all unincorporated areas within the County. The commission may from time to time amend, extend, or add to the plan, or carry any part of it into greater detail. The adoption of the plan or any part, amendment, extension, or addition shall be by resolution carried by the affirmative votes of not less than a majority of the entire membership of the commission. The resolution shall refer expressly to the maps and descriptive matter intended by the commission to form the whole or part of the plan, and the action taken shall be recorded on the map or maps and descriptive matter by the identifying signature of the secretary of the commission.

SECTION 6. Certification of Plan to Counties and Municipalities and Subsequent Adoption by Municipalities.--The County planning commission shall certify a copy of its master plan or any adopted part or amendment thereof or addition thereto to the legislative body of the County. The County planning commission shall certify such copies to the planning commissions of all municipalities within the County. Any municipal planning commission which receives any such certification may adopt so much of the plan, part, amendment, or addition as falls within the territory of the municipality as a part or amendment of or addition to the master plan of the municipality, and when so adopted, it shall have the same force and effect as though made and prepared, as well as adopted, by such municipal planning commission.

SECTION 7. Miscellaneous Powers of the Commission.--It shall be the further duty of a County planning commission to promote the cooperation of the planning commissions of municipalities within the County and the co-ordination of the plans of such municipalities and the co-ordination of such plans with the County plan, and generally to confer with and advise municipal and County executive and legislative officials for the purpose of promoting a coordinated and adjusted development of the County. Any such commission may also advise County commissioners or other County bodies or officers with respect to the formulation of public improvement programs and the financing thereof.

All public officials shall, upon request, furnish to the commission, within a reasonable time, such available information as it may require for its work. The members and employees of the commission, in the performance of its functions, may enter upon any land and make examinations and surveys and place and maintain necessary monuments and marks thereon. In general, the commission shall have such powers as may be necessary for it to perform its functions and to promote county planning.

SECTION 8. Legal Status of Plan.--Whenever any County planning commission shall have adopted a master plan of the County or any part thereof, then and thenceforth no road, park, or other public way, ground, or space, no public building or structure, or no public utility, whether publicly or privately owned, shall be constructed or authorized in the unincorporated territory of the County until and unless the proposed location and extent thereof shall have been submitted to and approved by such County planning commission; provided, however, that in case of disapproval, the commission shall communicate its reasons to the legislative body or other board or commission of the County in which the public way, ground, space, building, structure, or utility is proposed to be located; and such board shall have the power to overrule such disapproval by a vote of not less than two thirds of its entire membership, and upon such overruling said board or other official in charge of the proposed construction or authorization may proceed therewith; *provided further, however,* that if the public way, ground, space, building, structure, or utility be one the authorization or financing of which does not, under the law governing the same, fall within the province of the legislative body or other county official or board then the submission to the commission shall be by the body or official having such jurisdiction, and the commission's disapproval may be overruled by said body by a vote of not less than two thirds of its entire membership

or by said official. The acceptance, widening, removal, extension, relocation, narrowing, vacation, abandonment, change of use, acquisition of land for, or sale or lease of any road, park, or other public way, ground, place, property, or structure shall be subject to similar submission and approval, and the failure to approve may be similarly overruled. The failure of the commission to act within thirty days from and after the date of official submission to it shall be deemed approval, unless a longer period by granted by the submitting board, body, or official.

SECTION 9. Official Map, and Amendment of Same.--The legislative body of any County is hereby empowered, after receiving the advice of the County planning commission, to adopt and establish an official map of the County showing the highways, freeways, parks, parkways, and sites for public building or works, including subsurface facilities, in the acquisition, financing, or construction of which the county has participated or may be called upon to participate. After the adoption and establishment of such map, as often as such legislative body may deem it for the public interest, such body may change or add to such map or any part thereof. Such map is established to conserve and promote the public health, safety, convenience, or welfare. Before acting thereon in the first instance, and before adopting any amendments thereto, such legislative body, after notice of time and place has been given by one publication not less than seven (7) days before the meeting at which action is to be taken, in a newspaper of general circulation in the county, and after written notice to the official bodies and departments enumerated hereinunder, shall hold a public hearing thereon at which representatives of the County planning commission, the County departments, the municipalities in the County, property owners, and others interested therein shall be heard. Before holding any such public hearing, such legislative body shall submit such proposed change or addition to the County planning commission for its consideration and advice, and shall fix a reasonable time, not, however, less than twenty days, when such county planning commission may report thereon. Upon receipt of such advisory report from the County planning commission, or upon the failure of such commission to report within the time limit so fixed, such legislative body may thereupon act upon the proposed change or addition, but any action adverse to the report of the county planning commission shall require the affirmative recorded vote of the majority of all the members of such legislative body. When approved in whole or in part by the legislative body of any county, such county official map or part thereof, including any such change or addition, shall be deemed to be binding upon the legislative body of the county and the several county departments thereof, and no expenditure of public funds by such county for construction work, or the acquisition of land for any purpose enumerated in section three, shall be made except in accordance with such official map.

Changes in and amendments to the official map may be initiated by the county planning commission and if such changes or amendments be approved by an affirmative recorded vote of the majority of all the members of such commission it shall have the power to fix the time of the public hearing before the legislative body and to give due notice thereof in the same manner as hereinbefore set out where notice is required to be given by the legislative body.

SECTION 10.
